

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended April 27, 2024
or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 001-39940

CISCO SYSTEMS, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

77-0059951
(I.R.S. Employer
Identification Number)

170 West Tasman Drive
San Jose, California 95134
(Address of principal executive office and zip code)

(408) 526-4000
(Registrant's telephone number, including area code)

Not Applicable
(Former name, former address and formal fiscal year, if changed since last report.)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common Stock, par value \$0.001 per share	CSCO	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Number of shares of the registrant's common stock outstanding as of May 16, 2024: 4,028,814,776

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Organization and Basis of Presentation

The fiscal year for Cisco Systems, Inc. (the “Company,” “Cisco,” “we,” “us,” or “our”) is the 52 or 53 weeks ending on the last Saturday in July. Fiscal 2024 and fiscal 2023 are each 52-week fiscal years. The Consolidated Financial Statements include our accounts and those of our subsidiaries. All intercompany accounts and transactions have been eliminated. We conduct business globally and are primarily managed on a geographic basis in the following three geographic segments: the Americas; Europe, Middle East, and Africa (EMEA); and Asia Pacific, Japan, and China (APJC).

We have prepared the accompanying financial data as of April 27, 2024 and for the third quarter and first nine months of fiscal 2024 and 2023, without audit, pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States (GAAP) have been condensed or omitted pursuant to such rules and regulations. The July 29, 2023 Consolidated Balance Sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States. However, we believe that the disclosures are adequate to make the information presented not misleading. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended July 29, 2023.

In the opinion of management, all normal recurring adjustments necessary to state fairly the consolidated balance sheet as of April 27, 2024, the results of operations, the statements of comprehensive income and the statements of equity for the third quarter and first nine months of fiscal 2024 and 2023, and the statements of cash flows for the first nine months of fiscal 2024 and 2023, as applicable, have been made. The results of operations for the third quarter and first nine months of fiscal 2024 are not necessarily indicative of the operating results for the full fiscal year or any future periods.

Our consolidated financial statements include our accounts and investments consolidated under the voting interest model. The noncontrolling interests attributed to these investments are not presented as a separate component in the equity section of the Consolidated Balance Sheets as these amounts are not material for any of the fiscal periods presented. The share of earnings attributable to the noncontrolling interests are not presented separately in the Consolidated Statements of Operations as these amounts are not material for any of the fiscal periods presented.

Certain reclassifications have been made to the amounts in prior periods in order to conform to the current period’s presentation. We have evaluated subsequent events through the date that the financial statements were issued.

2. Recent Accounting Pronouncements

(a) Recent Accounting Standards or Updates Not Yet Effective

Segment Reporting In November 2023, the Financial Accounting Standards Board (FASB) issued an accounting standard update that expands the disclosure requirements for reportable segments, primarily through enhanced disclosures around significant segment expenses. The accounting standard update will be effective for our fiscal 2025 Form 10-K on a retrospective basis, and early adoption is permitted. We are currently evaluating the impact of this accounting standard update on our segment disclosures.

Improvements on Income Tax Disclosures In December 2023, the FASB issued an accounting standard update expanding the requirements for disclosure of disaggregated information about the effective tax rate reconciliation and income taxes paid. The accounting standard update will be effective for our fiscal 2026 Form 10-K. We are currently evaluating the impact of this accounting standard update on our income tax disclosures.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

3. Revenue

We enter into contracts with customers that can include various combinations of products and services which are generally distinct and accounted for as separate performance obligations. As a result, our contracts may contain multiple performance obligations. We determine whether arrangements are distinct based on whether the customer can benefit from the product or service on its own or together with other resources that are readily available and whether our commitment to transfer the product or service to the customer is separately identifiable from other obligations in the contract. We classify our hardware, perpetual software licenses, and software-as-a-service (SaaS) as distinct performance obligations. Term software licenses represent multiple obligations, which include software licenses and software maintenance. In transactions where we deliver hardware or software, we are typically the principal and we record revenue and costs of goods sold on a gross basis. We refer to our term software licenses, security software licenses, SaaS, and associated service arrangements as subscription offers.

We recognize revenue upon transfer of control of promised goods or services in a contract with a customer in an amount that reflects the consideration we expect to receive in exchange for those products or services. Transfer of control occurs once the customer has the contractual right to use the product, generally upon shipment, electronic delivery (or when the software is available for download by the customer), or once title and risk of loss has transferred to the customer. Transfer of control can also occur over time for software maintenance and services as the customer receives the benefit over the contract term. Our hardware and perpetual software licenses are distinct performance obligations where revenue is recognized upfront upon transfer of control. Term software licenses include multiple performance obligations where the term licenses are recognized upfront upon transfer of control, with the associated software maintenance revenue recognized ratably over the contract term as services and software updates are provided. SaaS arrangements do not include the right for the customer to take possession of the software during the term, and therefore have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term as the customer consumes the services. On our product sales, we record consideration from shipping and handling on a gross basis within net product sales. We record our revenue net of any associated sales taxes.

An allowance for future sales returns is established based on historical trends in product return rates. The allowance for future sales returns as of April 27, 2024 and July 29, 2023 was \$35 million and \$39 million, respectively, and was recorded as a reduction of our accounts receivable and revenue.

Significant Judgments

Revenue is allocated among these performance obligations in a manner that reflects the consideration that we expect to be entitled to for the promised goods or services based on standalone selling prices (SSP). SSP is estimated for each distinct performance obligation and judgment may be required in their determination. The best evidence of SSP is the observable price of a product or service when we sell the goods separately in similar circumstances and to similar customers. In instances where SSP is not directly observable, we determine SSP using information that may include market conditions and other observable inputs.

We assess relevant contractual terms in our customer contracts to determine the transaction price. We apply judgment in identifying contractual terms and determining the transaction price as we may be required to estimate variable consideration when determining the amount of revenue to recognize. Variable consideration includes potential contractual penalties and various rebate, cooperative marketing and other incentive programs that we offer to our distributors, channel partners and customers. When determining the amount of revenue to recognize, we estimate the expected usage of these programs, applying the expected value or most likely estimate and update the estimate at each reporting period as actual utilization becomes available. We also consider the customers' right of return in determining the transaction price, where applicable.

We assess certain software licenses, such as for security software, that contain critical updates or upgrades which customers can download throughout the contract term. Without these updates or upgrades, the functionality of the software would diminish over a relatively short time period. These updates or upgrades provide the customer the full functionality of the purchased security software licenses and are required to maintain the security license's utility as the risks and threats in the environment are rapidly changing. In these circumstances, the revenue from these software arrangements is recognized as a single performance obligation satisfied over the contract term.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

(a) Disaggregation of Revenue

We disaggregate our revenue into groups of similar products and services that depict the nature, amount, and timing of revenue and cash flows for our various offerings. The sales cycle, contractual obligations, customer requirements, and go-to-market strategies differ for each of our product categories, resulting in different economic risk profiles for each category. Effective in the first quarter of fiscal 2024, we began reporting our product and service revenue in the following categories: Networking, Security, Collaboration, Observability, and Services and conformed our product revenue for prior periods to the current period presentation. The following table presents this disaggregation of revenue (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023

Total Product	9,024	11,092	29,395	31,492
Services	3,678	3,479	10,766	10,303
Total	\$ 12,702	\$ 14,571	\$ 40,161	\$ 41,795

Amounts may not sum due to rounding.

Networking consists of our core networking technologies of switching, routing, wireless, 5G, silicon, optics solutions and compute products. These technologies consist of both hardware and software offerings, including software licenses and SaaS. Our hardware and perpetual software in this category are distinct performance obligations where revenue is recognized upfront upon transfer of control. Term software licenses are multiple performance obligations where the term license is recognized upfront upon transfer of control with the associated software maintenance revenue recognized ratably over the contract term. SaaS arrangements in this category have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term.

Security consists of our Cloud and Application Security, Industrial Security, Network Security, and User and Device Security offerings. This product category includes the Splunk Platform and Splunk Security offerings after our acquisition of Splunk, although the Splunk Platform has use cases that can also be applicable for observability offerings. See Note 4. These products consist of both hardware and software offerings, including software licenses and SaaS. Updates and upgrades for the term software licenses are critical for our software to perform its intended commercial purpose because of the continuous need for our software to secure our customers' network environments against frequent threats. Therefore, security software licenses are generally represented by a single distinct performance obligation with revenue recognized ratably over the contract term. Our hardware and perpetual software in this category are distinct performance obligations where revenue is recognized upfront upon transfer of control. SaaS arrangements in this category have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term.

Collaboration consists of our Meetings, Collaboration Devices, Calling, Contact Center and Communication Platform as a Service (CPaaS) offerings. These products consist primarily of software offerings, including software licenses and SaaS, as well as hardware. Our perpetual software and hardware in this category are distinct performance obligations where revenue is recognized upfront upon transfer of control. Term software licenses are multiple performance obligations where the term license is recognized upfront upon transfer of control with the associated software maintenance revenue recognized ratably over the contract term. SaaS arrangements in this category have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term.

Observability consists of our full stack observability offerings. This product category includes the Splunk Observability Suite after our acquisition of Splunk. This product category excludes the Splunk Platform which includes use cases that can also be associated with observability offerings. See Note 4. These products consist primarily of software offerings, including software licenses and SaaS. Our perpetual software in this category are distinct performance obligations where revenue is recognized upfront upon transfer of control. Term software licenses are multiple performance obligations where the term license is recognized upfront upon transfer of control with the associated software maintenance revenue recognized ratably over the contract term. SaaS arrangements in this category have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

In addition to our product offerings, we provide a broad range of service and support options for our customers, including technical support services and advanced services. Technical support services represent the majority of these offerings which are distinct performance obligations that are satisfied over time with revenue recognized ratably over the contract term. Advanced services are distinct performance obligations that are satisfied over time with revenue recognized as services are delivered.

The sales arrangements as discussed above are typically made pursuant to customer purchase orders based on master purchase or partner agreements. Cash is received based on our standard payment terms which is typically 30 days. We provide financing arrangements to customers for our hardware, software and service offerings. Refer to Note 9 for additional information. For these arrangements, cash is typically received over time.

(b) Contract Balances

Accounts Receivable

Accounts receivable, net was \$5.1 billion as of April 27, 2024 compared to \$5.9 billion as of July 29, 2023, as reported on the Consolidated Balance Sheets.

The allowances for credit loss for our accounts receivable are summarized as follows (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Allowance for credit loss at beginning of period	\$ 79	\$ 86	\$ 85	\$ 83
Provisions	10	9	21	23
Recoveries (write-offs), net	(8)	(12)	(25)	(23)
Allowance for credit loss at end of period	<u>\$ 81</u>	<u>\$ 83</u>	<u>\$ 81</u>	<u>\$ 83</u>

Contract Assets and Liabilities

Gross contract assets by our internal risk ratings are summarized as follows (in millions):

	April 27, 2024	July 29, 2023
1 to 4	\$ 1,176	\$ 672
5 to 6	1,383	954
7 and Higher	70	60
Total	<u>\$ 2,629</u>	<u>\$ 1,686</u>

Contract assets consist of unbilled receivables and are recorded when revenue is recognized in advance of scheduled billings to our customers. These amounts are primarily related to software and service arrangements where transfer of control has occurred but we have not yet invoiced. Our contract assets for these unbilled receivables, net of allowances, were \$2.6 billion as of April 27, 2024 and \$1.6 billion as of July 29, 2023, and were included in other current assets and other assets.

Contract liabilities consist of deferred revenue. Deferred revenue was \$27.5 billion as of April 27, 2024 compared to \$25.6 billion as of July 29, 2023. We recognized approximately \$3.0 billion and \$11.5 billion of revenue during the third quarter and first nine months of fiscal 2024 that was included in the deferred revenue balance at July 29, 2023.

(c) Capitalized Contract Acquisition Costs

We capitalize direct and incremental costs incurred to acquire contracts, primarily sales commissions, for which the associated revenue is expected to be recognized in future periods. We incur these costs in connection with both initial contracts and renewals. These costs are initially deferred and typically amortized over the term of the customer contract which corresponds to the period of benefit. Capitalized contract acquisition costs were \$1.3 billion and \$1.1 billion as of April 27, 2024 and July 29, 2023, respectively, and were included in other current assets and other assets. The amortization expense associated with these costs was \$201 million and \$525 million for the third quarter and first nine months fiscal 2024, respectively, and \$172 million and \$549 million for the corresponding periods of fiscal 2023, respectively, and was included in sales and marketing expenses.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

4. Acquisitions

Acquisition of Splunk Inc.

On March 18, 2024, we completed the acquisition of Splunk Inc. (“Splunk”), a public cybersecurity and observability company. Under the terms of the agreement, we agreed to pay \$157 per share in cash, representing approximately \$27 billion in merger consideration.

Purchase Consideration

The following table summarizes the purchase consideration for the Splunk acquisition (in millions):

	Amount
Cash paid for outstanding Splunk common stock	\$ 26,950
Fair value of converted Splunk equity awards attributable to pre-acquisition services	137
Settlement of pre-existing relationships	3
Total purchase consideration	\$ 27,090

A summary of the preliminary allocation of the total purchase consideration for Splunk is presented as follows (in millions):

	Amount
Cash and cash equivalents	\$ 2,422
Investments	285
Accounts receivable, net	623
Goodwill	19,301
Purchased intangible assets	10,550
Deferred tax assets	1,308
Other current and other assets	1,176
Accounts payable	(39)
Accrued compensation	(337)
Current portion of deferred revenue	(1,768)
Splunk convertible notes	(3,344)
Deferred tax liabilities	(2,572)
Long-term portion of deferred revenue	(86)
Other current and other long-term liabilities	(429)
Total	\$ 27,090

The purchase price allocation for Splunk is preliminary and subject to revision as additional information about fair value of assets and liabilities becomes available. Additional information that existed as of the acquisition date but is currently unknown to us may become known during the remainder of the measurement period, a period not to exceed 12 months from the acquisition date.

Our Consolidated Statements of Operations for the third quarter and first nine months of fiscal 2024 include revenue of \$413 million and a net loss of \$212 million attributable to Splunk since the date of acquisition.

We incurred \$85 million of transaction costs related to the Splunk acquisition and these costs were expensed as incurred in general and administrative expenses (“G&A”) expenses in the Consolidated Statements of Operations. We incurred \$49 million and \$84 million of these costs in the third quarter and first nine months of fiscal 2024, respectively.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

In connection with the Splunk acquisition, we assumed \$3.1 billion aggregate principal amount of notes consisting of Splunk's 1.125% Convertible Senior Notes due 2025, 0.75% Convertible Senior Notes due 2026 and 1.125% Convertible Senior Notes due 2027 (collectively, the "Splunk Convertible Notes"). The Splunk Convertible Notes had an aggregate fair value of \$3.3 billion as of the acquisition date. The Splunk Convertible Notes are convertible and may be settled into cash based on a defined conversion ratio for each note. On the date of the acquisition, we notified holders of their right to convert their notes. In addition, we assumed Splunk's capped call contracts which were intended to reduce potential dilution or offset any cash payments. The capped calls were settled in full in the third quarter of fiscal 2024, which resulted in receipt of aggregate cash proceeds of \$202 million, and were included in other current assets in total purchase consideration noted above. As of April 27, 2024, we have settled \$3.1 billion of the Splunk Convertible Notes, net of capped calls.

The goodwill generated from Splunk is primarily related to expected synergies. Goodwill is not deductible for income tax purposes.

Purchased Intangible Assets

The following table presents as of the acquisition date details of the purchased intangible assets acquired (in millions, except years):

	Weighted-Average Useful Life (in Years)	Amount
Technology	6.0	\$ 3,900
Customer related	9.1	6,140
Trade name	12.0	510
Total		<u>\$ 10,550</u>

Technology represents the preliminary estimated fair value of Splunk's security and observability technologies. Customer related represents preliminary estimated fair value of the underlying relationships with Splunk's customers. Trade name represents the preliminary estimated fair value of the Splunk trade name.

Compensation Expense Related to Splunk

In connection with the Splunk acquisition, we have agreed to pay certain additional amounts contingent upon the continued employment with Cisco of certain Splunk employees. For the third quarter and first nine months of fiscal 2024, the compensation expense was \$165 million. As of April 27, 2024, we estimated that future cash compensation expense of up to \$1.5 billion may be required to be recognized pursuant to acquisition-related agreements.

Pro forma Financial Information

The unaudited pro forma financial information in the table below summarizes the combined results of our operations and Splunk's operations, as though the acquisition of Splunk had been completed as of the beginning of fiscal 2023. The pro forma financial information for the third quarter of fiscal 2024 combines our results for this period with that of Splunk's results for the three month period beginning February 1, 2024 through April 27, 2024. The pro forma financial information for the first nine months of fiscal 2024 combines our results for this period with the results of Splunk for the nine month period beginning August 1, 2023 through April 27, 2024. The pro forma financial information for the third quarter and first nine months of fiscal 2023 combines our historical results for those periods, with the historical results of Splunk for the three and nine months ended April 30, 2023.

The following table summarizes the pro forma financial information (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Total revenue	\$ 13,107	\$ 15,323	\$ 43,119	\$ 44,727
Net income	\$ 1,490	\$ 2,423	\$ 7,127	\$ 6,776

The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition and the cost of financing the acquisition had taken place at the beginning of fiscal 2023. The financial information for the periods presented above includes pro forma adjustments for amortization of purchased intangible assets, costs related to financing the acquisition and transaction costs.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

The above pro forma financial information includes only the impacts of the Splunk acquisition because the effects of the other acquisitions detailed below, individually and in the aggregate, were not material to our financial results.

Other Acquisitions

We completed several additional acquisitions during the first nine months of fiscal 2024 for an aggregate cash consideration of \$1.4 billion. A summary of the allocation of the total purchase consideration of these additional acquisitions completed during the first nine months of fiscal 2024 is presented as follows (in millions):

	Purchase Consideration	Net Tangible Assets Acquired (Liabilities Assumed)	Purchased Intangible Assets	Goodwill
Total other acquisitions	\$ 1,370	\$ (82)	\$ 500	\$ 952

The total purchase consideration related to these other acquisitions completed during the first nine months of fiscal 2024 consisted primarily of cash consideration. The total cash and cash equivalents acquired from these acquisitions was approximately \$24 million. Total transaction costs related to these acquisition activities were \$18 million and \$6 million for the first nine months of fiscal 2024 and 2023, respectively. These transaction costs were expensed as incurred in G&A in the Consolidated Statements of Operations.

The purchase price allocation for these acquisitions completed during recent periods is preliminary and subject to revision as additional information about fair value of assets and liabilities becomes available. Additional information that existed as of the acquisition date but is currently unknown to us may become known during the remainder of the measurement period, a period not to exceed 12 months from the acquisition date.

The goodwill generated from these acquisitions completed during the first nine months of fiscal 2024 is primarily related to expected synergies. The goodwill is generally not deductible for income tax purposes.

Compensation Expense Related to Acquisitions including Splunk

In connection with our acquisitions, we have agreed to pay certain additional amounts contingent upon the continued employment with Cisco of certain employees of the acquired entities.

The following table summarizes the compensation expense related to acquisitions (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Compensation expense related to acquisitions	\$ 216	\$ 53	\$ 310	\$ 176

As of April 27, 2024, we estimated that future cash compensation expense of up to \$2.0 billion may be required to be recognized pursuant to these applicable acquisition agreements, which includes up to \$1.5 billion related to the Splunk acquisition. Total compensation for the third quarter and first nine months of fiscal 2024 includes \$165 million related to the Splunk acquisition.

Total purchased intangible assets with finite lives	4,266	(2,618)	1,648
In-process research and development, with indefinite lives	170	—	170
Total	<u>\$ 4,436</u>	<u>\$ (2,618)</u>	<u>\$ 1,818</u>

Purchased intangible assets include intangible assets acquired through acquisitions as well as through direct purchases or licenses.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Impairment charges related to purchased intangible assets were \$139 million and \$145 million for the third quarter and first nine months of fiscal 2024, respectively. Impairment charges were as a result of declines in estimated fair value resulting from the reductions in or the elimination of expected future cash flows associated with certain of our IPR&D intangible assets.

The following table presents the amortization of purchased intangible assets, including impairment charges (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Amortization of purchased intangible assets:				
Cost of sales	\$ 254	\$ 160	\$ 620	\$ 476
Operating expenses	297	70	430	212
Total	<u>\$ 551</u>	<u>\$ 230</u>	<u>\$ 1,050</u>	<u>\$ 688</u>

The estimated future amortization expense of purchased intangible assets with finite lives as of April 27, 2024 is as follows (in millions):

Fiscal Year	Amount
2024 (remaining three months)	\$ 604
2025	\$ 2,133
2026	\$ 1,785
2027	\$ 1,441
2028	\$ 1,361
Thereafter	\$ 4,455

6. Restructuring and Other Charges

In the third quarter of fiscal 2024, we initiated a restructuring plan (the “Fiscal 2024 Plan”) in order to realign the organization and enable further investment in key priority areas. The Fiscal 2024 Plan will impact approximately 5% of our global workforce, with estimated pretax charges of up to approximately \$800 million. These aggregate pretax charges will be primarily cash-based and consist of severance and other one-time termination benefits and other costs. In connection with the Fiscal 2024 Plan, we incurred charges of \$542 million for the third quarter and first nine months of fiscal 2024. We expect this plan to be substantially completed during the first half of fiscal 2025.

In the second quarter of fiscal 2023, we announced a restructuring plan (the “Fiscal 2023 Plan”) in order to rebalance the organization and enable further investment in key priority areas. In connection with the Fiscal 2023 Plan, we incurred charges of \$135 million for the first nine months of fiscal 2024, and \$87 million and \$330 million for the third quarter and first nine months of fiscal 2023, respectively. These aggregate pretax charges were primarily cash-based and consist of severance and other one-time termination benefits, real estate-related charges, and other costs. We completed the Fiscal 2023 Plan in the second quarter of fiscal 2024 and incurred cumulative charges of \$670 million.

The following table summarizes the activities related to the restructuring and other charges (in millions):

	FISCAL 2023 PLAN		FISCAL 2024 PLAN		Total
	Employee Severance	Other	Employee Severance	Other	
Liability as of July 29, 2023	\$ 166	\$ 44	\$ —	\$ —	\$ 210

8. Leases

(a) Lessee Arrangements

The following table presents our operating lease balances (in millions):

	Balance Sheet Line Item	April 27, 2024	July 29, 2023
Operating lease right-of-use assets	Other assets	\$ 1,008	\$ 971
Operating lease liabilities	Other current liabilities	\$ 344	\$ 313
Operating lease liabilities	Other long-term liabilities	861	707
Total operating lease liabilities		<u>\$ 1,205</u>	<u>\$ 1,020</u>

The components of our lease expenses were as follows (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Operating lease expense	\$ 101	\$ 106	\$ 304	\$ 300
Short-term lease expense	19	16	55	50
Variable lease expense	43	61	149	182
Total lease expense	<u>\$ 163</u>	<u>\$ 183</u>	<u>\$ 508</u>	<u>\$ 532</u>

Supplemental information related to our operating leases is as follows (in millions):

	Nine Months Ended	
	April 27, 2024	April 29, 2023
Cash paid for amounts included in the measurement of lease liabilities — operating cash flows	\$ 279	\$ 290
Right-of-use assets obtained in exchange for operating leases liabilities	\$ 307	\$ 278

The weighted-average lease term was 4.9 years and 4.6 years as of April 27, 2024 and July 29, 2023, respectively. The weighted-average discount rate was 3.8% and 3.1% as of April 27, 2024 and July 29, 2023, respectively.

The maturities of our operating leases (undiscounted) as of April 27, 2024 are as follows (in millions):

Fiscal Year	Amount
2024 (remaining three months)	\$ 105
2025	359
2026	259
2027	179
2028	126
Thereafter	315
Total lease payments	<u>1,343</u>
Less interest	<u>(138)</u>
Total	<u>\$ 1,205</u>

(b) Lessor Arrangements

Our leases primarily represent sales-type leases with terms of four years on average. We provide leasing of our equipment and complementary third-party products primarily through our channel partners and distributors, for which the income arising from these leases is recognized through interest income. Interest income was \$18 million and \$48 million for the third quarter and the first nine months of fiscal 2024, respectively, and \$13 million and \$36 million for the corresponding periods of fiscal 2023, respectively, and was included in interest income in the Consolidated Statement of Operations. The net investment of our lease receivables is measured at the commencement date as the gross lease receivable, residual value less unearned income and allowance for credit loss. For additional information, see Note 9.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Future minimum lease payments on our lease receivables as of April 27, 2024 are summarized as follows (in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2024 (remaining three months)	\$ 192
2025	360
2026	251
2027	154
2028	126
Thereafter	82
Total	1,165
Less: Present value of lease payments	(1,051)
Unearned income	\$ 114

Actual cash collections may differ from the contractual maturities due to early customer buyouts, refinancings, or defaults.

We provide financing of certain equipment through operating leases, and the amounts are included in property and equipment in the Consolidated Balance Sheets. Amounts relating to equipment on operating lease assets held by us and the associated accumulated depreciation are summarized as follows (in millions):

	<u>April 27, 2024</u>	<u>July 29, 2023</u>
Operating lease assets	\$ 120	\$ 135
Accumulated depreciation	(63)	(78)
Operating lease assets, net	\$ 57	\$ 57

Our operating lease income was \$14 million and \$45 million for the third quarter and first nine months of fiscal 2024, respectively, and \$18 million and \$56 million for the corresponding periods of fiscal 2023, respectively, and was included in product revenue in the Consolidated Statements of Operations.

Minimum future rentals on noncancelable operating leases as of April 27, 2024 are summarized as follows (in millions):

<u>Fiscal Year</u>	<u>Amount</u>
2024 (remaining three months)	\$ 8
2025	21
2026	13
2027	2
Total	\$ 44

9. Financing Receivables

(a) Financing Receivables

Financing receivables primarily consist of loan receivables and lease receivables. Loan receivables represent financing arrangements related to the sale of our hardware, software, and services (including technical support and advanced services), and also may include additional funding for other costs associated with network installation and integration of our products and services. Loan receivables have terms of one year to three years on average. Lease receivables represent sales-type leases resulting from the sale of Cisco's and complementary third-party products and are typically collateralized by a security interest in the underlying assets. Lease receivables consist of arrangements with terms of four years on average.

The following table summarizes the maturities of our available-for-sale debt investments as of April 27, 2024 (in millions):

	Amortized Cost	Fair Value
Within 1 year	\$ 2,745	\$ 2,696
After 1 year through 5 years	5,081	4,881
Mortgage-backed securities with no single maturity	2,058	1,830
Total	\$ 9,884	\$ 9,407

Actual maturities may differ from the contractual maturities because borrowers may have the right to call or prepay certain obligations.

(b) Summary of Equity Investments

We held marketable equity securities of \$450 million and \$431 million as of April 27, 2024 and July 29, 2023, respectively. We recognized a net unrealized gain of \$20 million and \$40 million during the third quarter and first nine months of fiscal 2024, respectively, and a net unrealized loss of \$2 million and \$11 million during the corresponding periods of fiscal 2023, respectively, on our marketable securities still held as of the reporting date. Our net adjustments to non-marketable equity securities measured using the measurement alternative still held was a net loss of \$21 million and \$155 million for the third quarter and first nine months of fiscal 2024, respectively, and a net gain of \$7 million and a net loss of \$2 million for the corresponding periods of fiscal 2023, respectively. We held equity interests in certain private equity funds of \$0.8 billion and \$0.9 billion as of April 27, 2024 and July 29, 2023, respectively, which are accounted for under the NAV practical expedient.

In the ordinary course of business, we have investments in privately held companies and provide financing to certain customers. These privately held companies and customers are evaluated for consolidation under the variable interest or voting interest entity models. We evaluate on an ongoing basis our investments in these privately held companies and our customer financings, and have determined that as of April 27, 2024, there were no additional significant variable interest or voting interest entities required to be consolidated in our Consolidated Financial Statements.

The carrying value of our investments in privately held companies was \$1.6 billion and \$1.8 billion as of April 27, 2024 and July 29, 2023, respectively. Of the total carrying value of our investments in privately held companies as of April 27, 2024, \$0.9 billion of such investments are considered to be in variable interest entities which are unconsolidated. As of April 27, 2024, we have total funding commitments of \$0.2 billion related to privately held investments. The carrying value of these investments and the additional funding commitments, collectively, represent our maximum exposure related to privately held investments.

CISCO SYSTEMS, INC.

Total	\$ 6,575	\$ 10,011	\$ 16,586	\$ 8,428	\$ 16,786	\$ 25,214
Liabilities:						
Derivative liabilities	\$ —	\$ 84	\$ 84	\$ —	\$ 75	\$ 75
Total	\$ —	\$ 84	\$ 84	\$ —	\$ 75	\$ 75

Level 1 marketable equity securities are determined by using quoted prices in active markets for identical assets. Level 2 available-for-sale debt investments are priced using quoted market prices for similar instruments or nonbinding market prices that are corroborated by observable market data. We use inputs such as actual trade data, benchmark yields, broker/dealer quotes, and other similar data, which are obtained from quoted market prices, independent pricing vendors, or other sources, to determine the ultimate fair value of these assets and liabilities. We use such pricing data as the primary input to make our assessments and determinations as to the ultimate valuation of our investment portfolio and have not made, during the periods presented, any material adjustments to such inputs. We are ultimately responsible for the financial statements and underlying estimates. Our derivative instruments are primarily classified as Level 2, as they are not actively traded and are valued using pricing models that use observable market inputs. We did not have any transfers between Level 1 and Level 2 fair value measurements during the periods presented.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

(b) Assets Measured at Fair Value on a Nonrecurring Basis

Our non-marketable equity securities using the measurement alternative are adjusted to fair value on a non-recurring basis. Adjustments are made when observable transactions for identical or similar investments of the same issuer occur, or due to impairment. These securities are classified as Level 3 in the fair value hierarchy because we estimate the value based on valuation methods using the observable transaction price at the transaction date and other unobservable inputs such as volatility, rights, and obligations of the securities we hold.

The fair value for purchased intangible assets measured at fair value on a nonrecurring basis was categorized as Level 3 due to the use of significant unobservable inputs in the valuation. Significant unobservable inputs that were used included expected revenues and net income related to the assets and the expected life of the assets. The difference between the estimated fair value and the carrying value of the assets was recorded as an impairment charge, which was included in product cost of sales and operating expenses as applicable. See Note 5.

(c) Other Fair Value Disclosures

The fair value of our short-term loan receivables approximates their carrying value due to their short duration. The aggregate carrying value of our long-term loan receivables as of April 27, 2024 and July 29, 2023 was \$2.6 billion and \$2.9 billion, respectively. The estimated fair value of our long-term loan receivables approximates their carrying value. We use unobservable inputs in determining discounted cash flows to estimate the fair value of our long-term loan receivables, and therefore they are categorized as Level 3.

As of April 27, 2024, the estimated fair value of our short-term debt approximates its carrying value due to the short maturities. As of April 27, 2024, the fair value of our senior notes was \$20.0 billion with a carrying amount of \$20.1 billion. This compares to a fair value of \$8.7 billion and a carrying amount of \$8.4 billion as of July 29, 2023. The fair value of the senior notes was determined based on observable market prices in a less active market and was categorized as Level 2.

12. Borrowings

(a) Short-Term Debt

The following table summarizes our short-term debt (in millions, except percentages):

	April 27, 2024		July 29, 2023	
	Amount	Effective Rate	Amount	Effective Rate
Current portion of long-term debt	\$ —	—	\$ 1,733	4.45 %
Commercial paper	11,891	5.42 %	—	—
Total	\$ 11,891		\$ 1,733	

We have a short-term debt financing program of up to \$15.0 billion through the issuance of commercial paper notes. We use the proceeds from the issuance of commercial paper notes for general corporate purposes.

The effective rates for the short- and long-term debt include the interest on the notes, the accretion of the discount, the issuance costs, and, if applicable, adjustments related to hedging.

Long-term debt		20,102		6,658	
Total		\$ 20,102		\$ 8,391	

In February 2024, we issued senior notes for an aggregate principal amount of \$13.5 billion.

We have entered into interest rate swaps in prior periods with an aggregate notional amount of \$0.5 billion designated as fair value hedges of certain of our fixed-rate senior notes. These swaps convert the fixed interest rates of the fixed-rate notes to floating interest rates based on Secured Overnight Financing Rate (SOFR). The gains and losses related to changes in the fair value of the interest rate swaps substantially offset changes in the fair value of the hedged portion of the underlying debt that are attributable to the changes in market interest rates. For additional information, see Note 13.

Interest is payable semiannually on each class of the senior fixed-rate notes. Each of the senior fixed-rate notes is redeemable by us at any time, subject to a make-whole premium. The senior notes rank at par with the commercial paper notes that have been issued pursuant to our short-term debt financing program, as discussed above under “(a) Short-Term Debt.” As of April 27, 2024, we were in compliance with all debt covenants.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

As of April 27, 2024, future principal payments for long-term debt, including the current portion, are summarized as follows (in millions):

Fiscal Year	Amount
2024 (remaining three months)	\$ —
2025	500
2026	1,751
2027	3,502
2028	—
Thereafter	14,500
Total	\$ 20,253

(c) Credit Facility

On May 13, 2021, we entered into a 5-year \$3.0 billion unsecured revolving credit agreement, as amended on April 18, 2023. On February 2, 2024, we entered into an amended and restated 5-year \$5.0 billion unsecured revolving credit agreement. The interest rate for the credit agreement is determined based on a formula using certain market rates. The credit agreement requires that we comply with certain covenants, including that we maintain an interest coverage ratio (defined in the agreement as the ratio of consolidated EBITDA to consolidated interest expense) of not less than 3.0 to 1.0. As of April 27, 2024, we were in compliance with all associated covenants and we had not borrowed any funds under our credit agreement.

13. Derivative Instruments

(a) Summary of Derivative Instruments

We use derivative instruments primarily to manage exposures to foreign currency exchange rate, interest rate, and equity price risks. Our primary objective in holding derivatives is to reduce the volatility of earnings and cash flows associated with changes in foreign currency exchange rates, interest rates, and equity prices. Our derivatives expose us to credit risk to the extent that the counterparties may be unable to meet the terms of the agreement. We seek to mitigate such risks by limiting our counterparties to major financial institutions and requiring collateral in certain cases. In addition, the potential risk of loss with any one counterparty resulting from credit risk is monitored. Management does not expect material losses as a result of defaults by counterparties.

The fair values of our derivative instruments and the line items on the Consolidated Balance Sheets to which they were recorded are summarized as follows (in millions):

		DERIVATIVE ASSETS			DERIVATIVE LIABILITIES		
		Balance Sheet Line Item	April 27, 2024	July 29, 2023	Balance Sheet Line Item	April 27, 2024	July 29, 2023
Derivatives designated as hedging instruments:

Equity derivatives	Other income (loss), net	—	4	1	8
Total		\$ (68)	\$ (54)	\$ (127)	\$ 37

The notional amounts of our outstanding derivatives are summarized as follows (in millions):

	April 27, 2024	July 29, 2023
Foreign currency derivatives	\$ 7,077	\$ 5,419
Interest rate derivatives	500	1,500
Total return swaps—deferred compensation	915	792
Total	\$ 8,492	\$ 7,711

(b) Offsetting of Derivative Instruments

We present our derivative instruments at gross fair values in the Consolidated Balance Sheets. However, our master netting and other similar arrangements with the respective counterparties allow for net settlement under certain conditions, which are designed to reduce credit risk by permitting net settlement with the same counterparty.

To further limit credit risk, we also enter into collateral security arrangements related to certain derivative instruments whereby cash is posted as collateral between the counterparties based on the fair market value of the derivative instrument. Under these collateral security arrangements, the net cash collateral provided for was \$16 million and \$40 million as of April 27, 2024 and July 29, 2023, respectively.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

(c) Foreign Currency Exchange Risk

We conduct business globally in numerous currencies. Therefore, we are exposed to adverse movements in foreign currency exchange rates. To limit the exposure related to foreign currency changes, we enter into foreign currency contracts. We do not enter into such contracts for speculative purposes.

We hedge forecasted foreign currency transactions related to certain revenues, operating expenses and service cost of sales with currency options and forward contracts. These currency options and forward contracts, designated as cash flow hedges, generally have maturities of less than 24 months. The derivative instrument's gain or loss is initially reported as a component of accumulated other comprehensive income (AOCI) and subsequently reclassified into earnings when the hedged exposure affects earnings.

We enter into foreign exchange forward and option contracts to reduce the short-term effects of foreign currency fluctuations on assets and liabilities such as foreign currency receivables, long-term customer financings and payables. These derivatives are not designated as hedging instruments. Gains and losses on the contracts are included in other income (loss), net, and substantially offset foreign exchange gains and losses from the remeasurement of monetary assets and liabilities denominated in currencies other than the functional currency of the reporting entity.

We hedge certain net investments in our foreign operations with forward contracts to reduce the effects of foreign currency fluctuations on our net investment in those foreign subsidiaries. These derivative instruments generally have maturities of up to six months.

(d) Interest Rate Risk

We hold an interest rate swap designated as a fair value hedge related to a fixed-rate senior note that is due in fiscal 2025. Under the interest rate swap, we receive fixed-rate interest payments and make interest payments based on SOFR plus a fixed number of basis points. The effect of the swap is to convert the fixed interest rate of the senior fixed-rate note to a floating interest rate based on SOFR. The gain and loss related to changes in the fair value of the interest rate swap is included in interest expense and substantially offset the change in the fair value of the hedged portion of the underlying debt attributable to the change in market interest rates.

(e) Equity Price Risk

We hold marketable equity securities in our portfolio that are subject to price risk. To diversify our overall portfolio, we also hold equity derivatives that are not designated as accounting hedges. The change in the fair value of each of these investment types are included in other income (loss), net.

We are also exposed to variability in compensation charges related to certain deferred compensation obligations to employees and directors. Although not designated as accounting hedges, we utilize derivatives such as total return swaps to economically hedge this exposure and offset the related compensation expense.

14. Commitments and Contingencies

(a) Purchase Commitments with Contract Manufacturers and Suppliers

We purchase components from a variety of suppliers and use several contract manufacturers to provide manufacturing services for our products. During the normal course of business, in order to manage manufacturing lead times and help ensure adequate component supply, we enter into agreements with contract manufacturers and suppliers that allow them to procure inventory based upon criteria as defined by us or establish the parameters defining our requirements. A significant portion of our reported purchase commitments arising from these agreements consists of firm, noncancelable, and unconditional commitments. Certain of these inventory purchase commitments with contract manufacturers and suppliers relate to arrangements to secure supply and pricing for certain product components for multi-year periods. In certain instances, these agreements allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to firm orders being placed.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

The following table summarizes our inventory purchase commitments with contract manufacturers and suppliers by period (in millions):

	April 27, 2024	July 29, 2023
Less than 1 year	\$ 4,581	\$ 5,270
1 to 3 years	1,368	1,783
3 to 5 years	55	200
Total	<u>\$ 6,004</u>	<u>\$ 7,253</u>

We record a liability for firm, noncancelable, and unconditional purchase commitments for quantities in excess of our future demand forecasts consistent with the valuation of our excess and obsolete inventory. As of April 27, 2024 and July 29, 2023, the liability for these purchase commitments was \$550 million and \$529 million, respectively, and was included in other current liabilities.

(b) Other Commitments

We have certain funding commitments, primarily related to our privately held investments. The funding commitments were \$0.2 billion and \$0.3 billion as of April 27, 2024 and July 29, 2023, respectively.

(c) Product Warranties

The following table summarizes the activity related to the product warranty liability (in millions):

	Nine Months Ended	
	April 27, 2024	April 29, 2023
Balance at beginning of period	\$ 329	\$ 333
Provisions for warranties issued	316	285
Adjustments for pre-existing warranties	20	15
Settlements	(302)	(321)
Balance at end of period	<u>\$ 363</u>	<u>\$ 312</u>

We accrue for warranty costs as part of our cost of sales based on associated material product costs, labor costs for technical support staff, and associated overhead. Our products are generally covered by a warranty for periods ranging from 90 days to five years, and for some products we provide a limited lifetime warranty.

(d) Financing and Other Guarantees

In the ordinary course of business, we provide financing guarantees for various third-party financing arrangements extended to channel partners customers. Payments under these financing guarantee arrangements were not material for the periods presented.

Channel Partner Financing Guarantees We facilitate arrangements for third-party financing extended to channel partners, consisting of revolving short-term financing, with payment terms generally ranging from 60 to 90 days. These financing arrangements facilitate the working capital requirements of the channel partners, and, in some cases, we guarantee a portion of these arrangements. The volume of channel partner financing was \$6.1 billion and \$8.3 billion for the third quarter of fiscal 2024 and 2023, respectively, and \$20.9 billion and \$23.4 billion for the first nine months of fiscal 2024 and 2023, respectively. The balance of the channel partner financing subject to guarantees was \$1.1 billion and \$1.7 billion as of April 27, 2024 and July 29, 2023, respectively.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Financing Guarantee Summary. The aggregate amounts of channel partner financing guarantees outstanding at April 27, 2024 and July 29, 2023, representing the total maximum potential future payments under financing arrangements with third parties along with the related deferred revenue, are summarized in the following table (in millions):

	April 27, 2024	July 29, 2023
Maximum potential future payments	\$ 126	\$ 159
Deferred revenue	(25)	(34)
Total	<u>\$ 101</u>	<u>\$ 125</u>

(e) Indemnifications

In the normal course of business, we have indemnification obligations to other parties, including customers, lessors, and parties to other transactions with us, with respect to certain matters. We have agreed to indemnify against losses arising from a breach of representations or covenants or out of intellectual property infringement or other claims made against certain parties. These agreements may limit the time or circumstances within which an indemnification claim can be made and the amount of the claim.

It is not possible to determine the maximum potential amount for claims made under the indemnification obligations due to uncertainties in the litigation process, coordination with and contributions by other parties and the defendants in these types of cases, and the unique facts and circumstances involved in each particular case and agreement. Historically, indemnity payments made by us have not had a material effect on our Consolidated Financial Statements.

In addition, we have entered into indemnification agreements with our officers and directors, and our Amended and Restated Bylaws contain similar indemnification obligations to our agents.

(f) Legal Proceedings

Brazil Brazilian authorities have investigated our Brazilian subsidiary and certain of its former employees, as well as a Brazilian importer of our products, and its affiliates and employees, relating to alleged evasion of import taxes and alleged improper transactions involving the subsidiary and the importer. Brazilian tax authorities have assessed claims against our Brazilian subsidiary based on a theory of joint liability with the Brazilian importer for import taxes, interest, and penalties. In addition to claims asserted by the Brazilian federal tax authorities in prior fiscal years, tax authorities from the Brazilian state of Sao Paulo have asserted similar claims on the same legal basis in prior fiscal years. The asserted claims by Brazilian federal tax authorities are for calendar years 2003 through 2007, and the asserted claims by the tax authorities from the state of Sao Paulo are for calendar years 2005 through 2007. The total asserted claims by Brazilian state and federal tax authorities aggregate to \$157 million for the alleged evasion of import and other taxes, \$902 million for interest, and \$357 million for various penalties, all determined using an exchange rate as of April 27, 2024.

We have completed a thorough review of the matters and believe the asserted claims against our Brazilian subsidiary are without merit, and we are defending the claims vigorously. While we believe there is no legal basis for the alleged liability, due to the complexities and uncertainty surrounding the judicial process in Brazil and the nature of the claims asserting joint liability with the importer, we are unable to determine the likelihood of an unfavorable outcome against our Brazilian subsidiary and are unable to reasonably estimate a range of loss, if any. We do not expect a final judicial determination for several years.

Centripetal On February 13, 2018, Centripetal Networks, Inc. (“Centripetal”) asserted patent infringement claims against us in the U.S. District Court for the Eastern District of Virginia, alleging that several of our products and services infringe eleven Centripetal U.S. patents. After two bench trials and various administrative actions and appeals, we have been found either to not have infringed any of the patents or the patents have been invalidated. There is an appeal of one of the invalidity decisions and we expect a further appeal by Centripetal.

Between April 2020 and February 2022, Centripetal also filed complaints in the District Court of Dusseldorf in Germany (“German Court”), asserting a total of five patents and one utility model. Centripetal sought damages and injunctive relief in all cases. In various proceedings in 2021, 2022, and 2023, we have been found to have not infringed three patents, one patent was invalidated, the utility model was invalidated, and the infringement action on the final patent is stayed due to a pending invalidity action, which has a hearing set for June 6, 2024. Centripetal’s appeals of two of the non-infringement findings remain pending and, on March 27, 2024, the Court of Appeals rejected Centripetal’s appeal of the third non-infringement finding.

On July 10, 2023, Centripetal filed a complaint in the Paris Judiciary Court asserting the French counterpart of a European Patent. Centripetal seeks damages and injunctive relief in the case. Centripetal previously asserted the German counterpart of the same European Patent in Germany and the German Court rejected Centripetal’s complaint finding no infringement. We

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

have filed our response and defenses to the complaint and, on May 24, 2024, we expect the Paris Judiciary Court to decide our motion to dismiss and, if denied, it will set the schedule for the remainder of the proceedings.

Due to uncertainty surrounding patent litigation processes in the U.S. and Europe, we are unable to reasonably estimate the ultimate outcome of the litigations at this time. If we do not prevail in these litigations, we believe that any damages ultimately assessed would not have a material effect on our Consolidated Financial Statements.

Ramot On June 12, 2019 and on February 26, 2021, Ramot at Tel Aviv University Ltd. (“Ramot”) asserted patent infringement claims against Cisco and Acacia in the U.S. District Court for the Eastern District of Texas (“E.D. Tex.”) and in the District of Delaware (“D. Del.”), respectively. Ramot is seeking damages, including enhanced damages, and a royalty on future sales. Ramot alleges that certain optical transceiver modules and line cards infringe three patents. We challenged the validity of the patents in the U.S. Patent and Trademark Office (“PTO”) and the pending District Court cases have been stayed. On September 28, 2021 and May 24, 2022, Cisco and Acacia filed two declaratory judgment actions of noninfringement against Ramot in D. Del on other Ramot patents and those proceedings are ongoing.

While we believe that we have strong non-infringement and invalidity arguments in these litigations, and that Ramot’s damages theories in such cases are not supported by prevailing law, we are unable to reasonably estimate the ultimate outcome of these litigations at this time due to uncertainties in the litigation processes. If we do not prevail in court in these litigations, we believe any damages ultimately assessed would not have a material effect on our Consolidated Financial Statements.

Egenera On August 8, 2016, Egenera, Inc. (“Egenera”) asserted infringement claims against us in the U.S. District Court for the District of Massachusetts, alleging that Cisco’s Unified Computing System Manager infringes three patents. Egenera sought damages, including enhanced damages, and an injunction. Two of the asserted patents were dismissed, leaving Egenera’s infringement claim based on one asserted patent. On March 25, 2022, the PTO preliminarily found all of the asserted claims of the remaining patent unpatentable in ex parte reexamination proceedings. On August 15, 2022, after a jury trial for the remaining patent, the jury returned a verdict in favor of Cisco. The District Court denied Egenera’s post-trial motions, and Egenera filed an appeal to the Federal Circuit on January 13, 2023, the appeal is fully briefed and we are awaiting a hearing date from the Federal Circuit.

Viasat On November 6, 2019, Viasat, Inc. (“Viasat”) filed suit against Acacia in the California Superior Court for San Diego County (“SDSC”), alleging contract and trade secret claims for certain Acacia products sold from January 1, 2019 forward. On June 9, 2020, Viasat filed another suit in SDSC alleging contract and trade secret claims for sales of additional Acacia products. Both matters have been formally dismissed and resolved during fiscal 2024 through a settlement for an amount that did not have a material effect on our Consolidated Financial Statements.

In addition to the above matters, we are subject to other legal proceedings, claims, and litigation arising in the ordinary course of business, including intellectual property litigation. While the outcome of these matters is currently not determinable, we do not believe that the ultimate costs to resolve these matters will have a material effect on our Consolidated Financial Statements. For additional information regarding intellectual property litigation, see “Part II, Item 1A. Risk Factors—We may be found to infringe on intellectual property rights of others” herein.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

15. Stockholders' Equity

(a) Stock Repurchase Program

In September 2001, our Board of Directors authorized a stock repurchase program. As of April 27, 2024, the remaining authorized amount for stock repurchases under this program was approximately \$7.2 billion with no termination date. The stock repurchase activity for fiscal 2024 and 2023 under the stock repurchase program, reported based on the trade date, is summarized as follows (in millions, except per-share amounts):

<u>Quarter Ended</u>	<u>Shares</u>	<u>Weighted-Average Price per Share</u>		<u>Amount</u>
Fiscal 2024				
April 27, 2024	26	\$	49.22	\$ 1,256
January 27, 2024	25	\$	49.54	\$ 1,254
October 28, 2023	23	\$	54.53	\$ 1,252
Fiscal 2023				
July 29, 2023	25	\$	50.49	\$ 1,254
April 29, 2023	25	\$	49.45	\$ 1,259
January 28, 2023	26	\$	47.72	\$ 1,256
October 29, 2022	12	\$	43.76	\$ 502

There were stock repurchases of \$38 million and \$48 million that were pending settlement as of April 27, 2024 and July 29, 2023, respectively.

The purchase price for the shares of our stock repurchased is reflected as a reduction to stockholders' equity. We are required to allocate the purchase price of the repurchased shares as (i) a reduction to retained earnings or an increase to accumulated deficit and (ii) a reduction of common stock and additional paid-in capital.

(b) Dividends Declared

On May 15, 2024, our Board of Directors declared a quarterly dividend of \$0.40 per common share to be paid on July 24, 2024, to all stockholders of record as of the close of business on July 5, 2024. Future dividends will be subject to the approval of our Board of Directors.

(c) Preferred Stock

Under the terms of our Amended and Restated Certificate of Incorporation, the Board of Directors is authorized to issue preferred stock in one or more series and, in connection with the creation of such series, to fix by resolution the designation, powers (including voting powers (if any)), preferences and relative, participating, optional or other special rights, if any, of such series, and any qualifications, limitations or restrictions thereof, of the shares of such series. As of April 27, 2024, we had not issued any shares of preferred stock.

16. Employee Benefit Plans

(a) Employee Stock Incentive Plans

We have one stock incentive plan: the 2005 Stock Incentive Plan (the "2005 Plan"). In addition, we have, in connection with our acquisitions of various companies, assumed the share-based awards granted under stock incentive plans of the acquired companies or issued share-based awards in replacement thereof. Share-based awards are designed to reward employees for their long-term contributions to us and provide incentives for them to remain with us. The number and frequency of share-based awards are based on competitive practices, our operating results, government regulations, and other factors. Our primary stock incentive plan is summarized as follows:

The 2005 Plan provides for the granting of stock options, stock grants, stock units and stock appreciation rights (SARs), the vesting of which may be time-based or upon satisfaction of performance goals, or both, and/or other conditions. Employees (including employee directors and executive officers) and consultants of Cisco and its subsidiaries and affiliates and non-employee directors of Cisco are eligible to participate in the 2005 Plan. The 2005 Plan may be terminated by our Board of Directors at any time and for any reason, and is currently set to terminate at the 2030 Annual Meeting unless re-adopted or extended by our stockholders prior to or on such date.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Under the 2005 Plan's share reserve feature, a distinction is made between the number of shares in the reserve attributable to (i) stock options and SARs and (ii) "full value" awards (i.e., stock grants and stock units). Shares issued as stock grants, pursuant to stock units or pursuant to the settlement of dividend equivalents are counted against shares available for issuance under the 2005 Plan on a 1.5-to-1 ratio. For each share awarded as restricted stock or a restricted stock unit award under the 2005 Plan, 1.5 shares was deducted from the available share-based award balance. If awards issued under the 2005 Plan are forfeited or terminated for any reason before being exercised or settled, then the shares underlying such awards, plus the number of additional shares, if any, that counted against shares available for issuance under the 2005 Plan at the time of grant as a result of the application of the share ratio described above, will become available again for issuance under the 2005 Plan. As of April 27, 2024, 165 million shares were authorized for future grant under the 2005 Plan.

(b) Employee Stock Purchase Plan

We have an Employee Stock Purchase Plan under which eligible employees are offered shares through a 24-month offering period, which consists of four consecutive 6-month purchase periods. Employees may purchase a limited amount of shares of our stock at a discount of up to 15% of the lesser of the fair market value at the beginning of the offering period or the end of each 6-month purchase period. The Employee Stock Purchase Plan is scheduled to terminate on the earlier of (i) January 3, 2030 and (ii) the date on which all shares available for issuance under the Employee Stock Purchase Plan are sold pursuant to exercised purchase rights. No shares were issued under the Employee Stock Purchase Plan during each of the third quarters of fiscal 2024 and 2023. As of April 27, 2024, 78 million shares were available for issuance under the Employee Stock Purchase Plan.

(c) Summary of Share-Based Compensation Expense

Share-based compensation expense consists primarily of expenses for RSUs and stock purchase rights, granted to employees or assumed from acquisitions. The following table summarizes share-based compensation expense (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Cost of sales—product	\$ 57	\$ 40	\$ 157	\$ 111
Cost of sales—service	82	66	224	182
Share-based compensation expense in cost of sales	139	106	381	293
Research and development	349	272	967	737
Sales and marketing	221	175	628	494
General and administrative	95	71	282	200
Restructuring and other charges	7	(1)	16	(4)
Share-based compensation expense in operating expenses	672	517	1,893	1,427
Total share-based compensation expense	\$ 811	\$ 623	\$ 2,274	\$ 1,720
Income tax benefit for share-based compensation	\$ 179	\$ 111	\$ 524	\$ 319

As of April 27, 2024, the total compensation cost related to unvested share-based awards not yet recognized was \$4.5 billion which is expected to be recognized over approximately 2.0 years on a weighted-average basis.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

(d) Restricted Stock Unit Awards

A summary of the restricted stock and stock unit activity, which includes time-based and performance-based or market-based RSUs, is as follows (in millions, except per-share amounts):

	Restricted Stock/ Stock Units	Weighted-Average Grant Date Fair Value per Share	Aggregate Fair Value
Unvested balance at July 30, 2022	97	\$ 46.67	
Granted and assumed	72	42.08	
Vested	(39)	46.69	\$ 1,746
Canceled/forfeited/other	(8)	45.17	
Unvested balance at July 29, 2023	122	\$ 44.04	
Granted and assumed	50	50.42	
Vested	(44)	43.10	\$ 2,264
Canceled/forfeited/other	(9)	45.30	
Unvested balance at April 27, 2024	119	\$ 46.97	

17. Comprehensive Income (Loss)

The components of AOCI, net of tax, and the other comprehensive income (loss), for the first nine months of fiscal 2024 and 2023 are summarized as follows (in millions):

	Net Unrealized Gains (Losses) on Available-for-Sale Investments	Net Unrealized Gains (Losses) Cash Flow Hedging Instruments	Cumulative Translation Adjustment and Actuarial Gains (Losses)	Accumulated Other Comprehensive Income (Loss)
Balance at July 29, 2023	\$ (440)	\$ 18	\$ (1,153)	\$ (1,575)
Other comprehensive income (loss) before reclassifications	74	122	(223)	(27)
(Gains) losses reclassified out of AOCI	57	(36)	(2)	19
Tax benefit (expense)	(26)	(20)	(1)	(47)
Balance at April 27, 2024	\$ (335)	\$ 84	\$ (1,379)	\$ (1,630)

	Net Unrealized Gains (Losses) on Available-for-Sale Investments	Net Unrealized Gains (Losses) Cash Flow Hedging Instruments	Cumulative Translation Adjustment and Actuarial Gains (Losses)	Accumulated Other Comprehensive Income (Loss)
Balance at July 30, 2022	\$ (379)	\$ 44	\$ (1,287)	\$ (1,622)

18. Income Taxes

The following table provides details of income taxes (in millions, except percentages):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Income before provision for income taxes	\$ 2,235	\$ 3,957	\$ 9,838	\$ 10,847
Provision for income taxes	\$ 349	\$ 745	\$ 1,680	\$ 2,192
Effective tax rate	15.6 %	18.8 %	17.1 %	20.2 %

As of April 27, 2024, we had \$2.2 billion of unrecognized tax benefits, of which \$1.5 billion, if recognized, would favorably impact the effective tax rate. We regularly engage in discussions and negotiations with tax authorities regarding tax matters in various jurisdictions. We believe it is reasonably possible that certain federal, foreign, and state tax matters may be concluded in the next 12 months. Specific positions that may be resolved include issues involving transfer pricing and various other matters.

19. Segment Information and Major Customers

(a) Revenue and Gross Margin by Segment

We conduct business globally and are primarily managed on a geographic basis consisting of three segments: the Americas, EMEA, and APJC. Our management makes financial decisions and allocates resources based on the information it receives from our internal management system. Sales are attributed to a segment based on the ordering location of the customer. We do not allocate research and development, sales and marketing, or general and administrative expenses to our segments in this internal management system because management does not include the information in our measurement of the performance of the operating segments. In addition, we do not allocate amortization and impairment of acquisition-related intangible assets, share-based compensation expense, significant litigation settlements and other contingencies, charges related to asset impairments and restructurings, and certain other charges to the gross margin for each segment because management does not include this information in our measurement of the performance of the operating segments.

Summarized financial information by segment for the third quarter and first nine months of fiscal 2024 and 2023, based on our internal management system and as utilized by our Chief Operating Decision Maker (“CODM”), is as follows (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Revenue:				
Americas	\$ 7,372	\$ 8,634	\$ 23,904	\$ 24,372
EMEA	3,458	3,806	10,606	11,209
APJC	1,873	2,131	5,652	6,214
Total	\$ 12,702	\$ 14,571	\$ 40,161	\$ 41,795
Gross margin:				
Americas	\$ 5,006	\$ 5,545	\$ 15,906	\$ 15,449
EMEA	2,406	2,536	7,324	7,330
APJC	1,262	1,415	3,816	3,986
Segment total	8,673	9,495	27,046	26,764
Unallocated corporate items	(400)	(263)	(999)	(759)
Total	\$ 8,273	\$ 9,232	\$ 26,047	\$ 26,005

Amounts may not sum due to rounding.

Revenue in the United States was \$6.6 billion and \$7.7 billion for the third quarter of fiscal 2024 and 2023, respectively and \$21.4 billion and \$21.7 billion for the first nine months of fiscal 2024 and 2023, respectively.

CISCO SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(b) Revenue for Groups of Similar Products and Services

We design and sell Internet Protocol (IP)-based networking and other products related to the communications and IT industry and provide services associated with these products and their use. Effective in the first quarter of fiscal 2024, we began reporting our product and service revenue in the following categories: Networking, Security, Collaboration, Observability, and Services and conformed our product revenue for prior periods to the current period presentation.

The following table presents revenue for groups of similar products and services (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Revenue:				
Networking	\$ 6,522	\$ 8,982	\$ 22,425	\$ 25,105
Security	1,304	958	3,288	2,872
Collaboration	987	985	3,093	3,029
Observability	211	167	589	486
Total Product	9,024	11,092	29,395	31,492
Services	3,678	3,479	10,766	10,303
Total	\$ 12,702	\$ 14,571	\$ 40,161	\$ 41,795

Amounts may not sum due to rounding.

20. Net Income per Share

The following table presents the calculation of basic and diluted net income per share (in millions, except per-share amounts):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Net income	\$ 1,886	\$ 3,212	\$ 8,158	\$ 8,655
Weighted-average shares—basic	4,042	4,089	4,051	4,100
Effect of dilutive potential common shares	18	21	20	11
Weighted-average shares—diluted	4,060	4,110	4,071	4,111
Net income per share—basic	\$ 0.47	\$ 0.79	\$ 2.01	\$ 2.11
Net income per share—diluted	\$ 0.46	\$ 0.78	\$ 2.00	\$ 2.11
Antidilutive employee share-based awards, excluded	11	24	58	75

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including this Management’s Discussion and Analysis of Financial Condition and Results of Operations, contains forward-looking statements regarding future events and our future results that are subject to the safe harbors created under the Securities Act of 1933, as amended (the “Securities Act”), and the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements other than statements of historical facts are statements that could be deemed forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which we operate and the beliefs and assumptions of our management. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “momentum,” “seeks,” “estimates,” “continues,” “endeavors,” “strives,” “may,” variations of such words, and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, our anticipated growth and trends in our businesses, and other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties, and assumptions that are difficult to predict, including those under “Part II, Item 1A. Risk Factors,” and elsewhere herein. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update any forward-looking statements for any reason.

OVERVIEW

Cisco designs and sells a broad range of technologies that power the Internet. We are integrating our product portfolios across networking, security, collaboration, applications and the cloud to create highly secure, intelligent platforms for our customers’ digital businesses. These platforms are designed to help our customers manage more users, devices and things connecting to their networks. This will enable us to provide customers with a highly secure, intelligent platform for their digital business.

A summary of our results is as follows (in millions, except percentages and per-share amounts):

	Three Months Ended			Nine Months Ended		
	April 27, 2024	April 29, 2023	% Variance	April 27, 2024	April 29, 2023	% Variance

NM – Not Meaningful

Percentages may not recalculate due to rounding.

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Total revenue decreased by 13% compared with the third quarter of fiscal 2023. In March 2024, we completed the acquisition of Splunk, which contributed \$413 million in total revenue for the third quarter of fiscal 2024. Within total revenue, product revenue decreased by 19% and service revenue increased by 6%. In the third quarter of fiscal 2024, total software revenue was \$4.5 billion across all product areas and service, an increase of 5%, driven by the contribution of Splunk. Within total software revenue, subscription revenue increased 17%, driven in large part by the contribution of Splunk.

In the third quarter of fiscal 2024, we continued to see customers scrutinizing spend. We saw a decline in product demand in the first half of fiscal 2024, which was primarily due to customers needing additional time to implement elevated levels of product shipments received in prior quarters. Even though we saw improved product deployments by customers in the third quarter of fiscal 2024, we believe that some impacts on overall product demand may continue through at least the end of fiscal 2024 as customers complete the installation of the majority of their product deployments.

Total gross margin increased by 1.7 percentage points. Product gross margin increased by 0.8 percentage points, largely driven by favorable product mix and productivity improvements, partially offset by pricing erosion. As a percentage of revenue, research and development, sales and marketing, and general and administrative expenses, collectively, increased by 6.1 percentage points. Operating income as a percentage of revenue decreased by 9.9 percentage points primarily driven by restructuring and other charges of \$542 million and higher amortization of purchased intangible assets in the third quarter of fiscal 2024. Diluted earnings per share decreased 41%, driven by a decrease of 41% in net income, partially offset by a decrease in diluted share count of 50 million shares.

In terms of our geographic segments, revenue from the Americas decreased by \$1.3 billion, EMEA revenue decreased by \$348 million and APJC revenue decreased by \$258 million. From a customer market standpoint, we experienced product revenue declines across all of our customer markets. From a product category perspective, the product revenue decrease of 19% was driven by a decline in revenue in Networking of 27%. This decline was partially offset by product revenue growth in Security of 36% and Observability of 27%, each driven in large part by the contribution of Splunk. Product revenue in Collaboration was flat.

We remain focused on delivering innovation across our technologies to assist our customers in executing on their digital transformations and on accelerating innovation across our portfolio. We believe that we are making progress on our strategic priorities. We continue to operate in a challenging macroeconomic and highly competitive environment and while the overall environment remains uncertain, we continue to invest in priority areas with the objective of driving profitable growth over the long term.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Total revenue decreased 4%, with product revenue decreasing 7% and service revenue increasing 5%. Total gross margin increased 2.7 percentage points due to productivity improvements and favorable product mix, partially offset by pricing erosion. As a percentage of revenue, research and development, sales and marketing, and general and administrative expenses, collectively, increased by 3.2 percentage points. Operating income as a percentage of revenue decreased by 2.0 percentage points. We incurred restructuring and other charges of \$677 million in the first nine months of fiscal 2024. Diluted earnings per share decreased 5%, driven by a decrease of 6% in net income, partially offset by a decrease in diluted share count of 40 million shares.

Strategy and Priorities

As our customers add billions of new connections to their enterprises, and as more applications move to a multicloud environment, the network becomes even more critical. Our customers are navigating change at an unprecedented pace. In this dynamic environment, we believe their priorities are to transform infrastructure, secure the enterprise, power hybrid work, reimagine applications, and drive toward sustainability. Our strategy is to securely connect everything. We are committed to driving a trusted customer experience, through our innovation, solutions, choice, and people.

For additional discussion of our strategy and priorities, see Item 1. Business in our Annual Report on Form 10-K for the fiscal year ended July 29, 2023.

Other Key Financial Measures

The following is a summary of our other key financial measures for the third quarter of fiscal 2024 (in millions):

	April 27, 2024	July 29, 2023
Cash and cash equivalents and investments	\$ 18,770	\$ 26,146
Remaining performance obligations	\$ 38,774	\$ 34,868
Inventories	\$ 3,118	\$ 3,644
Total debt	\$ 31,993	\$ 8,391
	Nine Months Ended	
	April 27, 2024	April 29, 2023
Cash provided by operating activities	\$ 7,150	\$ 13,920
Repurchases of common stock—stock repurchase program	\$ 3,762	\$ 3,017
Dividends paid	\$ 4,778	\$ 4,713

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires us to make judgments, assumptions, and estimates that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Note 2 to the Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended July 29, 2023, as updated as applicable in Note 2 to the Consolidated Financial Statements herein, describes the significant accounting policies and methods used in the preparation of the Consolidated Financial Statements. The accounting policies described below are significantly affected by critical accounting estimates. Such accounting policies require significant judgments, assumptions, and estimates used in the preparation of the Consolidated Financial Statements, and actual results could differ materially from the amounts reported based on these policies.

Revenue Recognition

We enter into contracts with customers that can include various combinations of products and services which are generally distinct and accounted for as separate performance obligations. As a result, our contracts may contain multiple performance obligations. We determine whether arrangements are distinct based on whether the customer can benefit from the product or service on its own or together with other resources that are readily available and whether our commitment to transfer the product or service to the customer is separately identifiable from other obligations in the contract. We classify our hardware, perpetual software licenses, and SaaS as distinct performance obligations. Term software licenses represent multiple obligations, which include software licenses and software maintenance. In transactions where we deliver hardware or software, we are typically the principal and we record revenue and costs of goods sold on a gross basis.

We recognize revenue upon transfer of control of promised goods or services in a contract with a customer in an amount that reflects the consideration we expect to receive in exchange for those products or services. Transfer of control occurs once the customer has the contractual right to use the product, generally upon shipment, electronic delivery (or when the software is available for download by the customer), or once title and risk of loss has transferred to the customer. Transfer of control can also occur over time for software maintenance and services as the customer receives the benefit over the contract term. Our hardware and perpetual software licenses are distinct performance obligations where revenue is recognized upfront upon transfer of control. Term software licenses include multiple performance obligations where the term licenses are recognized upfront upon transfer of control, with the associated software maintenance revenue recognized ratably over the contract term as services and software updates are provided. SaaS arrangements do not include the right for the customer to take possession of the software during the term, and therefore have one distinct performance obligation which is satisfied over time with revenue recognized ratably over the contract term as the customer consumes the services. On our product sales, we record consideration from shipping and handling on a gross basis within net product sales. We record our revenue net of any associated sales taxes.

Revenue is allocated among these performance obligations in a manner that reflects the consideration that we expect to be entitled to for the promised goods or services based on standalone selling prices (SSP). SSP is estimated for each distinct performance obligation and judgment may be required in their determination. The best evidence of SSP is the observable price of a product or service when we sell the goods separately in similar circumstances and to similar customers. In instances where SSP is not directly observable, we determine SSP using information that may include market conditions and other observable inputs.

We assess relevant contractual terms in our customer contracts to determine the transaction price. We apply judgment in identifying contractual terms and determining the transaction price as we may be required to estimate variable consideration when determining the amount of revenue to recognize. Variable consideration includes potential contractual penalties and various rebate, cooperative marketing and other incentive programs that we offer to our distributors, channel partners and customers. When determining the amount of revenue to recognize, we estimate the expected usage of these programs, applying the expected value or most likely estimate and update the estimate at each reporting period as actual utilization becomes available. We also consider the customers' right of return in determining the transaction price, where applicable. If actual credits received by distributors under these programs were to deviate significantly from our estimates, which are based on historical experience, our revenue could be adversely affected.

See Note 3 to the Consolidated Financial Statements for more details.

Inventory Valuation and Liability for Purchase Commitments with Contract Manufacturers and Suppliers

Inventory is written down based on excess and obsolete inventories, determined primarily by future demand forecasts. Inventory write-downs are measured as the difference between the cost of the inventory and net realizable value, based upon assumptions about future demand, and are charged to the provision for inventory, which is a component of our cost of sales. At the point of the loss recognition, a new, lower cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

We record a liability for firm, noncancelable, and unconditional purchase commitments with contract manufacturers and suppliers for quantities in excess of our future demand forecasts consistent with the valuation of our excess and obsolete inventory.

Our provision for inventory was \$90 million and \$82 million for the third quarter of fiscal 2024 and 2023, respectively, and \$348 million and \$174 million for the first nine months of fiscal 2024 and 2023, respectively. The provision for the liability related to purchase commitments with contract manufacturers and suppliers was \$85 million and \$134 million for the third quarter of fiscal 2024 and 2023, respectively, and \$213 million and \$333 million for the first nine months of fiscal 2024 and 2023, respectively. If there were to be a sudden and significant decrease in demand for our products, if there were a higher incidence of inventory obsolescence because of rapidly changing technology and customer requirements, or if supply constraints were to continue, we could be required to increase our inventory write-downs, and our liability for purchase commitments with contract manufacturers and suppliers, and accordingly our profitability, could be adversely affected. We regularly evaluate our exposure for inventory write-downs and the adequacy of our liability for purchase commitments. For further discussion around the Supply Constraints Impacts and Risks, see “—Results of Operations—Gross Margin—Supply Constraints Impacts and Risks” and “—Liquidity and Capital Resources—Inventory Supply Chain.”

Loss Contingencies

We are subject to the possibility of various losses arising in the ordinary course of business. We consider the likelihood of the incurrence of a liability, as well as our ability to reasonably estimate the amount of loss, in determining loss contingencies. An estimated loss contingency is accrued when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. We regularly evaluate information available to us to determine whether such accruals should be made or adjusted and whether new accruals are required.

Third parties, including customers, have in the past and may in the future assert claims or initiate litigation related to exclusive patent, copyright, trademark, and other intellectual property rights to technologies and related standards that are relevant to us. These assertions have increased over time as a result of our growth and the general increase in the pace of patent claims assertions, particularly in the United States. If any infringement or other intellectual property claim made against us by any third party is successful, or if we fail to develop non-infringing technology or license the proprietary rights on commercially reasonable terms and conditions, our business, operating results, and financial condition could be materially and adversely affected.

Goodwill and Purchased Intangible Asset Impairments

Our methodology for allocating the purchase price relating to purchase acquisitions is determined through established valuation techniques. Goodwill represents a residual value as of the acquisition date, which in most cases results in measuring goodwill as an excess of the purchase consideration transferred plus the fair value of any noncontrolling interest in the acquired company over the fair value of net assets acquired, including contingent consideration. We perform goodwill impairment tests on an annual basis in the fourth fiscal quarter and between annual tests in certain circumstances for each reporting unit. The assessment of fair value for goodwill and purchased intangible assets is based on factors that market participants would use in an orderly transaction in accordance with the new accounting guidance for the fair value measurement of nonfinancial assets.

In response to changes in industry and market conditions, we could be required to strategically realign our resources and consider restructuring, disposing of, or otherwise exiting businesses, which could result in an impairment of goodwill. There was no impairment of goodwill in each of the first nine months of fiscal 2024 and 2023.

The accounting for acquisitions requires significant estimates and judgments when allocating the purchase price to the estimated fair values of assets acquired and liabilities assumed at the acquisition date. Critical estimates used in the valuation of intangible assets include, but are not limited to, the amount and timing of expected future cash flows, useful lives and discount rates. While our estimates of fair value are based on assumptions that are believed to be reasonable, these assumptions are inherently uncertain and unpredictable and would not reflect unanticipated events and circumstances that may occur.

We make judgments about the recoverability of purchased intangible assets with finite lives whenever events or changes in circumstances indicate that an impairment may exist. Recoverability of purchased intangible assets with finite lives is measured by comparing the carrying amount of the asset group to the future undiscounted cash flows the asset group is expected to generate. We review indefinite-lived intangible assets for impairment annually or whenever events or changes in circumstances indicate that the asset might be impaired. If the asset is considered to be impaired, the amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset. Assumptions and estimates about future values and remaining useful lives of our purchased intangible assets are complex and subjective. They can be affected by a variety of factors, including external factors such as industry and economic trends, and internal factors such as changes in our

business strategy and our internal forecasts. Our ongoing consideration of all the factors described previously could result in impairment charges in the future, which could adversely affect our net income.

Income Taxes

We are subject to income taxes in the United States and numerous foreign jurisdictions. Our effective tax rates differ from the statutory rate, primarily due to the tax impact of state taxes, foreign operations, R&D tax credits, foreign-derived intangible income deductions, global intangible low-taxed income, tax audit settlements, nondeductible compensation, and international realignments. Our effective tax rate was 15.6% and 18.8% in the third quarter of fiscal 2024 and 2023, respectively, and 17.1% and 20.2% in the first nine months of fiscal 2024 and 2023, respectively.

Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. Although we believe our reserves are reasonable, no assurance can be given that the final tax outcome of these matters will not be different from that which is reflected in our historical income tax provisions and accruals. We adjust these reserves in light of changing facts and circumstances, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will impact the provision for income taxes in the period in which such determination is made. The provision for income taxes includes the impact of reserve provisions and changes to reserves that are considered appropriate, as well as the related net interest and penalties.

Significant judgment is also required in determining any valuation allowance recorded against deferred tax assets. In assessing the need for a valuation allowance, we consider all available evidence, including past operating results, estimates of future taxable income, and the feasibility of tax planning strategies. In the event that we change our determination as to the amount of deferred tax assets that can be realized, we will adjust our valuation allowance with a corresponding impact to the provision for income taxes in the period in which such determination is made.

Our provision for income taxes is subject to volatility and could be adversely impacted by earnings being lower than anticipated in countries that have lower tax rates and higher than anticipated in countries that have higher tax rates; by changes in the valuation of our deferred tax assets and liabilities; by changes to foreign-derived intangible income deduction, global intangible low-tax income and base erosion and anti-abuse tax, research and development capitalization and amortization, and corporate alternative minimum tax laws, regulations, or interpretations thereof; by expiration of or lapses in tax incentives; by transfer pricing adjustments, including the effect of acquisitions on our legal structure; by tax effects of nondeductible compensation; by tax costs related to intercompany realignments; by changes in accounting principles; or by changes in tax laws and regulations, treaties, or interpretations thereof, including changes to the taxation of earnings of our foreign subsidiaries, the deductibility of expenses attributable to foreign income, and the foreign tax credit rules. Significant judgment is required to determine the recognition and measurement attributes prescribed in the accounting guidance for uncertainty in income taxes. The Organisation for Economic Co-operation and Development (OECD), an international association comprised of 38 countries, including the United States, has made changes and is contemplating additional changes to numerous long-standing tax principles. There can be no assurance that these changes and any contemplated changes if finalized, once adopted by countries, will not have an adverse impact on our provision for income taxes. As a result of certain of our ongoing employment and capital investment actions and commitments, our income in certain countries was subject to reduced tax rates. Our failure to meet these commitments could adversely impact our provision for income taxes. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service (IRS) and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes. There can be no assurance that the outcomes from these continuous examinations will not have an adverse impact on our operating results and financial condition.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

RESULTS OF OPERATIONS

Revenue

The following table presents the breakdown of revenue between product and service (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent
Revenue:								
Product	\$ 9,024	\$ 11,092	\$ (2,068)	(19)%	\$ 29,395	\$ 31,492	\$ (2,097)	(7)%
Percentage of revenue	71.0 %	76.1 %			73.2 %	75.3 %		
Service	3,678	3,479	199	6 %	10,766	10,303	463	5 %
Percentage of revenue	29.0 %	23.9 %			26.8 %	24.7 %		
Total	<u>\$ 12,702</u>	<u>\$ 14,571</u>	<u>\$ (1,869)</u>	(13)%	<u>\$ 40,161</u>	<u>\$ 41,795</u>	<u>\$ (1,634)</u>	(4)%

Amounts may not sum and percentages may not recalculate due to rounding.

Total revenue for the third quarter and first nine months of fiscal 2024 includes \$413 million relating to the acquisition of Splunk, which consisted of \$338 million in product revenue and \$75 million in service revenue.

We manage our business primarily on a geographic basis, organized into three geographic segments. Our revenue, which includes product and service for each segment, is summarized in the following table (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent
Revenue:								
Americas	\$ 7,372	\$ 8,634	\$ (1,262)	(15)%	\$ 23,904	\$ 24,372	\$ (468)	(2)%

Amounts may not sum and percentages may not recalculate due to rounding.

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Total revenue decreased by 13%. Product revenue decreased by 19% and service revenue increased by 6%. Our total revenue reflected declines across each of our geographic segments.

In addition to the impact of macroeconomic factors, including the IT spending environment and the level of spending by government entities, revenue by segment in a particular period may be significantly impacted by the timing of revenue recognition for complex transactions with multiple performance obligations. In addition, certain customers tend to make large and sporadic purchases, and the revenue related to these transactions may also be affected by the timing of revenue recognition, which in turn would impact the revenue of the relevant segment.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Total revenue decreased by 4%. Product revenue decreased by 7% and service revenue increased by 5%. Our total revenue reflected declines across each of our geographic segments.

Americas
Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Product revenue in the Americas segment decreased by 21%, with declines across each of our customer markets. The acquisition of Splunk contributed \$221 million of product revenue to the Americas segment for the third quarter and first nine months of fiscal 2024. From a country perspective, product revenue decreased in the United States, Canada, Mexico and Brazil by 21%, 6%, 27% and 18%, respectively.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Product revenue in the Americas segment decreased by 4%, with declines in the enterprise and service provider and cloud markets, partially offset by growth in the public sector market. From a country perspective, product revenue decreased in the United States, Canada, Mexico and Brazil by 4%, 7%, 7% and 8%, respectively.

EMEA
Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Product revenue in the EMEA segment decreased by 14%, driven by declines across each of the customer markets. The acquisition of Splunk contributed \$76 million of product revenue to the EMEA segment for the third quarter and first nine months of fiscal 2024. From a country perspective, product revenue decreased in the United Kingdom, Germany and France by 9%, 18% and 8%, respectively.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Product revenue in the EMEA segment decreased by 8%, driven by declines in the enterprise and service provider and cloud markets, partially offset by growth in the public sector market. From a country perspective, product revenue decreased in the United Kingdom, Germany, and France by 9%, 12% and 12%, respectively.

APJC
Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Product revenue in the APJC segment decreased by 19%, with declines across each of the customer markets. The acquisition of Splunk contributed \$41 million of product revenue to the APJC segment for the third quarter and first nine months of fiscal 2024. From a country perspective, product revenue decreased in Japan, India, Australia, and China by 11%, 17%, 22% and 32%, respectively.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Product revenue in the APJC segment decreased by 14%, with declines across each of the customer markets. From a country perspective, product revenue decreased in Japan, India, Australia, and China by 14%, 11%, 12% and 37%, respectively.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Product Revenue by Category

In addition to the primary view on a geographic basis, we also prepare financial information related to product categories and customer markets for various purposes. Effective in the first quarter of fiscal 2024, we began reporting our product revenue in the following categories: Networking, Security, Collaboration, and Observability and conformed our product revenue for prior periods to the current period presentation.

The following table presents product revenue by category (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent
Product Revenue								
Networking	\$ 6,522	\$ 8,982	\$ (2,460)	(27)%	\$ 22,425	\$ 25,105	\$ (2,680)	(11)%
Security	1,304	958	346	36 %	3,288	2,872	416	14 %
Collaboration	987	985	2	— %	3,093	3,029	64	2 %
Observability	211	167	44	27 %	589	486	103	21 %
Total	<u>\$ 9,024</u>	<u>\$ 11,092</u>	<u>\$ (2,068)</u>	<u>(19)%</u>	<u>\$ 29,395</u>	<u>\$ 31,492</u>	<u>\$ (2,097)</u>	<u>(7)%</u>

Amounts may not sum and percentages may not recalculate due to rounding.

Networking

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The Networking product category represents our core networking technologies of switching, routing, wireless, 5G, silicon, optics solutions and compute products. Revenue from the Networking product category decreased by 27%, or \$2.5 billion. Revenue declined across most of the portfolio and across each of our geographic segments due to continued implementation of inventory by our customers.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Revenue from the Networking product category decreased by 11%, or \$2.7 billion. Revenue declined in both campus switching and data center switching, primarily driven by declines in our Catalyst 9000 series and Nexus 9000 series offerings. We experienced a revenue decline in enterprise routing, although we saw revenue growth in our SD-WAN offerings. The decrease in wireless was primarily driven by our WiFi-6 products and Meraki offerings. We also saw a revenue decline in routed optical networking.

Security

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The Security product category consists of our Cloud and Application Security, Industrial Security, Network Security, and User and Device Security offerings. This product category includes the Splunk Platform and Splunk Security offerings after our acquisition of Splunk, although the Splunk Platform has use cases that can also be applicable for observability offerings. Revenue in our Security product category increased by 36%, or \$346 million, primarily driven by the contribution of Splunk offerings and to a lesser extent, growth in our Secure Access Service Edge offerings and double-digit growth in our Zero Trust offerings. The Security product category grew 3%, not including the contribution from Splunk offerings.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Revenue from the Security product category increased by 14%, or \$416 million, primarily driven by the contribution of Splunk offerings and the growth in our Zero Trust offerings. The Security product category grew 3%, not including the contribution from Splunk offerings.

Collaboration

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The Collaboration product category consists of our Meetings, Collaboration Devices, Calling, Contact Center and CPaaS offerings. Revenue in our Collaboration product category was flat, primarily driven by growth in our Calling and Contact Center offerings, offset by a decline in Meetings and Collaboration Devices.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Revenue from our Collaboration product category increased by 2%, or \$64 million, primarily driven by growth in Calling, Collaboration Devices and Contact Center offerings, partially offset by a decline in Meetings.

Observability

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The Observability product category consists of our full stack observability offerings. This product category includes the Splunk Observability Suite after our acquisition of Splunk. This product category excludes the Splunk Platform which includes use cases that can also be associated with observability offerings. Revenue in our Observability product category increased 27%, or \$44 million, driven by growth in our ThousandEyes network services offerings and the contribution from Splunk. Product revenue in the Observability product category increased 14%, not including the contribution from Splunk.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Revenue from the Observability product category increased by 21%, or \$103 million, primarily driven by growth in our ThousandEyes network services offerings and the contribution from Splunk. Product revenue in the Observability product category increased 17%, not including the contribution from Splunk.

Service Revenue by Segment

The following table presents the breakdown of service revenue by segment (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent
Service revenue:								
Americas	\$ 2,217	\$ 2,115	\$ 102	5 %	\$ 6,552	\$ 6,279	\$ 273	4 %
Percentage of service revenue	60.3 %	60.8 %			60.9 %	60.9 %		
EMEA	878	817	61	7 %	2,548	2,417	131	5 %
Percentage of service revenue	23.9 %	23.5 %			23.7 %	23.5 %		
APJC	584	547	37	7 %	1,667	1,606	61	4 %
Percentage of service revenue	15.8 %	15.7 %			15.4 %	15.6 %		
Total	\$ 3,678	\$ 3,479	\$ 199	6 %	\$ 10,766	\$ 10,303	\$ 463	5 %

Amounts may not sum and percentages may not recalculate due to rounding.

Service revenue increased 6% in the third quarter of fiscal 2024 compared with the third quarter of fiscal 2023, primarily driven by revenue growth in our solution support offerings, software support offerings, maintenance business and advisory services. The acquisition of Splunk also contributed to the growth in service revenue in the third quarter of fiscal 2024. Service revenue increased across each of our geographic segments for the third quarter of fiscal 2024. Service revenue grew 4%, not including the contribution from Splunk.

Service revenue increased 5% in the first nine months of fiscal 2024 compared to the first nine months of fiscal 2023, primarily driven by revenue growth in our solution support offerings, advisory services and maintenance business. The acquisition of Splunk also contributed to the growth in service revenue in the first nine months of fiscal 2024. Service revenue increased across each of our geographic segments. Service revenue grew 4%, not including the contribution from Splunk.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Gross Margin

The following table presents the gross margin for products and services (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	AMOUNT		PERCENTAGE		AMOUNT		PERCENTAGE	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Gross margin:								
Product	\$ 5,729	\$ 6,956	63.5 %	62.7 %	\$ 18,700	\$ 19,139	63.6 %	60.8 %
Service	2,544	2,276	69.2 %	65.4 %	7,347	6,866	68.2 %	66.6 %
Total	<u>\$ 8,273</u>	<u>\$ 9,232</u>	<u>65.1 %</u>	<u>63.4 %</u>	<u>\$ 26,047</u>	<u>\$ 26,005</u>	<u>64.9 %</u>	<u>62.2 %</u>

Product Gross Margin

The following table summarizes the key factors that contributed to the change in product gross margin percentage for the third quarter and first nine months of fiscal 2024, as compared with the corresponding prior year periods:

	Product Gross Margin Percentage	
	Three Months Ended	Nine Months Ended
Fiscal 2023	62.7 %	60.8 %
Productivity ⁽¹⁾	1.7 %	2.1 %
Product pricing	(1.9)%	(0.2)%
Mix of products sold	2.1 %	1.5 %
Amortization of purchased intangible assets	(1.4)%	(0.6)%
Impact of Splunk offerings	0.7 %	0.2 %
Others	(0.4)%	(0.2)%
Fiscal 2024	<u>63.5 %</u>	<u>63.6 %</u>

⁽¹⁾ Productivity includes overall manufacturing-related costs, such as component costs, warranty expense, provision for inventory, freight, logistics, shipment volume, and other items not categorized elsewhere.

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Product gross margin increased by 0.8 percentage points primarily driven by favorable product mix, productivity improvements, largely driven by lower freight and other costs, and benefits from the acquisition of Splunk. These impacts were partially offset by pricing erosion and the amortization of purchased intangible assets.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Product gross margin increased by 2.8 percentage points primarily driven by productivity improvements, largely driven by lower freight and other costs, favorable product mix, and to a lesser extent, benefits from the acquisition of Splunk. These impacts were partially offset by the amortization of purchased intangible assets and pricing erosion.

Supply Chain Impacts and Risks

In past periods, we took multiple actions in order to mitigate component shortages and address significant supply constraints. Additionally, these supply constraints resulted in significant increased costs (i.e., component and other commodity costs, expedite fees, etc.) which had a negative impact on our product gross margin and resulted in extended lead times for us and our customers. The mitigating actions we took included: partnering with several of our key suppliers utilizing our volume purchasing ability and extending supply coverage, including, in certain cases, revising supplier arrangements; paying and committing to pay in the future significantly higher costs for certain components; modifying our product designs in order to leverage alternate suppliers, where possible; and continually optimizing our inventory build and customer delivery plans, among others. These mitigating actions have resulted in increased inventory supply chain balances compared to historical levels. This in turn has increased our supply chain exposure, which could result in negative impacts to our product gross margin in future periods, including material excess and obsolete charges, if product demand significantly decreases for a sustained duration or we are unable to continue to mitigate the remaining supply chain exposures. We believe these mitigating actions have helped us to optimize our access to critical components and meet customer demand for our products as a result of the

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

component shortages and significant supply constraints we saw in past periods. While we have seen a decrease in our overall inventory supply chain balances in recent periods, these balances continue to be higher as compared to historical levels.

Service Gross Margin

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Our service gross margin percentage increased by 3.8 percentage points primarily due to lower headcount-related costs and higher sales volume, partially offset by unfavorable mix of service offerings and to a lesser extent, higher delivery costs.

Our service gross margin normally experiences some fluctuations due to various factors such as the timing of contract initiations in our renewals, our strategic investments in headcount, and the resources we deploy to support the overall service business. Other factors include the mix of service offerings, as the gross margin from our advanced services is typically lower than the gross margin from technical support services.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Service gross margin increased by 1.6 percentage points primarily due to higher sales volume and lower headcount-related costs, partially offset by unfavorable mix of service offerings.

Gross Margin by Segment

The following table presents the total gross margin for each segment (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	AMOUNT		PERCENTAGE		AMOUNT		PERCENTAGE	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Gross margin:								
Americas	\$ 5,006	\$ 5,545	67.9 %	64.2 %	\$ 15,906	\$ 15,449	66.5 %	63.4 %
EMEA	2,406	2,536	69.6 %	66.6 %	7,324	7,330	69.1 %	65.4 %
APJC	1,262	1,415	67.4 %	66.4 %	3,816	3,986	67.5 %	64.2 %
Segment total	8,673	9,495	68.3 %	65.2 %	27,046	26,764	67.3 %	64.0 %
Unallocated corporate items ⁽¹⁾	(400)	(263)			(999)	(759)		
Total	\$ 8,273	\$ 9,232	65.1 %	63.4 %	\$ 26,047	\$ 26,005	64.9 %	62.2 %

⁽¹⁾ The unallocated corporate items include the effects of amortization and impairments of acquisition-related intangible assets, share-based compensation expense, significant litigation settlements and other contingencies, charges related to asset impairments and restructurings, and certain other charges. We do not allocate these items to the gross margin for each segment because management does not include such information in measuring the performance of the operating segments.

Amounts may not sum and percentages may not recalculate due to rounding.

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

We experienced a gross margin percentage increase in our Americas segment due to favorable product mix, higher service gross margin and positive impacts from productivity improvements, partially offset by pricing erosion.

Gross margin percentage in our EMEA segment increased primarily due to favorable product mix, higher service gross margin and positive impacts from productivity improvements, partially offset by pricing erosion.

The APJC segment gross margin percentage increase was primarily due to favorable product mix, higher service gross margin and positive impacts from productivity improvements, partially offset by pricing erosion.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

The Americas segment had a gross margin percentage increase driven by positive impacts from productivity improvements and favorable product mix.

The gross margin percentage increase in our EMEA segment was primarily due to positive impacts from productivity improvements and favorable product mix, partially offset by pricing erosion.

The APJC segment gross margin percentage increase was driven by positive impacts from productivity improvements and favorable product mix, partially offset by pricing erosion.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Research and Development (“R&D”), Sales and Marketing, and General and Administrative (“G&A”) Expenses

R&D, sales and marketing, and G&A expenses are summarized in the following table (in millions, except percentages):

	Three Months Ended				Nine Months Ended			
	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent	April 27, 2024	April 29, 2023	Variance in Dollars	Variance in Percent
Research and development	\$ 1,948	\$ 1,962	\$ (14)	(1)%	\$ 5,804	\$ 5,598	\$ 206	4 %
Percentage of revenue	15.3 %	13.5 %			14.5 %	13.4 %		
Sales and marketing	2,559	2,526	33	1 %	7,523	7,301	222	3 %
Percentage of revenue	20.1 %	17.3 %			18.7 %	17.5 %		
General and administrative	736	641	95	15 %	2,050	1,788	262	15 %
Percentage of revenue	5.8 %	4.4 %			5.1 %	4.3 %		
Total	\$ 5,243	\$ 5,129	\$ 114	2 %	\$ 15,377	\$ 14,687	\$ 690	5 %
Percentage of revenue	41.3 %	35.2 %			38.3 %	35.1 %		

R&D Expenses

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

R&D expenses decreased due to lower headcount-related expenses and lower contracted services spending, partially offset by higher share-based compensation expense, higher cash compensation from acquisitions and higher discretionary spending.

We continue to invest in R&D in order to bring a broad range of products to market in a timely fashion. If we believe that we are unable to enter a particular market in a timely manner with internally developed products, we may purchase or license technology from other businesses, or we may partner with or acquire businesses as an alternative to internal R&D.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

R&D expenses increased due to higher share-based compensation expense and higher discretionary spending, partially offset by lower headcount-related expenses and lower contracted services spending.

Sales and Marketing Expenses

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Sales and marketing expenses increased primarily due to higher share-based compensation expense and higher cash compensation from acquisitions, partially offset by lower contracted services spending and lower headcount-related expenses.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Sales and marketing expenses increased primarily due to higher share-based compensation expense, higher discretionary spending, higher cash compensation from acquisitions and higher headcount-related expenses, partially offset by lower contracted services spending.

G&A Expenses

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

G&A expenses increased due to higher acquisition-related costs and higher share-based compensation expense, partially offset by lower headcount-related expenses and lower contracted services spending.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

G&A expenses increased due to higher acquisition-related costs, higher share-based compensation expense and higher discretionary spending.

Effect of Foreign Currency

In the third quarter of fiscal 2024, foreign currency fluctuations, net of hedging, decreased the combined R&D, sales and marketing, and G&A expenses by approximately \$3 million, or 0.1%, compared with the third quarter of fiscal 2023.

In the first nine months of fiscal 2024, foreign currency fluctuations, net of hedging, increased the combined R&D, sales and marketing, and G&A expenses by approximately \$46 million, or 0.3%, compared with the first nine months of fiscal 2023.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Amortization of Purchased Intangible Assets

The following table presents the amortization of purchased intangible assets including impairment charges (in millions):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Amortization of purchased intangible assets:				
Cost of sales	\$ 254	\$ 160	\$ 620	\$ 476
Operating expenses	297	70	430	212
Total	<u>\$ 551</u>	<u>\$ 230</u>	<u>\$ 1,050</u>	<u>\$ 688</u>

For each of the third quarter and first nine months of fiscal 2024, the increase in amortization of purchased intangible assets was primarily due to amortization of purchased intangibles from our recent acquisitions, including \$187 million for the third quarter and first nine months of fiscal 2024 due to the acquisition of Splunk, and impairment charges of \$139 million and \$145 million for the third quarter and first nine months of fiscal 2024, respectively. The increase was partially offset by certain purchased intangible assets that became fully amortized. The impairment charges were primarily due to declines in estimated fair value resulting from reductions in or the elimination of expected future cash flows associated with certain of our IPR&D intangible assets.

Restructuring and Other Charges

In the third quarter of fiscal 2024, we initiated a restructuring plan in order to realign the organization and enable further investment in key priority areas. This restructuring plan will impact approximately 5% of our global workforce, with estimated pretax charges of up to approximately \$800 million. In connection with this restructuring plan, we incurred charges of \$542 million in the third quarter and the first nine months of fiscal 2024. We expect this plan to be substantially completed during the first half of fiscal 2025.

In the second quarter of fiscal 2023, we announced a restructuring plan in order to rebalance the organization and enable further investment in key priority areas. In connection with this restructuring plan, we incurred charges of \$135 million in the first nine months of fiscal 2024. We completed this restructuring plan in the second quarter of fiscal 2024 and incurred cumulative charges of \$670 million.

We expect to reinvest substantially all of the cost savings from these restructuring plans in our key priority areas. As a result, the overall cost savings from these restructuring plans are not expected to be material for future periods.

Operating Income

The following table presents our operating income and our operating income as a percentage of revenue (in millions, except percentages):

	Three Months Ended		Nine Months Ended	
	April 27, 2024	April 29, 2023	April 27, 2024	April 29, 2023
Operating income	\$ 2,191	\$ 3,946	\$ 9,563	\$ 10,778
Operating income as a percentage of revenue	17.2 %	27.1 %	23.8 %	25.8 %

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

Operating income decreased by 44%, and operating income as a percentage of revenue decreased by 9.9 percentage points. These changes resulted primarily from a revenue decrease, higher restructuring and other charges and higher amortization of purchased intangible assets, partially offset by a gross margin percentage increase (driven by favorable product mix and productivity improvements, partially offset by pricing erosion).

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

Operating income decreased by 11%, and operating income as a percentage of revenue decreased by 2.0 percentage points. These changes resulted primarily from a revenue decrease, higher restructuring and other charges and higher amortization of purchased intangible assets, partially offset by a gross margin percentage increase (driven by productivity improvements and favorable product mix, partially offset by pricing erosion).

Interest Income (Expense), Net The following table summarizes interest income and interest expense (in millions):

	Three Months Ended			Nine Months Ended		
	April 27, 2024	April 29, 2023	Variance in Dollars	April 27, 2024	April 29, 2023	Variance in Dollars
Interest income	\$ 411	\$ 262	\$ 149	\$ 1,095	\$ 650	\$ 445
Interest expense	(357)	(109)	(248)	(588)	(316)	(272)
Interest income (expense), net	\$ 54	\$ 153	\$ (99)	\$ 507	\$ 334	\$ 173

For the third quarter and first nine months of fiscal 2024, the increase in interest income was driven by higher average balance of cash and available-for-sale debt investments and higher interest rates. The increase in interest expense was primarily driven by higher interest rates and the issuance of senior notes and commercial paper issued in the third quarter of fiscal 2024. We incurred incremental net interest expense of approximately \$150 million for the third quarter and first nine months of fiscal 2024 to finance the acquisition of Splunk. We expect lower interest income in future periods due to lower average balance of cash and available-for-sale debt investments and higher interest expense due to a higher balance of debt.

Other Income (Loss), Net The components of other income (loss), net, are summarized as follows (in millions):

	Three Months Ended			Nine Months Ended		
	April 27, 2024	April 29, 2023	Variance in Dollars	April 27, 2024	April 29, 2023	Variance in Dollars
Gains (losses) on investments, net:						
Available-for-sale debt investments	\$ (14)	\$ (6)	\$ (8)	\$ (57)	\$ (15)	\$ (42)
Marketable equity investments	19	(8)	27	35	(10)	45
Privately held investments	(8)	(120)	112	(163)	(193)	30
Net gains (losses) on investments	(3)	(134)	131	(185)	(218)	33
Other gains (losses), net	(7)	(8)	1	(47)	(47)	—
Other income (loss), net	\$ (10)	\$ (142)	\$ 132	\$ (232)	\$ (265)	\$ 33

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The change in our other income (loss), net was primarily driven by changes in net gains (losses) on our privately held investments, primarily driven by lower impairment charges and higher realized gains on our privately held investments and changes in net gains (losses) on available-for-sale debt investments and marketable equity investments.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

The change in our other income (loss), net was primarily driven by changes in net gains (losses) on our privately held investments, primarily driven by higher impairment charges on our privately held investments, partially offset by higher realized gains on our privately held investments, and changes in net gain (losses) on available-for-sale debt investments and marketable equity investments.

Provision for Income Taxes

Three Months Ended April 27, 2024 Compared with Three Months Ended April 29, 2023

The provision for income taxes resulted in an effective tax rate of 15.6% for the third quarter of fiscal 2024 compared with 18.8% for the third quarter of fiscal 2023. The decrease in the effective tax rate was primarily due to an increase in benefit from R&D tax credits.

Nine Months Ended April 27, 2024 Compared with Nine Months Ended April 29, 2023

The provision for income taxes resulted in an effective tax rate of 17.1% for the first nine months of fiscal 2024 compared with 20.2% for the first nine months of fiscal 2023. The decrease in the effective tax rate was primarily due to an increase in benefit from R&D tax credits, a decrease in net discrete tax expenses, and an increase in stock-based compensation windfall.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

LIQUIDITY AND CAPITAL RESOURCES

The following sections discuss the effects of changes in our balance sheet, our capital allocation strategy including stock repurchase program and dividends, our contractual obligations, and certain other commitments and activities on our liquidity and capital resources.

Balance Sheet and Cash Flows

Cash and Cash Equivalents and Investments The following table summarizes our cash and cash equivalents and investments (in millions):

	April 27, 2024	July 29, 2023	Increase (Decrease)
Cash and cash equivalents	\$ 8,913	\$ 10,123	\$ (1,210)
Available-for-sale debt investments	9,407	15,592	(6,185)
Marketable equity securities	450	431	19
Total	\$ 18,770	\$ 26,146	\$ (7,376)

The net decrease in cash and cash equivalents and investments in the first nine months of fiscal 2024 was primarily driven by a net outflow for the acquisition of Splunk of \$27.4 billion, cash returned to stockholders in the form of cash dividends of \$4.8 billion and repurchases of common stock of \$3.8 billion, repayment of debt of \$1.8 billion, net cash paid for our other acquisitions, excluding Splunk, of \$1.6 billion and capital expenditures of \$0.5 billion. These uses of cash were partially offset by the issuance of senior notes for net proceeds of \$13.4 billion, net issuances of commercial paper notes of \$11.8 billion, and net cash provided by operating activities of \$7.2 billion. The net cash provided by operating activities for the first nine months of fiscal 2024 includes the fiscal 2023 federal tax payment of \$2.8 billion that was deferred by the IRS as a result of the California floods and the U.S. transition tax payment of \$1.4 billion.

We maintain an investment portfolio of various holdings, types, and maturities. We classify our investments as short-term investments based on their nature and their availability for use in current operations. We believe the overall credit quality of our portfolio is strong, with our cash equivalents and our available-for-sale debt investment portfolio consisting primarily of high quality investment-grade securities. We believe that our strong cash and cash equivalents and investments position allows us to use our cash resources for strategic investments to gain access to new technologies, for acquisitions, for customer financing activities, for working capital needs, and for the repurchase of shares of common stock and payment of dividends as discussed below.

Securities Lending We periodically engage in securities lending activities with certain of our available-for-sale debt investments. These transactions are accounted for as a secured lending of the securities, and the securities are typically loaned only on an overnight basis. We require collateral equal to at least 102% of the fair market value of the loaned security and that the collateral be in the form of cash or liquid, high-quality assets. We engage in these secured lending transactions only with highly creditworthy counterparties, and the associated portfolio custodian has agreed to indemnify us against collateral losses. We did not experience any losses in connection with the secured lending of securities during the periods presented. As of April 27, 2024 and July 29, 2023, we had no outstanding securities lending transactions.

Free Cash Flow and Capital Allocation As part of our capital allocation strategy, we target to return a minimum of 50% of our free cash flow annually to our stockholders through cash dividends and repurchases of common stock.

We define free cash flow as net cash provided by operating activities less cash used to acquire property and equipment. The following table reconciles our net cash provided by operating activities to free cash flow (in millions):

	Nine Months Ended	
	April 27, 2024	April 29, 2023
Net cash provided by operating activities	\$ 7,150	\$ 13,920
Acquisition of property and equipment	(472)	(616)
Free cash flow	\$ 6,678	\$ 13,304

We expect that cash provided by operating activities may fluctuate in future periods as a result of a number of factors, including fluctuations in our operating results, the rate at which products are shipped during the quarter (which we refer to as shipment linearity), the timing and collection of accounts receivable and financing receivables, inventory and supply chain management,

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

deferred revenue, and the timing and amount of tax and other payments. For additional discussion, see “Part II, Item 1A. Risk Factors” in this report.

We consider free cash flow to be a liquidity measure that provides useful information to management and investors because of our intent to return a stated percentage of free cash flow to stockholders in the form of dividends and stock repurchases. We further regard free cash flow as a useful measure because it reflects cash that can be used to, among other things, invest in our business, make strategic acquisitions, repurchase common stock, and pay dividends on our common stock, after deducting capital investments. A limitation of the utility of free cash flow as a measure of financial performance and liquidity is that the free cash flow does not represent the total increase or decrease in our cash balance for the period. In addition, we have other required uses of cash, including repaying the principal of our outstanding indebtedness. Free cash flow is not a measure calculated in accordance with U.S. generally accepted accounting principles and should not be regarded in isolation or as an alternative for net cash provided by operating activities or any other measure calculated in accordance with such principles, and other companies may calculate free cash flow in a different manner than we do.

The following table summarizes the dividends paid and stock repurchases (in millions, except per-share amounts):

	DIVIDENDS			STOCK REPURCHASE PROGRAM				
Quarter Ended	Per Share		Amount	Shares	Weighted-Average Price per Share		Amount	TOTAL
Fiscal 2024								
April 27, 2024	\$	0.40	\$ 1,615	26	\$	49.22	\$ 1,256	\$ 2,871
January 27, 2024	\$	0.39	\$ 1,583	25	\$	49.54	\$ 1,254	\$ 2,837
October 28, 2023	\$	0.39	\$ 1,580	23	\$	54.53	\$ 1,252	\$ 2,832
Fiscal 2023								
July 29, 2023	\$	0.39	\$ 1,589	25	\$	50.49	\$ 1,254	\$ 2,843
April 29, 2023	\$	0.39	\$ 1,593	25	\$	49.45	\$ 1,259	\$ 2,852
January 28, 2023	\$	0.38	\$ 1,560	26	\$	47.72	\$ 1,256	\$ 2,816
October 29, 2022	\$	0.38	\$ 1,560	12	\$	43.76	\$ 502	\$ 2,062

On May 15, 2024, our Board of Directors declared a quarterly dividend of \$0.40 per common share to be paid on July 24, 2024, to all stockholders of record as of the close of business on July 5, 2024. Future dividends will be subject to the approval of our Board of Directors.

The remaining authorized amount for stock repurchases under this program is approximately \$7.2 billion, with no termination date.

Accounts Receivable, Net The following table summarizes our accounts receivable, net (in millions):

	April 27, 2024	July 29, 2023	Increase (Decrease)
Accounts receivable, net	\$ 5,127	\$ 5,854	\$ (727)

Our accounts receivable net, as of April 27, 2024 decreased by approximately 12%, as compared with the end of fiscal 2023, primarily due to timing and amount of product and service billings in the third quarter of fiscal 2024 compared with the fourth quarter of fiscal 2023.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Inventory Supply Chain The following table summarizes our inventories and inventory purchase commitments with contract manufacturers and suppliers (in millions):

	April 27, 2024	July 29, 2023	July 30, 2022	Variance vs. July 29, 2023	Variance vs. July 30, 2022
Inventories	\$ 3,118	\$ 3,644	\$ 2,568	\$ (526)	\$ 550
Inventory purchase commitments	\$ 6,004	\$ 7,253	\$ 12,964	\$ (1,249)	\$ (6,960)
Inventory deposits and prepayments	\$ 925	\$ 1,109	\$ 1,484	\$ (184)	\$ (559)

The following table summarizes our inventory purchase commitments with contract manufacturers and suppliers by period (in millions):

	April 27, 2024	July 29, 2023	July 30, 2022	Variance vs. July 29, 2023	Variance vs. July 30, 2022
Less than 1 year	\$ 4,581	\$ 5,270	\$ 9,954	\$ (689)	\$ (5,373)
1 to 3 years	1,368	1,783	2,240	(415)	(872)
3 to 5 years	55	200	770	(145)	(715)
Total	\$ 6,004	\$ 7,253	\$ 12,964	\$ (1,249)	\$ (6,960)

Inventory as of April 27, 2024 decreased by 14% and inventory purchase commitments with contract manufacturers and suppliers decreased by 17% from our balances at the end of fiscal 2023. The combined decrease of 16% in our inventory and inventory purchase commitments as compared with the end of fiscal 2023 was primarily due to fulfillment of customer demand as overall supply constraints improved and our continued efforts to work with contract manufacturers and suppliers to optimize our inventory and purchase commitment levels.

We began increasing our inventory supply chain balances starting in fiscal 2021 in order to address significant supply constraints seen industry-wide. The increases were primarily due to arrangements to secure supply and pricing for certain product components and commitments with contract manufacturers to meet customer demand and to address extended lead times, as well as advance payments with suppliers to secure future supply, as a result of the supply constraints. As discussed, our risks of future material excess and obsolete inventory and related losses are further outlined in the Result of Operations—Product Gross Margin section.

We purchase components from a variety of suppliers and use several contract manufacturers to provide manufacturing services for our products. During the normal course of business, in order to manage manufacturing lead times and help ensure adequate component supply, we enter into agreements with contract manufacturers and suppliers that allow them to procure inventory based upon criteria as defined by us or that establish the parameters defining our requirements and our commitment to securing manufacturing capacity.

Our inventory purchase commitments are for short-term product manufacturing requirements as well as for commitments to suppliers to secure manufacturing capacity. Certain of our inventory purchase commitments with contract manufacturers and suppliers relate to arrangements to secure supply and pricing for certain product components for multi-year periods. A significant portion of our reported purchase commitments arising from these agreements are firm, noncancelable, and unconditional commitments. In certain instances, these agreements allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to firm orders being placed.

Inventory and supply chain management remain areas of focus as we balance the need to maintain supply chain flexibility to help ensure competitive lead times with the risk of inventory obsolescence because of supply constraints, rapidly changing technology and customer requirements. We believe the amount of our inventory and inventory purchase commitments is appropriate for our current and expected customer demand and revenue levels.

Financing Receivables and Guarantees The following table summarizes our financing receivables (in millions):

	April 27, 2024	July 29, 2023	Increase (Decrease)
Loan receivables, net	\$ 5,590	\$ 5,857	\$ (267)
Lease receivables, net	1,104	978	126
Total, net	\$ 6,694	\$ 6,835	\$ (141)

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Financing Receivables Our financing arrangements include loans and leases. Our loan receivables include customer financing for purchases of our hardware, software and services (including technical support and advanced services), and also may include additional funds for other costs associated with network installation and integration of our products and services. Lease receivables include sales-type leases. Arrangements related to leases are generally collateralized by a security interest in the underlying assets. Financing receivables decreased by 2% as compared with the end of fiscal 2023.

Financing Guarantees In the normal course of business, third parties may provide financing arrangements to our customers and channel partners under financing programs. The financing arrangements provided by third parties are related to leases and loans and typically have terms of up to three years. In some cases, we provide guarantees to third parties for these lease and loan arrangements. The financing arrangements to channel partners consist of revolving short-term financing provided by third parties, with payment terms generally ranging from 60 to 90 days. In certain instances, these financing arrangements result in a transfer of our receivables to the third party. The receivables are derecognized upon transfer, as these transfers qualify as true sales, and we receive payments for the receivables from the third party based on our standard payment terms.

The volume of channel partner financing was \$6.1 billion and \$8.3 billion for the third quarter of fiscal 2024 and 2023, respectively, and \$20.9 billion and \$23.4 billion for the first nine months of fiscal 2024 and 2023, respectively. These financing arrangements facilitate the working capital requirements of the channel partners, and in some cases, we guarantee a portion of these arrangements. The balance of the channel partner financing subject to guarantees was \$1.1 billion and \$1.7 billion as of April 27, 2024 and July 29, 2023, respectively. We could be called upon to make payments under these guarantees in the event of nonpayment by the channel partners. Historically, our payments under these arrangements have been immaterial. Where we provide a guarantee, we defer the revenue associated with the channel partner financing arrangement in accordance with revenue recognition policies, or we record a liability for the fair value of the guarantees. In either case, the deferred revenue is recognized as revenue when the guarantee is removed. As of April 27, 2024, the total maximum potential future payments related to these guarantees was approximately \$126 million, of which approximately \$25 million was recorded as deferred revenue.

Borrowings

Senior Notes The following table summarizes the principal amount of our senior notes (in millions):

	Maturity Date	April 27, 2024	July 29, 2023
Senior notes:			
Fixed-rate notes:			
2.20%	September 20, 2023	\$ —	\$ 750
3.625%	March 4, 2024	—	1,000
3.50%	June 15, 2025	500	500
4.90%	February 26, 2026	1,000	—
2.95%	February 28, 2026	750	750
2.50%	September 20, 2026	1,500	1,500
4.80%	February 26, 2027	2,000	—
4.85%	February 26, 2029	2,500	—
4.95%	February 26, 2031	2,500	—
5.05%	February 26, 2034	2,500	—
5.90%	February 15, 2039	2,000	2,000
5.50%	January 15, 2040	2,000	2,000
5.30%	February 26, 2054	2,000	—
5.35%	February 26, 2064	1,000	—
Total		<u>\$ 20,250</u>	<u>\$ 8,500</u>

In February 2024, we issued senior notes for an aggregate principal amount of \$13.5 billion.

Interest is payable semiannually on each class of the senior fixed-rate notes, each of which is redeemable by us at any time, subject to a make-whole premium. We were in compliance with all debt covenants as of April 27, 2024.

CISCO SYSTEMS, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Commercial Paper We have a short-term debt financing program in which up to \$15.0 billion is available through the issuance of commercial paper notes. We use the proceeds from the issuance of commercial paper notes for general corporate purposes. We had \$11.9 billion and no commercial paper notes outstanding as of April 27, 2024 and July 29, 2023, respectively.

Credit Facility On May 13, 2021, we entered into a 5-year \$3.0 billion unsecured revolving credit agreement, as amended on April 18, 2023. On February 2, 2024, we entered into an amended and restated 5-year \$5.0 billion unsecured revolving credit agreement. The interest rate for the credit agreement is determined based on a formula using certain market rates. The credit agreement requires that we comply with certain covenants, including that we maintain an interest coverage ratio (defined in the agreement as the ratio of consolidated EBITDA to consolidated interest expense) of not less than 3.0 to 1.0. As of April 27, 2024, we were in compliance with all associated covenants and we had not borrowed any funds under our credit agreement.

Remaining Performance Obligations The following table presents the breakdown of remaining performance obligations (in millions):

	April 27, 2024	July 29, 2023	Increase (Decrease)
Product	\$ 18,876	\$ 15,802	\$ 3,074
Service	19,898	19,066	832
Total	<u>\$ 38,774</u>	<u>\$ 34,868</u>	<u>\$ 3,906</u>
Short-term RPO	\$ 20,089	\$ 17,910	\$ 2,179
Long-term RPO	18,685	16,958	1,727
Total	<u>\$ 38,774</u>	<u>\$ 34,868</u>	<u>\$ 3,906</u>

Total remaining performance obligations as of April 27, 2024 increased 11% compared to the end of fiscal 2023. Total remaining performance obligations as of April 27, 2024 includes \$3.4 billion related to the acquisition of Splunk. Remaining performance obligations for product increased by 19% compared to the end of fiscal 2023. Remaining performance obligations for service increased by 4%. We expect approximately 52% of total remaining performance obligations to be recognized as revenue over the next 12 months.

Deferred Revenue The following table presents the breakdown of deferred revenue (in millions):

	April 27, 2024	July 29, 2023	Increase (Decrease)
Product	\$ 12,856	\$ 11,505	\$ 1,351
Service	14,619	14,045	574
Total	<u>\$ 27,475</u>	<u>\$ 25,550</u>	<u>\$ 1,925</u>
Reported as:			
Current	\$ 15,751	\$ 13,908	\$ 1,843
Noncurrent	11,724	11,642	82
Total	<u>\$ 27,475</u>	<u>\$ 25,550</u>	<u>\$ 1,925</u>

Total deferred revenue increased 8% compared to the end of fiscal 2023. Total deferred revenue as of April 27, 2024 includes \$1.8 billion related to the acquisition of Splunk. The increase in deferred product revenue of 12% was primarily due to the contribution from the Splunk acquisition and increased deferrals related to our recurring software offerings. The increase in deferred service revenue of 4% was driven by the contribution of the Splunk acquisition, partially offset by ongoing amortization of deferred service revenue.

Contractual Obligations

Transition Tax Payable

The income tax payable outstanding as of April 27, 2024 for the U.S. transition tax on accumulated earnings for foreign subsidiaries was \$4.1 billion. Approximately \$1.8 billion is payable in fiscal 2025 and \$2.3 billion is payable in fiscal 2026.

For our Contractual Obligations see our Annual Report on Form 10-K for the fiscal year ended July 29, 2023.

Other Commitments

In connection with our acquisitions, we have agreed to pay certain additional amounts contingent upon the continued employment with us of certain employees of the acquired entities. See Note 4 to the Consolidated Financial Statements.

We also have certain funding commitments primarily related to our privately held investments. The funding commitments were \$0.2 billion and \$0.3 billion as of April 27, 2024 and July 29, 2023, respectively.

In the ordinary course of business, we have privately held investments and provide financing to certain customers. Certain of these investments are considered to be variable interest entities. We evaluate on an ongoing basis our privately held investments and customer financings, and we have determined that as of April 27, 2024 there were no material unconsolidated variable interest entities.

On an ongoing basis, we reassess our privately held investments and customer financings to determine if they are variable interest entities and if we would be regarded as the primary beneficiary pursuant to the applicable accounting guidance. As a result of this ongoing assessment, we may be required to make additional disclosures or consolidate these entities. Because we may not control these entities, we may not have the ability to influence these events.

We provide financing guarantees, which are generally for various third-party financing arrangements extended to our channel partners. We could be called upon to make payments under these guarantees in the event of nonpayment by the channel partners. See the previous discussion of these financing guarantees under "Financing Receivables and Guarantees."

Liquidity and Capital Resource Requirements

Based on past performance and current expectations, we believe our cash and cash equivalents, investments, cash generated from operations, and ability to access capital markets and committed credit lines will satisfy, through at least the next 12 months, our liquidity requirements, both in total and domestically, including the following: working capital needs (including inventory and other supply related payments), capital expenditures, investment requirements, stock repurchases, cash dividends, contractual obligations, commitments, principal and interest payments on debt, pending acquisitions, future customer financings, and other liquidity requirements associated with our operations. There are no other transactions, arrangements, or relationships with unconsolidated entities or other persons that are reasonably likely to materially affect the liquidity and the availability of, as well as our requirements for, capital resources.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our financial position is exposed to a variety of risks, including interest rate risk, equity price risk, and foreign currency exchange risk.

Interest Rate Risk

Available-for-Sale Debt Investments We maintain an investment portfolio of various holdings, types, and maturities. Our primary objective for holding available-for-sale debt investments is to achieve an appropriate investment return consistent with preserving principal and managing risk. At any time, a sharp rise in market interest rates could have a material adverse impact on the fair value of our available-for-sale debt investment portfolio. Conversely, declines in interest rates, including the impact from lower credit spreads, could have a material adverse impact on interest income for our investment portfolio. Our available-for-sale debt investments are held for purposes other than trading. Our available-for-sale debt investments are not leveraged as of April 27, 2024. We monitor our interest rate and credit risks, including our credit exposures to specific rating categories and to individual issuers. We believe the overall credit quality of our portfolio is strong.

Financing Receivables Our financing receivables had a carrying value of \$6.7 billion and \$6.8 billion as of April 27, 2024 and July 29, 2023. As of April 27, 2024, a hypothetical 50 basis points (“BPS”) increase or decrease in market interest rates would change the fair value of our financing receivables by a decrease or increase of approximately \$0.1 billion, respectively.

Debt As of April 27, 2024, we had \$20.3 billion in principal amount of senior fixed-rate notes outstanding. The carrying amount of the senior notes was \$20.1 billion, and the related fair value based on market prices was \$20.0 billion. As of April 27, 2024, a hypothetical 50 BPS increase or decrease in market interest rates would change the fair value of the fixed-rate debt, excluding the \$0.5 billion of hedged debt, by a decrease or increase of approximately \$0.7 billion, respectively. However, this hypothetical change in interest rates would not impact the interest expense on the fixed-rate debt that is not hedged.

Equity Price Risk

Marketable Equity Investments The fair value of our marketable equity investments is subject to market price volatility. We hold equity securities for strategic purposes or to diversify our overall investment portfolio. These equity securities are held for purposes other than trading. The total fair value of our marketable equity securities was \$450 million and \$431 million as of April 27, 2024 and July 29, 2023, respectively.

Privately Held Investments These investments are recorded in other assets in our Consolidated Balance Sheets. The total carrying amount of our privately held investments was \$1.6 billion and \$1.8 billion as of April 27, 2024 and July 29, 2023, respectively. Some of these companies in which we invested are in the startup or development stages. These investments are inherently risky because the markets for the technologies or products these companies are developing are typically in the early stages and may never materialize. We could lose our entire investment in these companies. Our evaluation of privately held investments is based on the fundamentals of the businesses invested in, including, among other factors, the nature of their technologies and potential for financial return.

Foreign Currency Exchange Risk

Our foreign exchange forward contracts outstanding as of the respective period-ends are summarized in U.S. dollar equivalents as follows (in millions):

	April 27, 2024		July 29, 2023	
	Notional Amount	Fair Value	Notional Amount	Fair Value
Forward contracts:				
Purchased	\$ 3,652	\$ (65)	\$ 3,014	\$ (33)
Sold	\$ 3,425	\$ 63	\$ 2,406	\$ 31

We conduct business globally in numerous currencies. The direct effect of foreign currency fluctuations on revenue has not been material because our revenue is primarily denominated in U.S. dollars. However, if the U.S. dollar strengthens relative to other currencies, such strengthening could have an indirect effect on our revenue to the extent it raises the cost of our products to non-U.S. customers and thereby reduces demand. A weaker U.S. dollar could have the opposite effect. However, the precise indirect effect of currency fluctuations is difficult to measure or predict because our revenue is influenced by many factors in addition to the impact of such currency fluctuations.

Approximately 70% of our operating expenses are U.S.-dollar denominated. In the first nine months of fiscal 2024, foreign currency fluctuations, net of hedging, increased our combined R&D, sales and marketing, and G&A expenses by approximately \$46 million, or 0.3%, compared with the first nine months of fiscal 2023. To reduce variability in operating expenses and

service cost of sales caused by non-U.S.-dollar denominated operating expenses and costs, we may hedge certain forecasted foreign currency transactions with currency options and forward contracts. These hedging programs are not designed to provide foreign currency protection over long time horizons. In designing a specific hedging approach, we consider several factors, including offsetting exposures, significance of exposures, costs associated with entering into a particular hedge instrument, and potential effectiveness of the hedge. The gains and losses on foreign exchange contracts mitigate the effect of currency movements on our operating expenses and service cost of sales.

We also enter into foreign exchange forward and option contracts to reduce the short-term effects of foreign currency fluctuations on receivables and payables that are denominated in currencies other than the functional currencies of the entities. The market risks associated with these foreign currency receivables and payables relate primarily to variances from our forecasted foreign currency transactions and balances. We do not enter into foreign exchange forward or option contracts for speculative purposes.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. Based on our management's evaluation (with the participation of our principal executive officer and principal financial officer), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act")) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our third quarter of fiscal 2024, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a description of our pending legal proceedings, see Note 14, "Commitments and Contingencies—(f) Legal Proceedings" in the Notes to Consolidated Financial Statements.

Item 1A. Risk Factors

Set forth below and elsewhere in this report and in other documents we file with the SEC are descriptions of the risks and uncertainties that could cause our actual results to differ materially from the results contemplated by the forward-looking statements contained in this report. The descriptions below include any material changes to and supersede the description of the risk factors affecting our business previously disclosed in “Part I, Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended July 29, 2023.

Risks Related to our Business and Industry

Our operations can be difficult to predict because our operating results may fluctuate in future periods.

Our operating results have been in the past, and will continue to be, subject to quarterly and annual fluctuations as a result of numerous factors, some of which may contribute to more pronounced fluctuations in an uncertain global economic environment. These factors include:

- Fluctuations in demand for our products and services, especially with respect to service providers and Internet businesses, in part due to changes in the global economic environment
- Changes in sales and implementation cycles for our products and reduced visibility into our customers’ spending plans and associated revenue
- Our ability to maintain appropriate inventory levels and purchase commitments
- Price and product competition in the communications and networking industries, which can change rapidly due to technological innovation and different business models from various geographic regions
- The overall movement toward industry consolidation among both our competitors and our customers
- The introduction and market acceptance of new technologies and products, and our success in new and evolving markets, and in emerging technologies, as well as the adoption of new standards
- Variations in sales channels, product costs, mix of products sold, or mix of direct sales and indirect sales
- The timing, size, and mix of orders from customers
- Manufacturing and customer lead times
- Fluctuations in our gross margins, and the factors that contribute to such fluctuations
- The ability of our customers, channel partners, contract manufacturers and suppliers to obtain financing or to fund capital expenditures, especially during a period of global credit market disruption or in the event of customer, channel partner, contract manufacturer or supplier financial problems
- Actual events, circumstances, outcomes, and amounts differing from judgments, assumptions, and estimates used in determining the values of certain assets (including the amounts of related valuation allowances), liabilities, and other items reflected in our Consolidated Financial Statements
- How well we execute on our strategy and operating plans and the impact of changes in our business model that could result in significant restructuring charges
- Our ability to achieve targeted cost reductions
- Benefits anticipated from our investments
- Changes in tax laws or accounting rules, or interpretations thereof

As a consequence, operating results for a particular future period are difficult to predict, and, therefore, prior results are not necessarily indicative of results to be expected in future periods. Any of the foregoing factors, or any other factors discussed elsewhere herein, could materially harm our business, results of operations, and financial condition.

Our operating results may be negatively impacted by unfavorable economic and market conditions and the uncertain geopolitical environment.

Challenging economic conditions, including rising inflation, or other changes, worldwide have from time to time contributed, and may continue to contribute, to slowdowns in the communications and networking industries at large, as well as in specific segments and markets in which we operate, resulting in: reduced demand for our products as a result of continued constraints on IT-related capital spending by our customers, particularly service provider and cloud as well as enterprise and other customer markets; increased price competition for our products, not only from our competitors but also as a consequence of customers disposing of unutilized products; risk of excess and obsolete inventories; risk of supply constraints; risk of excess facilities and manufacturing capacity; and higher overhead costs as a percentage of revenue and higher interest expense.

The global macroeconomic environment can be challenging and inconsistent. In certain prior periods, we have seen a broad-based weakening in the global macroeconomic environment which has impacted and could impact in the future certain of our

markets. Additionally, instability in the global credit markets, the impact of uncertainty regarding global central bank monetary policy, the instability in the geopolitical environment in many parts of the world (including as a result of the on-going Russia and Ukraine war, the Israel-Hamas war, and China-Taiwan relations), the current economic challenges in China, including global economic ramifications of Chinese economic difficulties, and other disruptions may continue to put pressure on global economic conditions. If global economic and market conditions, or economic conditions in key markets, were to deteriorate, we may experience material harm to our business, operating results, and financial condition.

Our operating results in one or more segments may also be affected by uncertain or changing economic conditions particularly germane to that segment or to particular customer markets within that segment. In addition, reports of certain intelligence gathering methods of the U.S. government could affect customers' perception of the products of IT companies which design and manufacture products in the United States. Trust and confidence in us as an IT supplier are critical to the development and growth of our markets. Impairment of that trust, or foreign regulatory actions taken in response to reports of certain intelligence gathering methods of the U.S. government, could affect the demand for our products from customers outside of the United States and could have a negative impact on our operating results.

Our revenue for a particular period is difficult to predict, and a shortfall in revenue may harm our operating results.

As a result of a variety of factors discussed in this report, our revenue for a particular quarter is difficult to predict, which can be exacerbated during periods when the global macroenvironment is challenging and inconsistent and can result in market uncertainty. Our revenue may grow at a slower rate than in past periods, or decline as it did in the second and third quarters of fiscal 2024, and in certain prior periods on a year-over-year basis. Our ability to meet financial expectations could also be negatively impacted if the nonlinear sales pattern seen in some of our past quarters recurs in future periods. For example, in the third quarter of fiscal 2024 we continued to see customers scrutinizing spend. We saw a decline in product demand in the first half of fiscal 2024, which we believe was primarily related to customers needing additional time to implement elevated levels of product shipments. Even though we saw improved product deployments in the third quarter of fiscal 2024, we believe that some impacts on overall product demand may continue through at least the end of fiscal 2024 as customers continue to complete the installation of the majority of their product deployments. We have experienced periods of time during which shipments have exceeded net bookings or manufacturing issues have delayed shipments, leading to nonlinearity in shipping patterns. In addition to making it difficult to predict revenue for a particular period, nonlinearity in shipping can increase costs, because irregular shipment patterns result in periods of underutilized capacity and periods in which overtime expenses may be incurred, as well as in potential additional inventory management-related costs. In addition, to the extent that manufacturing issues and any related component shortages result in delayed shipments in the future, and particularly in periods in which our contract manufacturers are operating at higher levels of capacity, it is possible that revenue for a quarter could be negatively impacted if such matters occur and are not remediated within the same quarter.

The timing of large orders can also have a significant impact on our business and operating results from quarter to quarter. From time to time, we receive large orders that have a significant effect on our operating results in the period in which the order is recognized as revenue. The timing of such orders is difficult to predict, and the timing of revenue recognition from such orders may affect period to period changes in revenue. As a result, our operating results could vary materially from quarter to quarter based on the receipt of such orders and their ultimate recognition as revenue. Longer than normal manufacturing lead times in the past have caused, and in the future could cause, some customers to place the same or a similar order multiple times within our various sales channels and to cancel the duplicative orders upon shipment or receipt of the product, or to also place orders with other vendors with shorter manufacturing lead times. Such multiple ordering (along with other factors) or risk of order cancellation may cause difficulty in predicting our revenue. Further, our efforts to improve manufacturing lead-time performance may result in more variability and less predictability in our revenue and operating results. In addition, when facing component supply-related challenges, we have in the past and may in the future increase our efforts in procuring components in order to meet customer expectations, which in turn contributes to an increase in inventory and purchase commitments. These increases in our inventory and purchase commitments to shorten lead times could also lead to material excess and obsolete inventory charges or other negative impacts to our product gross margin in future periods if product demand significantly weakens for a sustained duration or we are unable to continue to mitigate the remaining supply chain exposure. Product demand conditions for future periods can be difficult to predict or may persist longer than anticipated. We plan our operating expense levels based primarily on forecasted revenue levels. These expenses and the impact of long-term commitments are relatively fixed in the short term. A shortfall in revenue could lead to operating results being below expectations because we may not be able to quickly reduce these fixed expenses in response to short-term business changes. Any of the above factors could materially harm our operations and financial results. For additional information and a further discussion of impacts and risks related to our inventory commitments and our purchase commitments with contract manufacturers and suppliers, see "Results of Operations—Product Gross Margin—Supply Chain Impacts and Risks", "Liquidity and Capital Resources—Inventory Supply Chain" and Note 14 to the Consolidated Financial Statements.

Supply chain issues, including financial problems of contract manufacturers or component suppliers, or a shortage of adequate component supply or manufacturing capacity that increase our costs or cause a delay in our ability to fulfill orders, could have an adverse impact on our business and operating results, and our failure to estimate customer demand properly may result in excess or obsolete component supply, which could negatively impact our gross margins.

The fact that we do not own or operate the bulk of our manufacturing facilities and that we are reliant on our extended supply chain could have an adverse impact on the supply of our products and on our business and operating results. Financial problems of either contract manufacturers or component suppliers, reservation of manufacturing capacity at our contract manufacturers by other companies, and industry consolidation occurring within one or more component supplier markets, such as the semiconductor market, in each case, could either limit supply or increase costs.

A reduction or interruption in supply, including disruptions on our global supply chain, caused in part by public health emergencies, geopolitical tensions (including as a result of China-Taiwan relations) or a significant natural disaster (including as a result of climate change); a significant increase in the price of one or more components (including as a result of inflation); a failure to adequately authorize procurement of inventory by our contract manufacturers; a failure to appropriately cancel, reschedule, or adjust our requirements based on our business needs; or a decrease in demand for our products could materially harm our business, operating results, and financial condition and could materially damage customer relationships. Furthermore, as a result of binding price or purchase commitments with suppliers, we may be obligated to purchase components at prices that are higher than those available in the current market. In the event that we become committed to purchase components at prices in excess of the current market price when the components are actually used, our gross margins could decrease. In addition, vendors may be under pressure to allocate product to certain customers for business, regulatory or political reasons, and/or demand changes in agreed pricing as a condition of supply. Although we have generally secured additional supply or taken other mitigation actions when significant disruptions have occurred, if similar situations occur in the future, they could materially harm our business, results of operations, and financial condition.

Our growth and ability to meet customer demands depend in part on our ability to obtain timely deliveries of parts from our suppliers and contract manufacturers. We have experienced component shortages in the past, including shortages caused by manufacturing process issues, that have affected our operations, including longer than normal lead times. For example, in recent periods, there was a market shortage of semiconductor and other component supply which affected lead times, the cost of that supply, and our ability to meet customer demand for our products. Additionally, we may in the future experience a shortage of certain component parts as a result of our own manufacturing issues, manufacturing issues at our suppliers or contract manufacturers, capacity problems experienced by our suppliers or contract manufacturers including capacity or cost problems resulting from industry consolidation, or strong demand for those parts. Growth in the economy is likely to create greater pressures on us and our suppliers to accurately project overall component demand and component demands within specific product categories and to establish optimal component levels and manufacturing capacity, especially for labor-intensive components, components for which we purchase a substantial portion of the supply, or the re-ramping of manufacturing capacity for highly complex products. During periods of shortages or delays the price of components may increase, or the components may not be available at all, and we may also encounter shortages if we do not accurately anticipate our needs. We may not be able to secure enough components at reasonable prices or of acceptable quality to build new products in a timely manner in the quantities or configurations needed. Accordingly, our revenue and gross margins could suffer until other sources can be developed.

Our operating results would also be negatively impacted if, anticipating greater demand than actually develops, we commit to the purchase of more components than we need, which is more likely to occur during periods of demand uncertainties such as we have experienced in recent periods and expect to continue to experience over the short- and medium-term, such as those we are experiencing with customers, particularly enterprise, service provider and cloud customers, as they implement elevated levels of product shipments from prior quarters, as discussed above. Although in many cases we use standard parts and components for our products, certain components are presently available only from a single source or limited sources, and a global economic downturn and related market uncertainty could negatively impact the availability of components from one or more of these sources, especially during times such as we have recently seen when there are supplier constraints based on labor and other actions taken during economic downturns. We may not be able to diversify sources in a timely manner, which could harm our ability to deliver products to customers and seriously impact present and future sales.

We believe that we may be faced with the following challenges in the future: new markets in which we participate may grow quickly, which may make it difficult to quickly obtain significant component capacity; as we acquire companies and new technologies, we may be dependent on unfamiliar supply chains or relatively small supply partners; and we face competition for certain components that are supply-constrained, from existing competitors, and companies in other markets.

Manufacturing capacity and component supply constraints could continue to be significant issues for us. We purchase components from a variety of suppliers and use several contract manufacturers to provide manufacturing services for our products. During the normal course of business, in order to improve manufacturing lead-time performance and to help ensure

adequate component supply, we enter into agreements with contract manufacturers and suppliers that either allow them to procure inventory based upon criteria as defined by us or that establish the parameters defining our requirements. In certain instances, these agreements allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to firm orders being placed. When facing component supply-related challenges we have increased our efforts in procuring components in order to meet customer expectations, which in turn contributes to an increase in inventory and purchase commitments. In past periods, we increased our inventory and purchase commitments in light of the supply constraints seen industry-wide due to component shortages. These increases in our inventory and purchase commitments to shorten lead times could also lead to material excess and obsolete inventory charges or other negative impacts to our product gross margin in future periods if we fail to anticipate customer demand properly and product demand significantly weakens for a sustained duration or we are unable to continue to mitigate the remaining supply chain exposure. Product demand conditions for future periods can be difficult to predict or may persist longer than anticipated. For example, we saw a decline in product demand in the first half of fiscal 2024, which we believe was primarily related to customers needing additional time to implement elevated levels of product shipments. Even though we saw improved product deployments in the third quarter of fiscal 2024, we believe that some impacts on overall product demand may continue through at least the end of fiscal 2024 as customers continue to complete the installation of the majority of their product deployments. For additional information and a further discussion of impacts and risks related to our inventory commitments and our purchase commitments with contract manufacturers and suppliers, see “Results of Operations—Product Gross Margin—Supply Chain Impacts and Risks”, “Liquidity and Capital Resources—Inventory Supply Chain” and Note 14 to the Consolidated Financial Statements.

We expect gross margin to vary over time, and our level of product gross margin may not be sustainable.

Although our product gross margin increased in the first three quarters of fiscal 2024 and in fiscal 2023, our level of product gross margins declined in fiscal 2022 and have declined in certain prior periods on a year-over-year basis, and could decline in future periods due to adverse impacts from various factors, including:

- Changes in customer, geographic, or product mix, including mix of configurations within each product group
- Introduction of new products, including products with price-performance advantages, and new business models (including continuing to increase the use of business models where revenue is recognized over multiple periods)
- Our ability to reduce production costs
- Entry into new markets or growth in lower margin markets, including markets with different pricing and cost structures, through acquisitions or internal development
- Sales discounts
- Increases in material, labor or other manufacturing-related costs (i.e. component costs, broker fees, expedited freight and overtime) or higher supply chain logistics costs, any of which could be significant, especially during periods of supply constraints for certain costs, such as those that have impacted the market for components, including semiconductors and memory in past periods, and which costs have in the past and may continue to be exacerbated by inflation
- Excess inventory, inventory holding charges, and obsolescence charges
- Changes in shipment volume
- The timing of revenue recognition and revenue deferrals
- Increased costs (including those caused by tariffs or economic conditions, including inflation), loss of cost savings or dilution of savings due to changes in component pricing or charges incurred due to inventory holding periods if parts ordering does not correctly anticipate product demand or if the financial health of either contract manufacturers or suppliers deteriorates
- Lower than expected benefits from value engineering
- Increased price competition, including competitors from Asia, especially from China
- Changes in distribution channels
- Increased warranty or royalty costs
- Increased amortization of purchased intangible assets, especially from acquisitions
- How well we execute on our strategy and operating plans

Changes in service gross margin may result from various factors such as changes in the mix between technical support services and advanced services, as well as the timing of technical support service contract initiations and renewals and the addition of personnel and other resources to support higher levels of service business in future periods.

Sales to the service provider and cloud market are especially volatile, and weakness in orders from this industry may harm our operating results and financial condition.

Sales to the service provider and cloud market have been characterized by large and sporadic purchases, especially relating to our router sales and sales of certain other Networking and Collaboration products, in addition to longer sales cycles. Service provider and cloud product orders significantly decreased during the first half of fiscal 2024 and fiscal 2023 and we have experienced similar weakness in certain prior periods. Product orders from the service provider and cloud market could continue to decline and, as has been the case in the past, such weakness could persist over extended periods of time given fluctuating market conditions. Sales activity in this industry depends upon the stage of completion of expanding network infrastructures; the availability of funding; and the extent to which service providers and cloud customers are affected by regulatory, economic, and business conditions in the country of operations. Weakness in orders from this industry, including as a result of any slowdown in capital expenditures by service providers (which may be more prevalent during a global economic downturn, or periods of economic, political or regulatory uncertainty), could materially harm our business, operating results, and financial condition. Such slowdowns may continue or recur in future periods. Orders from this industry could decline for many reasons other than the competitiveness of our products and services within their respective markets. For example, in the past, many of our service provider and cloud customers have been negatively impacted by slowdowns in the general economy, by overcapacity, by changes in the service provider and cloud market, by regulatory developments, and by constraints on capital availability, resulting in business failures and substantial reductions in spending and expansion plans. These conditions have negatively impacted our business and operating results in the past, and could materially harm our business and operating results in any future period. Finally, service provider and cloud customers typically have longer implementation cycles; require a broader range of services, including design services; demand that vendors take on a larger share of risks; often require acceptance provisions, which can lead to a delay in revenue recognition; and expect financing from vendors. All these factors can add further risk to business conducted with service providers.

Disruption of or changes in our distribution model could harm our sales and margins.

If we fail to manage distribution of our products and services properly, or if our distributors' financial condition or operations weaken, our revenue and gross margins could be negatively impacted. A substantial portion of our products and services is sold through our channel partners, and the remainder is sold through direct sales. Our channel partners include systems integrators, service providers, other third-party resellers, and distributors. Systems integrators and service providers typically sell directly to end users and often provide system installation, technical support, professional services, and other support services in addition to network equipment sales. Systems integrators also typically integrate our products into an overall solution, and a number of service providers are also systems integrators. Distributors stock inventory and typically sell to systems integrators, service providers, and other third-party resellers. We refer to sales through distributors as our two-tier system of sales to the end customer. If sales through indirect channels increase, this may lead to greater difficulty in forecasting the mix of our products and, to a degree, the timing of orders from our customers.

Historically, we have seen fluctuations in our gross margins based on changes in the balance of our distribution channels. There can be no assurance that changes in the balance of our distribution model in future periods would not have an adverse effect on our gross margins and profitability. Some factors could result in disruption of or changes in our distribution model, which could harm our sales and margins, including the following: competition with some of our channel partners, including through our direct sales, which may lead these channel partners to use other suppliers that do not directly sell their own products or otherwise compete with them; some of our channel partners may demand that we absorb a greater share of the risks that their customers may ask them to bear; some of our channel partners may have insufficient financial resources and may not be able to withstand changes and challenges in business conditions; and revenue from indirect sales could suffer if our distributors' financial condition or operations weaken. In addition, we depend on our channel partners globally to comply with applicable regulatory requirements. To the extent that they fail to do so, that could materially harm our business, operating results, and financial condition. Further, sales of our products outside of agreed territories can result in disruption to our distribution channels.

The markets in which we compete are intensely competitive, which could negatively impact our achievement of revenue growth.

The markets in which we compete are characterized by rapid change, converging technologies, and a migration to networking and communications solutions that offer relative advantages. These market factors represent a competitive threat to us. We compete with numerous vendors in each product category. The overall number of our competitors providing niche product solutions may increase. Also, the identity and composition of competitors may change as we increase our activity in newer product areas, and in key priority and growth areas. For example, as products related to network programmability, such as software defined networking (SDN) products, have become more prevalent, we have faced increased competition from companies that develop networking products based on commoditized hardware, referred to as "white box" hardware, to the extent customers decide to purchase those product offerings instead of ours. In addition, the growth in demand for technology

delivered as a service enables new competitors to enter the market. As we continue to expand globally, we may see new competition in different geographic regions. In particular, we have experienced price-focused competition from competitors in Asia, especially from China, and we anticipate this will continue.

Some of our competitors compete across many of our product lines, while others are primarily focused in a specific product area. Barriers to entry are relatively low, and new ventures to create products that do or could compete with our products are regularly formed. In addition, some of our competitors may have greater resources, including technical and engineering resources, than we do. As we expand into new markets, we will face competition not only from our existing competitors but also from other competitors, including existing companies with strong technological, marketing, and sales positions in those markets. We also sometimes face competition from resellers and distributors of our products. Companies with which we have strategic alliances in some areas may be competitors in other areas, and this trend may increase. For example, the enterprise data center is undergoing a fundamental transformation arising from the convergence of technologies, including computing, networking, storage, and software, that previously were segregated. Due to several factors, including the availability of highly scalable and general purpose microprocessors, application specific integrated circuits offering advanced services, standards based protocols, cloud computing and virtualization, the convergence of technologies within the enterprise data center is spanning multiple, previously independent, technology segments. Also, some of our current and potential competitors for enterprise data center business have made acquisitions, or announced new strategic alliances, designed to position them to provide end-to-end technology solutions for the enterprise data center. As a result of all of these developments, we face greater competition in the development and sale of enterprise data center technologies, including competition from entities that are among our long-term strategic alliance partners. Companies that are strategic alliance partners in some areas of our business may acquire or form alliances with our competitors, thereby reducing their business with us.

The principal competitive factors in the markets in which we presently compete and may compete in the future include the ability to sell successful business outcomes; the ability to provide a broad range of networking and communications products and services; product performance; price; the ability to introduce new products, including providing continuous new customer value and products with price-performance advantages; the ability to reduce production costs; the ability to provide value-added features such as security, reliability, and investment protection; conformance to standards; market presence; the ability to provide financing; and disruptive technology shifts and new business models.

We also face competition from customers to which we license or supply technology and suppliers from which we transfer technology. The inherent nature of networking requires interoperability. As such, we must cooperate and at the same time compete with many companies. Any inability to effectively manage these complicated relationships with customers, suppliers, and strategic alliance partners could materially harm our business, operating results, and financial condition and accordingly affect our chances of success.

If we do not successfully manage our strategic alliances, we may not realize the expected benefits from such alliances, and we may experience increased competition or delays in product development.

We have several strategic alliances with large and complex organizations and other companies with which we work to offer complementary products and services. These arrangements are generally limited to specific projects, the goal of which is generally to facilitate product compatibility and adoption of industry standards. There can be no assurance we will realize the expected benefits from these strategic alliances or from joint ventures. If successful, these relationships may be mutually beneficial and result in industry growth. However, alliances carry an element of risk because, in most cases, we must compete in some business areas with a company with which we have a strategic alliance and, at the same time, cooperate with that company in other business areas. Also, if these companies fail to perform or if these relationships fail to materialize as expected, we could suffer delays in product development or other operational difficulties. Joint ventures can be difficult to manage, given the potentially different interests of joint venture partners.

Inventory management relating to our sales to our two-tier distribution channel is complex, and excess inventory may harm our gross margins.

We must manage inventory relating to sales to our distributors effectively, because inventory held by them could affect our results of operations. Our distributors may increase orders during periods of product shortages, cancel orders if their inventory is too high, or delay orders in anticipation of new products. They also may adjust their orders in response to the supply of our products and the products of our competitors that are available to them, and in response to seasonal fluctuations in end-user demand. Our distributors are generally given business terms that allow them to return a portion of inventory, receive credits for changes in selling price, and participate in various cooperative marketing programs. Inventory management remains an area of focus as we balance the need to maintain strategic inventory levels to ensure competitive lead times against the risk of inventory obsolescence because of rapidly changing technology and customer requirements. When facing component supply-related challenges, we have increased our efforts in procuring components in order to meet customer expectations. If we ultimately

determine that we have excess inventory, we may have to reduce our prices and write down inventory, which in turn could result in lower gross margins.

Our financial performance may be negatively impacted by demand for, and costs to deliver, our software subscription offerings; and interruptions or performance problems associated with these offerings, including interruptions or performance problems caused by third-party providers on which we rely, may negatively impact our business and financial results.

In recent years we have transformed our business model to deliver more software and subscription offerings. This transformation was accelerated by recent acquisitions, including our acquisition of Splunk in March 2024. Market acceptance of our software subscription offerings, which includes our as-a-service solutions, can be affected by a variety of factors, including: security, reliability, performance, terms of service, support terms, customer preference, community engagement, concerns regarding data privacy or data protection, and the enactment of laws or regulations in jurisdictions in which we operate. To generate sales growth for our software subscription offerings, we need to convince potential customers to purchase new licenses or subscriptions and generate timely renewals and additional purchases from existing customers. Any failure to do so could result in decreased revenue, reduced sales, increased churn or otherwise negatively impact our results of operations and financial condition. Further, growth of our software subscription offerings depends, in part, on the ability of customers to use and access these solutions. We have experienced, and may in the future experience, interruptions in service, storage failures, and other performance-related problems due to a variety of factors, such as infrastructure and software changes, human or software errors, capacity constraints, unauthorized access, denial of service or other cyber attacks. In some instances, we may not be able to timely identify the cause or causes of these performance problems and, even if timely identified, we may be unable to timely remediate the underlying cause. It may become increasingly difficult to maintain and improve our performance for our software subscription offerings, especially during peak usage times and as our solutions become more complex and our user traffic increases. Performance-related issues of our software subscription offerings may result in increased operational costs, delays in new feature rollouts, customer loss, reputational damage, and legal or regulatory liability, including liability under customer contracts or for losses suffered by our customers.

To deliver our software subscription offerings, we have incurred and will continue to incur substantial costs to implement and maintain this business. We make significant investments to increase or maintain capacity and to develop and implement new technologies in our infrastructure and operations, including those provided by third-party providers on which we rely. We may not be successful in developing or implementing these technologies. To the extent that we do not effectively scale our operations to meet the needs of our customers and to maintain performance as our customers expand their use of our solutions, we may not be able to grow this business as quickly as we anticipate, our customers may reduce or cancel use of our solutions, and we may be unable to compete as effectively and our business and results of operations may be harmed. Additionally, if our costs associated with our software subscription offerings were to significantly increase, our business, results of operations and financial condition may be negatively impacted. We are also subject to the risk of performance-related problems or interruption of the services provided by third-party providers on which we rely, which could cause revenues for software subscription offerings to decline, damage to our reputation, legal liability exposure, and/or increased expenses, all of which could negatively impact our business, results of operations, and financial condition.

We depend upon the development of new products and services, and enhancements to existing products and services, and if we fail to predict and respond to emerging technological trends and customers' changing needs, our operating results and market share may suffer.

The markets for our products and services are characterized by rapidly changing technology, evolving industry standards, new product and service introductions, and evolving methods of building and operating networks. Our operating results depend on our ability to develop and introduce new products and services into existing and emerging markets and to reduce the production costs of existing products. If customers do not purchase and/or renew our offerings our business could be harmed.

The process of developing new technology, including more programmable, flexible and virtual networks, and technology related to other market transitions—such as artificial intelligence, security, observability, and cloud— is complex and uncertain, and if we fail to accurately predict customers' changing needs and emerging technological trends our business could be harmed. We must commit significant resources, including the investments we have been making in our strategic priorities to developing new products and services before knowing whether our investments will result in products and services the market will accept. In particular, if our model of the evolution of networking, security, or observability does not emerge as we believe it will, or these industries do not evolve as we believe they will, or if our strategy for addressing this evolution is not successful, many of our strategic initiatives and investments may be of no or limited value. For example, if we do not introduce products related to these markets in a timely fashion, or if product offerings in this market that ultimately succeed are based on technology, or an approach to technology, that differs from ours, our business could be harmed. Similarly, our business could be harmed if we fail to develop, or fail to develop in a timely fashion, offerings to address other transitions, or if the offerings addressing these other transitions that ultimately succeed are based on technology, or an approach to technology, different from

ours. In addition, our business could be negatively impacted in periods surrounding our new product introductions if customers delay purchasing decisions to qualify or otherwise evaluate the new product offerings. We have also been transforming our business to move from selling individual products and services to selling products and services integrated into architectures and solutions, and we are seeking to meet the evolving needs of customers which include offering our products and solutions in the manner in which customers wish to consume them. As a part of this transformation, we continue to make changes to how we are organized and how we build and deliver our technology, including changes in our business models with customers. If our strategy for addressing our customer needs, or the architectures and solutions we develop do not meet those needs, or the changes we are making in how we are organized and how we build and deliver or technology is incorrect or ineffective, our business could be harmed.

Furthermore, we may not execute successfully on our vision or strategy because of challenges with regard to product planning and timing, technical hurdles that we fail to overcome in a timely fashion, or a lack of appropriate resources. This could result in competitors, some of which may also be our strategic alliance partners, providing those solutions before we do and loss of market share, revenue, and earnings. In addition, the growth in demand for technology delivered as a service enables new competitors to enter the market. The success of new products and services depends on several factors, including proper new product and service definition, component costs, timely completion and introduction of these products and services, differentiation of new products and services from those of our competitors, and market acceptance of these products and services. There can be no assurance that we will successfully identify new product and services opportunities, develop and bring new products and services to market in a timely manner, or achieve market acceptance of our products and services or that products, services and technologies developed by others will not render our products, services or technologies obsolete or noncompetitive. The products and technologies in our other product categories and key priority and growth areas may not prove to have the market success we anticipate, and we may not successfully identify and invest in other emerging or new products and services.

Changes in industry structure and market conditions could lead to charges related to discontinuances of certain of our products or businesses, asset impairments and workforce reductions or restructurings.

In response to changes in industry and market conditions, we may be required to strategically realign our resources and to consider restructuring, disposing of, or otherwise exiting businesses. Any resource realignment, or decision to limit investment in or dispose of or otherwise exit businesses, may result in the recording of special charges, such as inventory and technology-related write-offs, workforce reduction or restructuring costs, charges relating to consolidation of excess facilities, or claims from third parties who were resellers or users of discontinued products. Our estimates with respect to the useful life or ultimate recoverability of our carrying basis of assets, including purchased intangible assets, could change as a result of such assessments and decisions. Although in certain instances our supply agreements allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to firm orders being placed, our loss contingencies may include liabilities for contracts that we cannot cancel with contract manufacturers and suppliers. Further, our estimates relating to the liabilities for excess facilities are affected by changes in real estate market conditions. Additionally, we are required to perform goodwill impairment tests on an annual basis and between annual tests in certain circumstances, and future goodwill impairment tests may result in a charge to earnings. From time to time we initiate restructuring plans. Our business may not be more efficient or effective than prior to implementation of such plans. Our restructuring activities, including any related charges and the impact of the related headcount restructurings, could materially harm our business, operating results, and financial condition.

Over the long term we intend to invest in engineering, sales, service and marketing activities, and in key priority and growth areas, and these investments may achieve delayed, or lower than expected, benefits which could harm our operating results.

While we intend to focus on managing our costs and expenses, over the long term, we also intend to invest in personnel and other resources related to our engineering, sales, service and marketing functions as we realign and dedicate resources on key priority and growth areas. We also intend to focus on maintaining leadership in core networking and services. We are likely to recognize the costs associated with these investments earlier than some of the anticipated benefits, and the return on these investments may be lower, or may develop more slowly, than we expect. If we do not achieve the benefits anticipated from these investments (including if our selection of areas for investment does not play out as we expect), or if the achievement of these benefits is delayed, our operating results may be negatively impacted.

We have made and expect to continue to make acquisitions that could disrupt our operations and harm our operating results.

Our growth depends upon market growth, our ability to enhance our existing products, and our ability to introduce new products on a timely basis. We intend to continue to address the need to develop new products and enhance existing products through acquisitions of other companies, product lines, technologies, and personnel. Acquisitions involve numerous risks, including the following:

- Difficulties or delays in integrating the operations (including IT security), systems, technologies, products, and personnel of the acquired companies, particularly with companies that have large and widespread operations and/or complex products (such as Splunk)
- Diversion of management's attention from normal daily operations of the business and the challenges of managing larger and more widespread operations resulting from acquisitions
- Potential difficulties in completing projects associated with in-process research and development intangibles
- Difficulties in entering markets in which we have no or limited direct prior experience and where competitors in such markets have stronger market positions
- Initial dependence on unfamiliar supply chains or relatively small supply partners
- Insufficient revenue to offset increased expenses associated with acquisitions
- The potential loss of key employees, customers, distributors, vendors and other business partners of the companies we acquire following and continuing after announcement of acquisition plans

Acquisitions have in the past and may in the future also cause us to:

- Issue common stock that would dilute our current stockholders' percentage ownership
- Use a substantial portion of our cash resources, or incur debt
- Significantly increase our interest expense, leverage and debt service requirements if we incur additional debt to pay for an acquisition
- Assume liabilities
- Record goodwill and intangible assets that are subject to impairment testing on a regular basis and potential periodic impairment charges
- Incur amortization expenses related to certain intangible assets
- Incur tax expenses related to the effect of acquisitions on our legal structure
- Incur large write-offs and restructuring and other related expenses
- Become subject to intellectual property or other litigation

Mergers and acquisitions of high-technology companies are inherently risky and subject to many factors outside of our control, and no assurance can be given that our previous or future acquisitions will be successful and will not materially harm our business, operating results, or financial condition. Failure to manage and successfully integrate acquisitions could materially harm our business and operating results. Prior acquisitions have resulted in a wide range of outcomes, from successful introduction of new products and technologies to a failure to do so. Even when an acquired company has already developed and marketed products, there can be no assurance that product enhancements will be made in a timely fashion or that pre-acquisition due diligence will have identified all possible issues that might arise with respect to such products. In addition, our effective tax rate for future periods is uncertain and could be impacted by mergers and acquisitions. Risks described with respect to new product development also apply to acquisitions.

Entrance into new or developing markets exposes us to additional competition and will likely increase demands on our service and support operations.

Several of our competitors may have greater resources, including technical and engineering resources, than we do. Additionally, as customers complete infrastructure deployments, they may require greater levels of service, support, and financing than we have provided in the past, especially in emerging countries. Demand for these types of service, support, or financing contracts may increase in the future. There can be no assurance that we can provide products, service, support, and financing to effectively compete for these market opportunities. Further, entry into other markets has subjected and will subject us to additional risks, particularly to those markets, including the effects of general market conditions and reduced consumer confidence. For example, as we add direct selling capabilities globally to meet changing customer demands, we will face increased legal and regulatory requirements.

Product quality problems could lead to reduced revenue, gross margins, and net income.

We produce highly complex products that incorporate leading-edge technology, including both hardware and software. Software typically contains bugs that can unexpectedly interfere with expected operations. There can be no assurance that our pre-shipment testing programs will be adequate to detect all defects, either ones in individual products or ones that could affect numerous shipments, which might interfere with customer satisfaction, reduce sales opportunities, or affect gross margins. From time to time, we have had to replace certain components and provide remediation in response to the discovery of defects or bugs in products that we had shipped. There can be no assurance that such remediation, depending on the product involved, would not have a material impact. An inability to cure a product defect could result in the failure of a product line, temporary or permanent withdrawal from a product or market, damage to our reputation, inventory costs, or product reengineering expenses, any of which could materially harm our revenue, margins, and net income.

Due to the global nature of our operations, political or economic changes or other factors in a specific country or region could harm our operating results and financial condition.

We conduct significant sales and customer support operations in countries around the world. As such, our growth depends in part on our increasing sales into emerging countries. We also depend on non-U.S. operations of our contract manufacturers, component suppliers and distribution partners. Our business in emerging countries in the aggregate experienced a decline in orders in certain prior periods. We continue to assess the sustainability of any improvements in our business in these countries and there can be no assurance that our investments in these countries will be successful. Our future results could be negatively impacted by a variety of political, economic or other factors relating to our operations inside and outside the United States, any or all of which could materially harm our operating results and financial condition, including the following: impacts from global central bank monetary policy; issues related to the political relationship between the United States and other countries that can affect regulatory matters, affect the willingness of customers in those countries to purchase products from companies headquartered in the United States or affect our ability to procure components if a government body were to deny us access to those components; government-related disruptions or shutdowns; the challenging and inconsistent global macroeconomic environment; foreign currency exchange rates; geopolitical tensions (including China-Taiwan relations); political or social unrest; economic instability or weakness or natural disasters in a specific country or region, including economic challenges in China and global economic ramifications of Chinese economic difficulties; environmental protection regulations (including new laws and regulations related to climate change); trade protection measures such as tariffs, and other legal and regulatory requirements, some of which may affect our ability to import our products to, export our products from, or sell our products in various countries or affect our ability to procure components; political considerations that affect service provider and government spending patterns; health or similar issues, including pandemics or epidemics; difficulties in staffing and managing international operations; and adverse tax consequences, including imposition of withholding or other taxes on our global operations.

Issues related to the development and use of artificial intelligence (AI) could give rise to legal and/or regulatory action, damage our reputation or otherwise materially harm our business.

We currently incorporate AI technology in certain of our products and services and in our business operations. Our research and development of such technology remains ongoing. AI presents risks and challenges and may result in unintended consequences that could affect its further development or our and our customers' adoption and use of this technology. AI algorithms and training methodologies may be flawed. Additionally, AI technologies are complex and rapidly evolving, and we face significant competition in the market and from other companies regarding such technologies. Leveraging AI capabilities to potentially improve our internal functions and operations also presents further risks, costs, and challenges. While we aim to develop and use AI responsibly and attempt to identify and mitigate ethical and legal issues presented by its use, we may be unsuccessful in identifying or resolving issues before they arise. The AI-related legal and regulatory landscape remains uncertain and may be inconsistent from jurisdiction to jurisdiction. Our obligations to comply with the evolving legal and regulatory landscape could entail significant costs or limit our ability to incorporate certain AI capabilities into our offerings. AI-related issues, deficiencies and/or failures could also give rise to legal and/or regulatory action, including with respect to proposed legislation regulating AI in jurisdictions such as the European Union and others, and as a result of new applications of existing data protection, privacy, intellectual property, and other laws; damage our reputation; or otherwise materially harm our business.

We are exposed to the credit risk of some of our customers and to credit exposures in weakened markets, which could result in material losses.

Most of our sales are on an open credit basis, with typical payment terms of 30 days in the United States, and, because of local customs or conditions, longer in some markets outside the United States. Beyond our open credit arrangements, we have also experienced demands for customer financing and facilitation of leasing arrangements. Our loan financing arrangements may include not only financing the acquisition of our products and services but also providing additional funds for other costs associated with network installation and integration of our products and services. Our exposure to the credit risks relating to our

financing activities may increase if our customers are negatively impacted by a global economic downturn or periods of economic uncertainty. There can be no assurance that programs we have in place to monitor and mitigate credit risks will be effective. In the past, there have been significant bankruptcies among customers both on open credit and with loan or lease financing arrangements, particularly among Internet businesses and service providers, causing us to incur economic or financial losses. There can be no assurance that additional losses will not be incurred. Although these losses have not been material to date, future losses, if incurred, could materially harm our business, operating results, or financial condition. Additionally, to the degree that turmoil in the credit markets makes it more difficult for some customers to obtain financing, those customers' ability to pay could be adversely impacted, which in turn could materially harm our business, operating results, and financial condition.

We are exposed to fluctuations in the market values of our portfolio investments and in interest rates; impairment of our investments could harm our earnings.

We maintain an investment portfolio of various holdings, types, and maturities. Our portfolio includes available-for-sale debt investments and equity investments, the values of which are subject to market price volatility. If such investments suffer market price declines, as we experienced with some of our investments in the past, we may recognize in earnings the decline in the fair value of our investments below their cost basis. Our privately held investments are subject to risk of loss of investment capital. These investments are inherently risky because the markets for the technologies or products they have under development are typically in the early stages and may never materialize. We could lose our entire investment in these companies. For information regarding the market risks associated with the fair value of portfolio investments and interest rates, refer to the section titled "Quantitative and Qualitative Disclosures About Market Risk."

We are exposed to fluctuations in currency exchange rates that could negatively impact our financial results and cash flows.

Because a significant portion of our business is conducted outside the United States, we face exposure to adverse movements in foreign currency exchange rates, including emerging market currencies which can have extreme currency volatility. An increase in the value of the dollar could increase the real cost to our customers of our products in those markets outside the United States where we sell in dollars and a weakened dollar could increase the cost of local operating expenses and procurement of raw materials to the extent that we must purchase components in foreign currencies. These exposures may change over time as business practices evolve, and they could materially harm our financial results and cash flows.

Failure to retain and recruit key personnel would harm our ability to meet key objectives.

Our success has always depended in large part on our ability to attract and retain highly skilled technical, managerial, sales, and marketing personnel. Competition for such personnel is intense, especially in the Silicon Valley area of Northern California and other major United States locations. Stock incentive plans are designed to reward employees for their long-term contributions and provide incentives for them to remain with us. Volatility or lack of positive performance in our stock price or equity incentive awards, or changes to our overall compensation program, including our stock incentive program, resulting from the management of share dilution and share-based compensation expense or otherwise, may also negatively impact our ability to retain key employees. As a result of one or more of these factors, we may increase our hiring in geographic areas outside the United States, which could subject us to additional geopolitical and exchange rate risk. The loss of services of any of our key personnel; the inability to retain and attract qualified personnel in the future; or delays in hiring required personnel, particularly in engineering and sales fields, could make it difficult to meet key objectives, such as timely and effective product introductions. In addition, companies in our industry whose employees accept positions with competitors frequently claim that competitors have engaged in improper hiring practices. We have received these claims in the past and may receive additional claims in the future.

Adverse resolution of litigation or governmental investigations may harm our operating results or financial condition.

We are a party to lawsuits in the normal course of our business. Additionally, in connection with the Russia and Ukraine war and our decision to stop business operations and orderly wind down our business in Russia and Belarus, there are existing claims and lawsuits in Russia, and the potential for future claims and lawsuits in Russia and/or Belarus, related to such decisions and regulatory requirements. In the event of an unfavorable resolution of any of these lawsuits, the potential outcome could include the seizure of our assets in Russia and/or Belarus, which, collectively, represents less than 0.1% of our total assets at the end of the third quarter of fiscal 2024. Any litigation can be costly, lengthy, and disruptive to normal business operations. Moreover, the results of complex legal proceedings are difficult to predict. An unfavorable resolution of lawsuits or governmental investigations could materially harm our business, operating results, or financial condition. For additional information regarding certain of the matters in which we are involved, see Note 14 to the Consolidated Financial Statements, subsection (f) "Legal Proceedings."

Our operating results may be negatively impacted and damage to our reputation may occur due to the production and sale of counterfeit versions of our products.

As is the case with leading products around the world, our products are subject to efforts by third parties to produce counterfeit versions of our products. While we work diligently with law enforcement authorities in various countries to block the manufacture of counterfeit goods and to interdict their sale, and to detect counterfeit products in customer networks, and have succeeded in prosecuting counterfeiters and their distributors, resulting in fines, imprisonment and restitution to us, there can be no guarantee that such efforts will succeed. While counterfeiters often aim their sales at customers who might not have otherwise purchased our products due to lack of verifiability of origin and service, such counterfeit sales, to the extent they replace otherwise legitimate sales, could negatively impact our operating results.

Changes in our provision for income taxes or adverse outcomes resulting from examination of our income tax returns could negatively impact our results.

Our provision for income taxes is subject to volatility and could be negatively impacted by earnings being lower than anticipated in countries that have lower tax rates and higher than anticipated in countries that have higher tax rates; by changes in the valuation of our deferred tax assets and liabilities; by changes to foreign-derived intangible income, global intangible low-tax income and base erosion and anti-abuse tax, research and development capitalization and amortization, and corporate alternative minimum tax laws, regulations, or interpretations thereof; by expiration of or lapses in tax incentives; by transfer pricing adjustments, including the effect of acquisitions on our legal structure; by tax effects of nondeductible compensation; by tax costs related to intercompany realignments; by changes in accounting principles; or by changes in tax laws and regulations, treaties, or interpretations thereof, including changes to the taxation of earnings of our foreign subsidiaries, the deductibility of expenses attributable to foreign income, and the foreign tax credit rules. Significant judgment is required to determine the recognition and measurement attribute prescribed in the accounting guidance for uncertainty in income taxes. The Organisation for Economic Co-operation and Development (OECD), an international association comprised of 38 countries, including the United States, has made changes and is contemplating additional changes to numerous long-standing tax principles. There can be no assurance that these changes and any contemplated changes if finalized, once adopted by countries, will not have an adverse impact on our provision for income taxes. Further, as a result of certain of our ongoing employment and capital investment actions and commitments, our income in certain countries was subject to reduced tax rates. Our failure to meet these commitments could adversely impact our provision for income taxes. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes. There can be no assurance that the outcomes from these continuous examinations will not have an adverse effect on our operating results and financial condition.

Our business and operations are especially subject to the risks of earthquakes, floods, and other natural catastrophic events (including as a result of global climate change).

Our corporate headquarters, including certain of our research and development operations are located in the Silicon Valley area of Northern California, a region known for seismic activity. Additionally, a certain number of our facilities are located near rivers that have experienced flooding in the past. Also certain of our customers, suppliers and logistics centers are located in regions that have been or may be affected by earthquake, tsunami and flooding or other weather-related activity which in the past has disrupted, and in the future could disrupt, the flow of supply chain components and delivery of products. In addition, global climate change may result in significant natural disasters occurring more frequently and/or with greater intensity, such as drought, wildfires, storms, sea-level rise, changing precipitation, and flooding. We have not to date experienced a material event as a result of these kinds of natural disasters; however, the occurrence of any such event in the future could materially harm our business, operating results, and financial condition.

Terrorism, war, and other events may harm our business, operating results and financial condition.

The continued threat of terrorism and heightened security and military action in response thereto, or any other current or future acts of terrorism, war (such as the on-going Russia and Ukraine war and the Israel-Hamas war), and other events (such as economic sanctions, trade restrictions and reactions of the governments, markets and the general public, including those related to the on-going Russia and Ukraine war) may cause further disruptions to the economies of the United States and other countries and create further uncertainties or could otherwise negatively impact our business, operating results, and financial condition. Likewise, events such as loss of infrastructure and utilities services such as energy, transportation, or telecommunications could have similar negative impacts. To the extent that such disruptions or uncertainties result in delays or cancellations of customer orders or the manufacture or shipment of our products, our business, operating results, and financial condition could be materially harmed.

There can be no assurance that our operating results and financial condition will not be negatively impacted by our incurrence of debt.

As of the end of the third quarter of fiscal 2024, we have senior unsecured notes outstanding in an aggregate principal amount of \$20.3 billion that mature at specific dates from calendar year 2025 through 2064. We have also established a commercial paper program under which we may issue short-term, unsecured commercial paper notes on a private placement basis up to a maximum aggregate amount outstanding at any time of \$15.0 billion, and we had \$11.9 billion in commercial paper notes outstanding under this program as of April 27, 2024. There can be no assurance that our incurrence of this debt or any future debt, including any additional debt to refinance maturing debt, will be a better means of providing liquidity to us than would our use of our existing cash resources. Further, we cannot be assured that our maintenance of this indebtedness or incurrence of future indebtedness will not negatively impact our operating results or financial condition. In addition, changes by any rating agency to our credit rating can negatively impact the value and liquidity of both our debt and equity securities, as well as the terms upon which we may borrow under our commercial paper program or future debt issuances.

Our reputation and/or business could be negatively impacted by ESG matters and/or our reporting of such matters.

There is an increasing focus from regulators, certain investors, and other stakeholders concerning environmental, social, and governance (“ESG”) matters, both in the United States and internationally. We communicate certain ESG-related initiatives, goals, and/or commitments regarding environmental matters, diversity and inclusion, responsible sourcing and social investments, and other matters, in our annual Purpose Report, on our website, in our filings with the SEC, and elsewhere. These initiatives, goals, or commitments could be difficult to achieve and costly to implement. For example, in September 2021, we announced our goal to achieve net zero across all scopes of greenhouse gas emissions by 2040, the achievement of which relies, in large part, on the accuracy of our estimates and assumptions around the enhanced power efficiency of our products, the adoption of renewable energy at customer and supplier sites, and the adoption of certain of our products and services by our customers. We could fail to achieve, or be perceived to fail to achieve, our 2040 net zero goal or other ESG-related initiatives, goals, or commitments. In addition, we could be criticized for the timing, scope or nature of these initiatives, goals, or commitments, or for any revisions to them. To the extent that our required and voluntary disclosures about ESG matters increase, we could be criticized for the accuracy, adequacy, or completeness of such disclosures. Our actual or perceived failure to achieve our ESG-related initiatives, goals, or commitments could negatively impact our reputation or otherwise materially harm our business.

Risks Related to Intellectual Property

Our proprietary rights may prove difficult to enforce.

We generally rely on patents, copyrights, trademarks, and trade secret laws to establish and maintain proprietary rights in our technology and products. Although we have been issued numerous patents and other patent applications are currently pending, there can be no assurance that any of these patents or other proprietary rights will not be challenged, invalidated, or circumvented or that our rights will, in fact, provide competitive advantages to us. Furthermore, many key aspects of networking technology are governed by industrywide standards, which are usable by all market entrants. In addition, there can be no assurance that patents will be issued from pending applications or that claims allowed on any patents will be sufficiently broad to protect our technology. In addition, the laws of some foreign countries may not protect our proprietary rights to the same extent as do the laws of the United States. The outcome of any actions taken in these foreign countries may be different than if such actions were determined under the laws of the United States. Although we are not dependent on any individual patents or group of patents for particular segments of the business for which we compete, if we are unable to protect our proprietary rights to the totality of the features (including aspects of products protected other than by patent rights) in a market, we may find ourselves at a competitive disadvantage to others who need not incur the substantial expense, time, and effort required to create innovative products that have enabled us to be successful.

We may be found to infringe on intellectual property rights of others.

Third parties, including customers, have in the past and may in the future assert claims or initiate litigation related to exclusive patent, copyright, trademark, and other intellectual property rights to technologies and related standards that are relevant to us. These assertions have increased over time as a result of our growth and the general increase in the pace of patent claims assertions, particularly in the United States. Because of the existence of a large number of patents in the networking field, the secrecy of some pending patents, and the rapid rate of issuance of new patents, it is not economically practical or even possible to determine in advance whether a product or any of its components infringes or will infringe on the patent rights of others. The asserted claims and/or initiated litigation can include claims against us or our manufacturers, suppliers, or customers, alleging infringement of their proprietary rights with respect to our existing or future products or components of those products. Regardless of the merit of these claims, they can be time-consuming, result in costly litigation and diversion of technical and management personnel, or require us to develop a non-infringing technology or enter into license agreements. Where claims are made by customers, resistance even to unmeritorious claims could damage customer relationships. There can be no assurance

that licenses will be available on acceptable terms and conditions, if at all, or that our indemnification by our suppliers will be adequate to cover our costs if a claim were brought directly against us or our customers. Furthermore, because of the potential for high court awards that are not necessarily predictable, it is not unusual to find even arguably unmeritorious claims settled for significant amounts. If any infringement or other intellectual property claim made against us by any third party is successful, if we are required to indemnify a customer with respect to a claim against the customer, or if we fail to develop non-infringing technology or license the proprietary rights on commercially reasonable terms and conditions, our business, operating results, and financial condition could be materially harmed. For additional information regarding our indemnification obligations, see Note 14(e) to the Consolidated Financial Statements contained in this report. Our exposure to risks associated with the use of intellectual property may be increased as a result of acquisitions, as we have a lower level of visibility into the development process with respect to such technology or the care taken to safeguard against infringement risks. Further, in the past, third parties have made infringement and similar claims after we have acquired technology that had not been asserted prior to our acquisition.

We rely on the availability of third-party licenses.

Many of our products are designed to include software or other intellectual property licensed from third parties. It may be necessary in the future to seek or renew licenses relating to various aspects of these products. There can be no assurance that the necessary licenses would be available on acceptable terms, if at all. The inability to obtain certain licenses or other rights or to obtain such licenses or rights on favorable terms, or the need to engage in litigation regarding these matters, could materially harm our business, operating results, and financial condition. Moreover, the inclusion in our products of software or other intellectual property licensed from third parties on a nonexclusive basis could limit our ability to protect our proprietary rights in our products.

Risks Related to Cybersecurity, Privacy, and Regulatory Requirements

Cyber attacks, data breaches or other incidents impacting our solutions and IT environment may disrupt our operations, harm our operating results and financial condition, and damage our reputation or otherwise materially harm our business; and cyber attacks, data breaches or other incidents on our customers' or third-party providers' networks, or in third-party products we use, could result in claims of liability against us, give rise to legal and/or regulatory action, damage our reputation or otherwise materially harm our business.

We experience cyber attacks and other attempts to gain unauthorized access on a regular basis to (i) our products and services (together, our “solutions”) and (ii) the servers, data centers, networks, systems, and cloud-based services operated or enabled by us, or by third parties upon which we rely, on or through which our and third-party data are stored, processed, or can be accessed (collectively, our “IT environment”). We anticipate continuing to be increasingly subject to such attempts as cyber attacks become more sophisticated and difficult to predict and protect against. Despite our active implementation of security and other measures, our solutions and IT environment have been, and continue to be, vulnerable to cyber attacks, incidents, data breaches, malware, inadvertent error, disruptions, failures, physical security breaches, tampering or other theft or misuse, including by employees, contingent workers, and malicious actors. Additionally, nation-state actors or their agents have in the past attacked our IT environment and have also exploited vulnerabilities in our solutions to carry out attacks, and we anticipate that these attacks and the exploitation of vulnerabilities in our solutions will continue and may intensify during periods of diplomatic or armed conflict. Further, a cyber attack or other incident could go undetected and persist in our environments for extended periods. Cyber-related events have caused, and in the future could result in, compromise to, or the disruption of access to, the operation of our solutions and IT environment or those of our customers or third-party providers upon which we rely, or result in confidential information stored on our systems or our customers' or other third-party systems being improperly accessed, processed, disclosed now (or in the future), or be lost or stolen. Efforts to limit the ability of malicious actors to disrupt the operations of the Internet or undermine our security efforts are costly to implement and may not be successful. Breaches of security in our IT environment, our customers' or third-party providers' networks, or in third-party products we use, regardless of whether the breach is attributable to a vulnerability in our solutions, a failure by us to timely mitigate or apply a security fix for third-party products we use that are found vulnerable, or a failure to maintain the digital security infrastructure or security tools that protect the integrity of our solutions and IT environment, could, in each case, result in claims of legal and/or regulatory action against us, damage our reputation or otherwise materially harm our business. The occurrence of a cyber attack, data breach or other incident could subject us to liability to our customers, data subjects, suppliers, business partners, employees, and others, give rise to legal and/or regulatory action, could damage our reputation or could otherwise negatively impact our business, any of which could materially harm our business, operating results, and financial condition.

Vulnerabilities and critical security defects, prioritization decisions regarding remedying vulnerabilities or security defects, failure of third-party providers to remedy vulnerabilities or security defects, or customers not deploying security updates in a timely manner or deciding not to upgrade our solutions could result in claims of liability against us, damage our reputation, or otherwise materially harm our business.

The products and services (together, our “solutions”) we sell to customers, and the cloud-based services operated or enabled by us, or by third parties upon which we rely, inevitably contain vulnerabilities or security defects (despite our efforts to prevent and detect them through secure development lifecycle practices, testing, and other means), which have not been remedied and cannot be disclosed without compromising security. We also make prioritization decisions in determining which vulnerabilities or security defects to fix and the timing of these fixes. Even when we prioritize a vulnerability or security defect, in certain instances it has taken, and in the future could take, time for us to develop a remedy and the remedy may ultimately be insufficient to fully fix the issue. In addition, workarounds or other mitigation efforts in certain instances have not been, and in the future may not be, available or sufficient to protect customers prior to a security update being made available. Vulnerabilities can persist even after we have issued security updates if we have not identified and addressed the root cause of a particular vulnerability, if customers have not installed the most recent updates, if the attackers exploited the vulnerabilities before a security update is applied to install additional malware to further compromise customers’ systems, or if a previously patched vulnerability is inadvertently reintroduced due to a security regression during future development. Additionally, customers may also need to test security updates before they can be deployed which can delay implementation. When customers do not deploy security updates in a timely manner, use solutions that are end of life and no longer receive security updates, or decide not to upgrade to the latest versions of our solutions containing the security update, they are left vulnerable. In addition, we rely on third-party providers of software and cloud-based services on which our and third-party data is stored or processed, and we cannot control the timing at which third-party providers remedy vulnerabilities, which could leave us vulnerable. Failure to comply with internal security policies and standards, including secure development lifecycle practices, failure to prevent or promptly mitigate vulnerabilities and security defects, prioritization errors in remedying vulnerabilities or security defects, failure of third-party providers to remedy vulnerabilities or security defects, or customers not deploying security updates in a timely manner or deciding not to upgrade solutions could, in each case, result in claims of legal and/or regulatory action against us, damage our reputation, or otherwise materially harm our business.

Our actual or perceived failure to adequately protect personal data could result in claims of legal and/or regulatory action against us, damage our reputation or otherwise materially harm our business.

Global privacy and data protection-related laws and regulations are evolving, extensive, and complex. Compliance with these laws and regulations is difficult and costly. In addition, evolving legal requirements restricting or controlling the collection, processing, or cross-border transmission of data, including for regulation of cloud-based services, could materially affect our customers’ ability to use, and our ability to sell, our products and services. The interpretation and application of these laws in some instances is uncertain, and our legal and regulatory obligations are subject to frequent changes. For example, the European Union’s (“EU”) General Data Protection Regulation (“GDPR”) applies to our activities conducted from an establishment in the EU or related to products and services offered in the EU and imposes a range of compliance obligations regarding the handling of personal data. Additionally, we are subject to California’s Consumer Privacy Act and other laws, regulations and obligations that relate to the handling of personal data. Our actual or perceived failure to comply with applicable laws and regulations or other obligations relating to personal data, or to protect personal data from unauthorized access, use, or other processing, could subject us to liability to our customers, data subjects, suppliers, business partners, employees, and others, give rise to legal and/or regulatory action, could damage our reputation or could otherwise negatively impact our business, any of which could materially harm our operating results and financial condition.

Our business, operating results and financial condition could be materially harmed by evolving regulatory uncertainty or obligations applicable to our products and services.

Changes in regulatory requirements applicable to the industries and sectors in which we operate, in the United States and in other countries, could materially affect the sales and use of our products and services. In particular, economic sanctions and changes to export and import control requirements have impacted and may continue to impact our ability to sell and support our products and services in certain jurisdictions. In addition, changes in telecommunications regulations could impact our service provider customers’ purchase of our products and services, and they could also impact sales of our own regulated offerings. Additional areas of uncertainty that could impact sales of our products and services include laws, regulations, or customer procurement requirements related to encryption technology, data, artificial intelligence, privacy, cybersecurity, environmental sustainability (including climate change), human rights, product certification, product accessibility, country of origin, and national security controls applicable to our supply chain. Changes in regulatory requirements or our actual or perceived failure to comply with applicable laws and regulations or other obligations could materially harm our business, operating results, and financial condition.

Risks Related to Ownership of Our Stock

Our stock price may be volatile.

Historically, our common stock has experienced substantial price volatility, particularly as a result of variations between our actual financial results and the published expectations of analysts and as a result of announcements by our competitors and us. Furthermore, speculation in the press or investment community about our strategic position, financial condition, results of operations, business, security of our products, or significant transactions can cause changes in our stock price. In addition, the stock market has experienced extreme price and volume fluctuations that have affected the market price of many technology companies, in particular, and that have often been unrelated to the operating performance of these companies. These factors, as well as general economic and political conditions and the announcement of proposed and completed acquisitions or other significant transactions, or any difficulties associated with such transactions, by us or our current or potential competitors, may materially harm the market price of our common stock in the future. Additionally, volatility, lack of positive performance in our stock price or changes to our overall compensation program, including our stock incentive program, may negatively impact our ability to retain key employees, virtually all of whom are compensated, in part, based on the performance of our stock price.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

- (a) None.
- (b) None.
- (c) Issuer Purchases of Equity Securities (in millions, except per-share amounts):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
January 28, 2024 to February 24, 2024	8	\$ 49.69	8	\$ 8,012
February 25, 2024 to March 23, 2024	8	\$ 49.21	8	\$ 7,630
March 24, 2024 to April 27, 2024	10	\$ 48.82	10	\$ 7,172
Total	26	\$ 49.22	26	

On September 13, 2001, we announced that our Board of Directors had authorized a stock repurchase program. The remaining authorized amount for stock repurchases under this program is approximately \$7.2 billion with no termination date.

For the majority of restricted stock units granted, the number of shares issued on the date the restricted stock units vest is net of shares withheld to meet applicable tax withholding requirements. Although these withheld shares are not issued or considered common stock repurchases under our stock repurchase program, and therefore are not included in the preceding table, they are treated as common stock repurchases in our financial statements as they reduce the number of shares that would have been issued upon vesting.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Rule 10b5-1 Trading Arrangements

On February 22, 2024, M. Victoria Wong, Cisco's Senior Vice President and Chief Accounting Officer, adopted a trading plan intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. Ms. Wong's trading plan provides for the sale of 30,151 gross shares, excluding, as applicable, any shares withheld to satisfy tax withholding obligations in connection with the net settlement of the equity awards. Ms. Wong's trading plan is scheduled to terminate on March 21, 2025, subject to early termination for certain specified events set forth therein.

On February 28, 2024, Charles H. Robbins, Cisco's Chair and Chief Executive Officer, adopted a trading plan intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. Mr. Robbins' trading plan provides for the sale of 484,640 gross shares (with any shares underlying performance-based equity awards being calculated at target), plus any related dividend-equivalent shares earned with respect to such shares and excluding, as applicable, any shares withheld to satisfy tax withholding obligations in connection with the net settlement of the equity awards. Mr. Robbins' trading plan is scheduled to terminate on March 21, 2025, subject to early termination for certain specified events set forth therein.

On March 4, 2024, R. Scott Herren, Cisco's Executive Vice President and Chief Financial Officer, adopted a trading plan intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. Mr. Herren's trading plan provides for the sale of 256,366 gross shares (with any shares underlying performance-based equity awards being calculated at target), plus any related dividend-equivalent shares earned with respect to such shares and excluding, as applicable, any shares withheld to satisfy tax withholding obligations in connection with the net settlement of the equity awards. Mr. Herren's trading plan is scheduled to terminate on March 21, 2025, subject to early termination for certain specified events set forth therein.

On March 15, 2024, Thimaya Subaiya, Cisco's Executive Vice President, Operations, adopted a trading plan intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act. Mr. Subaiya's trading plan provides for the sale of 112,862 gross shares (with any shares underlying performance-based equity awards being calculated at target), plus any related dividend-equivalent shares earned with respect to such shares and shares from purchases made pursuant to Cisco's employee stock purchase plan, and excluding, as applicable, any shares withheld to satisfy tax withholding obligations in connection with the net settlement of the equity awards. Mr. Subaiya's trading plan is scheduled to terminate on March 21, 2025, subject to early termination for certain specified events set forth therein.

The information below is reported in lieu of information that would be reported under Item 5.02 under Form 8-K.

Compensatory Arrangement of Certain Officer

On May 15, 2024, Maria Martinez, former Executive Vice President and Chief Operating Officer of Cisco, entered into a Separation Agreement and General Release (the "Separation Agreement") in connection with her termination of employment as an Executive Advisor effective May 15, 2024. The Separation Agreement provides that Ms. Martinez will be entitled to accelerated vesting of the time-based restricted stock unit awards which are scheduled to vest between August 10, 2024 and November 10, 2025 and will be deemed eligible for retirement vesting of certain performance-based restricted stock units. Ms. Martinez will also be entitled to a cash payment in the amount of \$2,814,307.22, which is equal to eighteen months of her annual base salary, her annual target bonus award, and 17 months of COBRA premiums.

In consideration for such benefits, Ms. Martinez executed a release of claims relating to her employment and agreed to comply with the terms of the Separation Agreement, Cisco's Code of Business Conduct and related policies, and Cisco's Proprietary Information and Inventions Agreement.

The foregoing description of the Separation Agreement is qualified in its entirety by reference to the Separation Agreement, a copy of which is filed as Exhibit 10.2 to this Quarterly Report on Form 10-Q.

Item 6. Exhibits

The following documents are filed as exhibits to this report:

(Principal Financial Officer and duly authorized signatory)

SEPARATION AGREEMENT AND GENERAL RELEASE

April 15, 2024
Maria Martinez
[***]
[***]

Dear Maria:

Thank you for your service with Cisco Systems, Inc. (“Cisco” or “Company”). You transitioned from EVP and Chief Operating Officer to Executive Advisor on March 5, 2024. This Separation Agreement and General Release (“Agreement”) sets forth the terms of your separation from Cisco as an Executive Advisor.

Your employment with Cisco will cease on May 15, 2024 (the “Termination Date”). Reference to the “Notification Date” refers to the date of this letter and Agreement, noted above.

During the period of time between March 5, 2024 and your Termination Date (the “Transition Period”) you will be expected to, as needed, report into work, assist in the transition of your job duties, and perform any necessary tasks. During the Transition Period, you will continue to receive your **Base Pay**¹, subject to applicable payroll deductions, applicable payroll taxes and authorized after-tax deductions. You will also continue to accrue PTO, and continue to be eligible to receive benefits as discussed herein until your Termination Date.

Although your health coverage will end on the last day of the month in which your employment terminates, you may be eligible to continue that coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA) at your own expense. Subject to the section of this Agreement entitled “Equity Awards,” all of your other benefits, including, but not limited to, vesting of stock options, restricted shares and/or restricted stock units and participation in the employee stock purchase plan (ESPP), will end on your Termination Date. Subject to the section of this Agreement entitled “Equity Awards,” whether or not you sign this Agreement, any unvested equity-based awards, including without limitation Cisco stock options, performance stock units and restricted stock units you may hold, will be cancelled on your Termination Date. Furthermore, effective on your Termination Date, you will cease to be eligible for or receive any payments pertaining to the Fiscal Year (“FY”) 2024 Executive Leadership Team Executive Incentive Plan (also known as “ELT EIP”). Please see terms below for Bonus treatment.

¹ “Base Pay” is your fixed salary compensation (if you receive salary and are not paid overtime), or hourly pay based on your regular full-time or part-time schedule, as applicable, (if you are paid on an hourly basis or receive salary and are paid overtime), as of your Notification Date which does not include accrual of PTO or variable forms of compensation such as, but not limited to, overtime, on-call pay, lead premiums, shift differentials, bonuses, incentive compensation, stock options, or expense allowances or reimbursements.

Please read the following paragraphs carefully as they set forth the terms of our separation agreement, the available separation benefits, and contain a release of claims. If you agree to the terms of this Agreement after considering them, you are asked to sign and accurately date where indicated and this Agreement will be binding upon you. The separation benefits provided by this Agreement shall become available on or about fourteen (14) business days following the Effective Date (as defined below), provided you have complied with all of your obligations and the terms of this Agreement.

I. What You Will Receive: In exchange for entering into this Agreement and provided you do not exercise your right to revoke this Agreement, Cisco will provide you with the benefits described below (“Separation Benefits”):

- **Separation Pay – Base:** You will be paid a lump sum equal to eighteen (18) months of your Base Pay. Under this formula, your Separation Pay amount is **\$1,345,313**, which shall be paid in a lump sum, less applicable payroll deductions, applicable payroll taxes and authorized after-tax deductions.
- **Bonus Equivalent Payment :** You will receive a payment equal to **\$1,435,000**, which is equivalent to your annual bonus at target. This amount shall be paid lump sum, less applicable payroll deductions, applicable payroll taxes and authorized after-tax deductions.
- **An Amount to Cover Your COBRA Payment:** A lump sum payment equal to seventeen (17) months of COBRA premiums or \$33,994.22 for you and your eligible dependents at the same level and for the same eligible dependents covered as of your Termination Date. Please note that if you choose and are eligible to continue your health coverage through COBRA, you are solely responsible for timely election of COBRA continuing coverage and for making all COBRA premium payments.
- **Equity Awards:**

Restricted Stock Units

The vesting of (i) 25,094 unvested restricted stock units that would have vested on August 10, 2024; (ii) 66,525 unvested restricted stock units that would have vested on November 10, 2024; (iii) 30,124 unvested restricted stock units that would have vested on February 10, 2025; (iv) 28,075 unvested restricted stock units that would have vested on May 10, 2025; (v) 28,075 unvested restricted stock units that would have vested on August 10, 2025; and (vi) 28,077 unvested restricted stock units that would have vested on November 10, 2025, will accelerate and immediately vest as of your Termination Date (the “**Accelerated RSUs**”), subject to your acceptance of and continued compliance with this Agreement. Such Accelerated RSUs will be settled no earlier than May 15, 2024 and no later than June 15, 2024. For clarity, any unvested equity awards that would have vested after **November 10, 2025** (or after your Termination Date for awards that are not accelerated as set forth in the next paragraph), other than equity awards that continue to vest in accordance with their terms, will be cancelled as of your actual termination of employment from Cisco. If you hold any deferred RSUs, other RSUs subject to Section

409A or performance-based RSUs (“**PRSUs**”), however, any accelerated shares will be settled in accordance with the terms of such awards, and any PRSUs you hold will continue to be subject to any performance-based vesting conditions that apply to such RSUs.

No stock option or stock appreciation right, however, that has been structured to either comply with Section 409A of the Internal Revenue Code of 1986, as amended ("Section 409A") or be exempt from Section 409A under the short-term deferral rule will be accelerated. Further, if such acceleration would result in one or more incentive stock options ("ISOs") held by you becoming nonqualified stock options for tax purposes, such ISOs shall not be accelerated. Should you have any questions on this section, contact People Support at [***] or [***].

Performance-based Restricted Stock Units

The following PRSUs for which you are eligible for Retirement vesting (which, specifically, are PRSU grant numbers 1525196 and 1571823) shall otherwise continue to be subject to the terms and conditions of the applicable PRSU Agreement.

On your Termination Date, you will also be deemed eligible for Retirement vesting (as such term is defined in the Company’s PRSU Agreement) for PRSU grant number 1628522. These PRSUs shall otherwise continue to be subject to the terms and conditions of the PRSU Agreement.

II. What You Are Agreeing To Release: Except as set forth in Section IV, which identifies claims expressly excluded from this release, in consideration for the Separation Agreement Benefits set forth in Section I, you release Cisco, any affiliated companies of Cisco, any Cisco sponsored or established benefit plans, the administrators, fiduciaries, and trustees of any Cisco sponsored or established benefit plans, and the current and former officers, directors, agents, employees and assigns of Cisco, of any affiliated companies of Cisco and of any Cisco sponsored or established benefit plans, to the maximum extent permitted by law, from any and all known and unknown claims up through the date that you execute this Separation Agreement. The claims which you are releasing include, but are not limited to, those related to your employment with Cisco and the termination thereof. All such claims (including related claims for attorneys’ fees and costs) are waived and released without regard to whether those claims are based on any alleged breach of a duty arising in statute, contract, or tort. This expressly includes waiver and release of all claims for monetary damages and any other form of individual relief and any claims arising under any and all laws, rules, regulations, or ordinances, including but not limited to the Age Discrimination in Employment Act (“**ADEA**”); the Family and Medical Leave Act (“**FMLA**”); the Worker Adjustment and Retraining Notification Act; Title VII of the Civil Rights Act of 1964; the Americans with Disabilities Act; the Employee Retirement Income Security Act (“**ERISA**”); the Equal Pay Act of 1963; the California Fair Employment and Housing Act; the California Labor Code and Industrial Welfare Commission Wage Orders; the California Business and Professions Code; and any similar laws of any state or governmental entity, provided however nothing in this Separation Agreement shall limit any right you may have to receive a monetary award from a government agency, including but not limited to the Securities and Exchange Commissions (“**SEC**”) for information provided to the government agency or participating in any government agency action. Similarly, nothing in the Separation Agreement precludes you from communicating in any way with any government agency

including but not limited to the SEC. The claims you are releasing also include claims for any alleged unpaid wages or bonus payments due, as to which you agree that there is a good-faith dispute as to whether such wages or bonuses are due.

California law will govern this Separation Agreement, except to the extent preempted by federal law; however, this provision adopting California law does not apply to the enclosed Cisco Mutual Agreement to Arbitrate, which is governed by the Federal Arbitration Act (9 U.S.C. §§ 1-16).

You further waive any rights under Section 1542 of the Civil Code of the State of California or any similar state statute. Section 1542 states:

“A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party.”

You further acknowledge that, as of your signing of this Separation Agreement, the Company has paid to you all salary or hourly wages, accrued vacation, bonuses and/or commissions, and any and all other benefits or wages due to you through the Termination Date, and that the only payments and benefits that you are entitled to receive from the Company in the future are those specified in this Agreement. If you are a non-exempt employee, you further represent that you have recorded all work time in the Company’s timekeeping system and have not worked any time off-the-clock that you have not recorded.

III. Timeline For Considering And Signing This Agreement: You understand and acknowledge that you have been provided a period of thirty-two (32) calendar days within which to decide whether you will execute this Agreement, no one hurried you into executing this Agreement during that period, and no one coerced you into executing this Agreement. The offer of this Agreement shall expire at the end of the thirty-second (32nd) calendar day after the Notification Date (the **“Expiration Date”**).

To accept the Separation Agreement and General Release, you must follow these steps:

- 1) sign, accurately date, and otherwise complete (without modification) your Separation Agreement and General Release via DocuSign; and,
- 2) sign, accurately date, and otherwise complete the enclosed Cisco Mutual Agreement to Arbitrate via DocuSign;

before the end of the day on **May 17, 2024**. As discussed previously, your employment will terminate on your Termination Date.

You understand that unless more time is required by applicable law, you have a period of seven (7) calendar days after signing to revoke your acceptance of this Agreement. You must deliver written notification of revocation via email to: [***] on or before the end of the seventh (7th) calendar day after you originally signed it. If you timely revoke the Separation Agreement and

General Release, your employment will remain terminated and will no longer be eligible for Separation Benefits and Pay under this agreement. You understand and agree that your employment with Cisco is at-will: both you and Cisco are free to terminate your employment at any time for any reason, with or without cause or advance notice.

This Agreement will become effective and enforceable on the date that the revocation period has expired, provided that you have delivered the signed Agreement to Cisco, Cisco has accepted it and you have not revoked it (the “**Effective Date**”). Your separation payment(s) will be made available to you on or about the fourteenth (14th) business day after the Effective Date, provided you have complied with all of your obligations and the terms of this Agreement.

If you exercise your right of revocation, your employment termination will remain in effect; however, you will not be entitled to the Separation Benefits.

Cisco reserves the right after receiving your signed Agreement to reject it and decline to accept it in the event it is untimely, if it is modified by you, in the event that you engage in misconduct prior to the Termination Date, or in the event of an error in preparation or administration of the Agreement. In the event the Agreement is rejected or not accepted by Cisco, it will be void and unenforceable.

In limited circumstances such as, for example, a medical emergency, Cisco reserves the right in its sole discretion to accept an Agreement signed after the Expiration Date. However, you should not expect that Cisco will accept an Agreement signed after the Expiration Date and this paragraph cannot be used or cited as imposing any obligation on Cisco to accept an Agreement signed after the Expiration Date. Under no circumstances will Cisco accept an Agreement executed or delivered to Cisco more than four (4) months after the date of this Agreement. If you sign the Agreement any time after the Expiration Date, or deliver it to Cisco more than one business day following the Expiration Date (as set forth above), and Cisco accepts the Agreement, you will be solely responsible for any and all tax liabilities, including penalties, excise taxes, and/or interest, if any, under Section 409A of the Internal Revenue Code of 1986 (“Section 409A”).

IV. Protecting Your Rights: In understanding the terms of this Separation Agreement and your rights, you are advised to consult with an attorney of your choice at your expense prior to signing it. Also, the only claims that you are not waiving and releasing under this Separation Agreement are claims you may have for (1) unemployment, state disability, worker's compensation, and/or paid family leave insurance benefits under applicable state law; (2) continuation of existing participation in Cisco-sponsored group health benefit plans, at your own expense, under COBRA and/or under an applicable state law counterpart(s); (3) any benefits entitlements that are vested as of your Termination Date under the terms of a Cisco-sponsored benefit plan; (4) violation of any federal, state or local statutory and/or public policy right or entitlement that, by applicable law, is not waivable; (5) any wrongful act or omission occurring after the date you execute this Separation Agreement; (6) any rights you have to indemnification under the Restated Articles of Incorporation of Cisco Systems, Inc. and the Amended and Restated Bylaws of Cisco Systems, Inc., as currently in effect; (7) any rights to insurance coverage, including expense reimbursement, under any D&O insurance policy maintained by Cisco; and (8) any rights or claims you currently have (or in the future may have) for indemnification or contribution, in either case including advancement of

attorneys' fees, pursuant to any indemnification agreements you entered into with Cisco, its charter documents or bylaws, or as provided by law. In addition, nothing in this Separation Agreement, including but not limited to the release of claims provisions, (x) limits or affects your right to challenge the validity of this Agreement under the ADEA or the OWBPA (Older Workers Benefit Protection Act), (y) prevents you from filing a charge or complaint with or from participating in an investigation or proceeding conducted by the Equal Employment Opportunity Commission, National Labor Relations Board, the Securities and Exchange Commission, or any other any federal, state or local agency charged with the enforcement of any laws, including providing documents or any other information, or (z) limits you from exercising rights under Section 7 of the NLRA to engage in protected, concerted activity with other employees, although by signing this Agreement you are waiving rights to individual relief (including backpay, frontpay, reinstatement or other legal or equitable relief) in any charge, complaint, or lawsuit or other proceeding brought by you or on your behalf by any third party, provided however nothing shall limit any right you may have to receive a monetary award from a government agency, including the SEC for information provided to the government agency or participating in any government agency action. If you sign this Separation Agreement, you are agreeing that the benefits you will receive under Section I fully and completely satisfy all claims you might possibly have against Cisco and the other released parties.

You are hereby provided notice that under the 2016 Defend Trade Secrets Act (DTSA): (1) no individual will be held criminally or civilly liable under Federal or State trade secret law for the disclosure of a trade secret (as defined in the Economic Espionage Act) that: (A) is made in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and made solely for the purpose of reporting or investigating a suspected violation of law; or, (B) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal so that it is not made public; and, (2) an individual who pursues a lawsuit for retaliation by an employer for reporting a suspected violation of the law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual files any document containing the trade secret under seal, and does not disclose the trade secret, except as permitted by court order.

WARNING: You are cautioned that important exercise rights regarding certain stock options commence running as of your Termination Date. You may be required to exercise your vested options as early as the final date of your employment, meanwhile thirty (30), sixty (60), or ninety (90) calendar day exercise periods from your final date of employment may also exist. Cisco will send you a courtesy notice regarding the exercise of these options usually within fifteen (15) business days of your final date of employment, but it is your responsibility independently to determine your rights and take appropriate action. Failure to receive such a notice from Cisco following your Termination Date will not justify your failure to exercise vested options within the appropriate post-termination exercise period as set forth in your individual stock option grant agreements. Cisco disclaims any verbal or written representations or advice on the exercise of stock options other than what is contained in your written stock option grant agreements. You are encouraged to seek independent professional financial advice.

If you are age 40 or older at the time this Agreement is provided to you, you acknowledge that pursuant to the OWBPA, a material change made to this Agreement restarts the period for you to

consider whether to agree to the terms of the Agreement. Nevertheless, you and Cisco agree that any modification made to this Agreement, regardless of whether such modification is material, shall not restart the running of that period.

V. Deferred Compensation Information and Tax Consequences: Notwithstanding anything to the contrary set forth herein but subject to the section of this Agreement entitled “Equity Awards,” all payments and benefits described in this Agreement that are not otherwise exempt from Section 409A which establishes personal tax and penalty liability for certain deferred compensation, shall be fully paid no later than the short-term deferral deadline set forth in Treasury Regulation Section 1.409A-1(b)(4). In the event that any change to this Agreement or any additional terms are required to comply with Section 409A (or an exemption therefrom), you hereby agree that Cisco may make such change or incorporate such terms (by reference or otherwise) without your consent.

Please note that if you participate in Cisco’s Deferred Compensation Plan, have deferred receipt of shares underlying your Cisco restricted stock units, or participate in any other Cisco deferred compensation arrangement or plan, your termination of employment for purposes of the distribution rules under such arrangements and plans will be your Notification Date unless you are reasonably expected to continue providing services to Cisco at a rate greater than 20% of your average level of services in the preceding 36 months, as required and determined under the tax rules that govern such arrangements and plans.

VI. Protecting Cisco’s Rights: In executing this Separation Agreement, you acknowledge that you have not relied upon any statement made by Cisco, or any of its representatives or employees, with regard to this Separation Agreement unless the statement is specifically expressed in this written Separation Agreement. Furthermore, this Separation Agreement contains your entire understanding regarding eligibility for and the payment of Separation Agreement Benefits and supersedes any and all prior representations and agreements regarding the subject matter of this Separation Agreement. The enclosed Cisco Mutual Agreement to Arbitrate, once signed by you and so long as the Separation Agreement is not revoked, supersedes all prior arbitration agreements signed by you in connection with your employment with Cisco. However, except to the extent set forth in this Separation Agreement, this Separation Agreement does not modify, amend or supersede any other written Cisco agreements that are consistent with enforceable provisions of this Separation Agreement such as Cisco’s Proprietary Information and Inventions Agreement (“PIIA”). Specifically, you are expected to comply with Cisco’s Code of Business Conduct (“COBC”) and all its policies. Furthermore, to be eligible to receive the Separation Agreement Benefits, you must not violate any of your agreements with Cisco, including your PIIA. Under the PIIA, you are required to maintain the confidentiality of Cisco proprietary information and materials and return all such information and materials back to Cisco upon your departure. Violations of this Section of the Separation Agreement, the COBC, or the PIIA may result in the forfeiture of the Separation Agreement Benefits provided herein, as well as other remedies and damages. In addition, this Separation Agreement in no way alters the at-will nature of your employment; both you and Cisco are free to terminate your employment at any time for any reason, with or without cause or advance notice. Except for any changes that Cisco may make with respect to Section 409A as set forth in this Separation Agreement, once effective and enforceable, this Separation Agreement can only be changed by another written agreement signed by you and Cisco’s Executive Vice President of People and Communities (or his/her designee).

On or before the date you sign this Separation Agreement, you agree to satisfy any and all outstanding financial obligations to the Company and return to the Company all Company documents (and all copies thereof) and other Company property that you have had in your possession at any time, including but not limited to, Company files, notes, drawings, records, business plans and forecasts, financial information, specifications, computer-recorded information, tangible property (including, but not limited to computers and laptops, etc.), credit cards, entry cards, identification badges and keys; and any materials of any kind which contain or embody any proprietary or confidential information of the Company (and all reproductions thereof). Separation Agreement Benefits will not be provided to you under this Separation Agreement until you comply with this requirement. Notwithstanding anything to the contrary in this Separation Agreement, the PIIA or the COBC, you are permitted (and it shall not constitute a violation of your obligations to Cisco) to (a) provide, upon request, written or verbal professional references on behalf of Cisco employees or contingent workers so long as you state in each such instance that the reference is being provided in your personal capacity; and (b) keep all Cisco-provided home-office equipment, excluding any Cisco-issued laptops. For clarity, you are required to return to Cisco your Cisco-issued Macbook laptop with serial number ending in “MD6T” no later than your Termination Date and if you become aware that you are in possession of any other Cisco-issued laptop, you agree you will return it to Cisco within thirty (30) calendar days of discovery.

You further agree that you will promptly and fully respond to all inquiries from Cisco or any affiliate and its representatives relating to any threatened or pending litigation or administrative proceedings about which you may have any knowledge, and will, if needed, testify truthfully in connection with such litigation or proceedings. Such cooperation shall include meeting and/or conferring with Cisco representatives and counsel at reasonable times to respond to such matters, being available to Cisco upon reasonable notice for interviews and factual investigations, notifying Cisco promptly upon receiving any communication from a third party seeking information about your employment with Cisco, and appearing at Cisco’s request to provide truthful testimony without requiring service of a subpoena or other legal process. Cisco will reimburse you for reasonable and documented expenses actually incurred by you, such as mileage in accordance with IRS rules, in connection with the cooperation described in this paragraph.

VII. Full Disclosure: You confirm that you are not aware of any claim, grounds, facts or circumstances that may give rise to any investigation, claim or audit by any entity, including but not limited to, any state or federal government agency, against Cisco in relation to any matter whatsoever arising during your employment at Cisco.

VIII. Enforceability Of This Agreement: Any controversy or any claim arising out of or relating to your employment or the interpretation, enforceability, or breach of this Agreement shall be settled by arbitration, and Cisco and you agree to arbitration under the employment arbitration rules of JAMS (which can be found at jamsadr.com or from Cisco at your request). The terms of your Arbitration Agreement Acknowledgment shall otherwise continue to apply. You further agree that, except as set forth in the following paragraph, the arbitrator shall not be empowered to add to, subtract from, or modify, alter or amend the terms of this Agreement. Any applicable arbitration

rules, agreement or policy shall be interpreted in a manner so as to ensure their enforceability under applicable state or federal law.

Should any provision of this Agreement be determined by an arbitrator or a court of competent jurisdiction to be wholly or partially invalid or unenforceable, the legality, validity and enforceability of the remaining parts, terms, or provisions are intended to remain in full force and effect.

We trust that the separation payment and other consideration offered herein will assist you in your employment transition. We wish you the best in your future endeavors.

CISCO SYSTEMS, INC.

Notice: Your “Termination Date” is May 15, 2024.

I HAVE READ, UNDERSTAND AND VOLUNTARILY ACCEPT AND AGREE TO THE ABOVE TERMS.

Mutual Agreement to Arbitrate

I understand that Cisco Systems, Inc., its subsidiaries and affiliates, and Cisco Systems Capital Corp. (collectively, “the Company”) value their relationship with employees and hope to avoid potential disputes with employees, though I also understand that disputes may arise on occasion. By entering into this Mutual Agreement to Arbitrate (“Agreement”), the Company and I agree that arbitration will allow us to both gain the benefits of an efficient, impartial, final and binding dispute-resolution procedure.

Claims Covered By This Agreement. The Company and I agree to resolve exclusively through binding arbitration all claims, disputes, or controversies (“claims”), past, present or future, whether or not arising out of my employment (or its termination), that the Company may have against me or that I may have against any of the following: (1) the Company, (2) its officers, directors, employees or agents, (3) the Company’s parent, subsidiary and affiliated entities, (4) the Company’s benefit plans or the plans’ sponsors, fiduciaries, administrators, affiliates and agents (except where the plans expressly preclude arbitration), or (5) all successors and assigns of any of them. Examples of claims that we both agree to submit to arbitration include claims of discrimination, harassment, retaliation, wrongful termination, unpaid wages, breach of contract, defamation, and all other claims related to the employment relationship (or its termination), regardless of whether the claim is brought by me or the Company. The Arbitrator’s decision shall be final and binding upon the parties and subject to review only as provided by Applicable Law (defined below).

Claims Not Covered By This Agreement. This Agreement does not (1) prohibit the filing or pursuit of relief through a court action by me or the Company for any provisional remedy, including a temporary restraining order or preliminary injunction when available by law, before the filing of or during arbitration, (2) cover claims which, under applicable law (after application of Federal Arbitration Act preemption principles), are not subject to or are excluded from arbitration, or (3) restrict my right to file, and recover through, administrative claims with any government agency, or (4) cover claims now pending in litigation in any forum, or (5) apply to a representative claim under California’s Private Attorneys General Act or other state law authorizing me to bring a representative action for civil penalties on behalf of the state (“private attorney general claim”). A private attorney general claim must be litigated in a court of competent jurisdiction and not in arbitration.

Waiver of Class and Collective Action. Through this Agreement, I waive any right to bring, participate in, or recover through any class or collective action.

Arbitration Procedure. The arbitration will be administered by JAMS in accordance with the JAMS Employment Arbitration Rules & Procedures (and no other rules), which are currently available at <http://www.jamsadr.com/rules-employment-arbitration>; however to the extent any part of this Agreement is inconsistent with the JAMS Rules, this Agreement controls. I understand that the Company will supply me with a printed copy of the JAMS Rules upon my request. Notwithstanding any provision of the JAMS Rules, any dispute over the formation, enforceability, validity, or severability of any provision of this Agreement shall be resolved by a court of competent jurisdiction. The Arbitrator shall be a retired judge (the “Arbitrator”), selected jointly by me and the Company and in accordance with the JAMS Rules. The arbitration shall take place in the location of my choice, either: (a) the JAMS office closest to where I live, or (b) the JAMS office closest to the Company office where I work or last worked. If JAMS does not have an office close to where I live or the Company office where I work or last worked, then the arbitration will be administered by a retired judge of the American Arbitration Association, using the JAMS Rules.

Discovery. In accordance with the JAMS Rules, the Company and I will jointly agree on the extent and timeframe of discovery, including the exchange of documents and information and the number, time, location and duration of depositions. Any discovery disagreements will be determined by the Arbitrator.

Confidentiality. Notwithstanding Rule 26 of the Jams Rules, the arbitration will be kept confidential only with my agreement, and I understand that I will not be required to maintain the confidentiality of the arbitration proceeding or award. However, the Arbitrator may issue orders to protect the confidentiality of the Company’s proprietary information, trade secrets or other sensitive information.

Applicable Law. The Federal Arbitration Act shall govern the interpretation and enforcement of this Agreement. If the Federal Arbitration Act is inapplicable for any reason, then the arbitration law of the State in which I work or last worked for the Company shall apply. For claims subject to arbitration, the Arbitrator will apply the substantive law of the State in which I work or worked, or federal law, or both, as applicable.

Arbitration Costs. I understand that if I initiate a claim, I will be required to pay an initial JAMS Case Management Fee pursuant to the JAMS Employment Arbitration Rules & Procedures, and that the balance of administrative fees and costs unique to arbitration shall be allocated as provided in the JAMS Rules and under Applicable Law.

Entire Agreement, Modification, and Severability. This is the complete Agreement between the parties on the subject of arbitration. No party is relying on any representations except as specifically set forth in this Agreement. If any provision of this Agreement is held to be void or unenforceable, that shall not affect the validity of the remainder of the Agreement, and all other provisions shall remain in full force and effect. I acknowledge that I have carefully read this Agreement, that I understand its terms, and that I have entered into the Agreement voluntarily and not in reliance on any promises or representations other than those contained in this Agreement itself.

If any provision of this Agreement is held to be void or unenforceable, that shall not affect the validity of the remainder of the Agreement, and all other provisions shall remain in full force and effect. I acknowledge that I have carefully read this Agreement, that I understand its terms, and that I have not entered into the Agreement in reliance on any promises or representations other than those contained in this Agreement itself.

I understand that both the Company and I are giving up the right to a court or jury trial for claims covered by this Agreement.

I further acknowledge that I have been given the opportunity to discuss this Agreement with my own private legal counsel at my expense and have availed myself of that opportunity to the extent I wish to do so. This Agreement shall become binding on the Company, without need for its signature, once I electronically or physically sign the Agreement.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO
EXCHANGE ACT RULE 13a-14(a)/15d-14(a)
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Charles H. Robbins, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Cisco Systems, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
